CARDBOARD NEEDED:

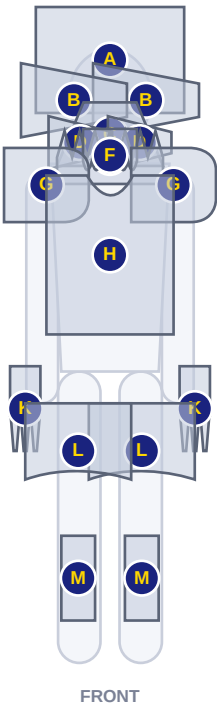

3 Large Boxes (at least 24" × 36" (61 × 91 cm) each)

MISSION GOAL:

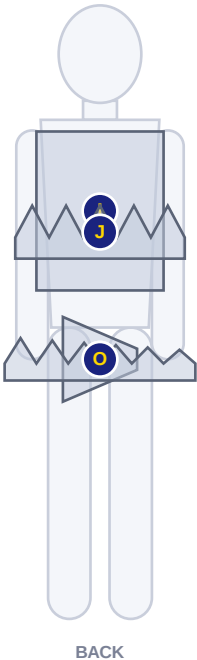

Build and wear a complete 15-piece beast suit: a faceted skull with snout and jaw, neck collar, chest, back, spine ridge, 2 shoulder plates, 2 claw cuffs, 2 thigh plates, 2 shin guards and a scuted tail.

HOW IT ALL GOES TOGETHER — CARDBOARD BEAST SUIT

Every part you cut, shown on the child at its real size, with the letter from its own cut-template page. The grey figure is only there for scale — measure your own child, never this drawing. Pieces that wrap round the head, an arm or a leg are shown as they look once wrapped, not laid flat.

FERRAMENTAS E MATERIAIS

+ 3 caixas de cartão grandes

+ Tesoura

+ X-ato — APENAS PARA ADULTOS

+ Fita de embalar (3+ rolos)

+ Régua e lápis

+ Tinta nas cores da sua criatura

+ Marcador preto para escamas e garras

+ Fita ou elástico para os laços de ombros, braços e pernas

CURIOSIDADE!

O estegossauro tinha placas ao longo do dorso muito parecidas com esta crista. Os cientistas ainda discutem se serviam para defesa, exibição ou regular o calor.

DESAFIO!

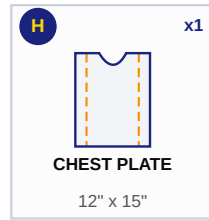

Desafio de besta: decida como a sua criatura se move, o que come e que som faz quando está contente. Depois percorra o corredor dentro da personagem.

1

PASSO 1: APLANAR E PLANEAR

Aplane as 3 caixas e disponha todas as peças antes de cortar seja o que for. Esta é uma construção longa — faça primeiro toda a disposição. Contorne agora o tronco da criança no Peitoral; tudo o resto é medido, mas o peitoral é ajustado.

PEÇAS DESTE PASSO

2

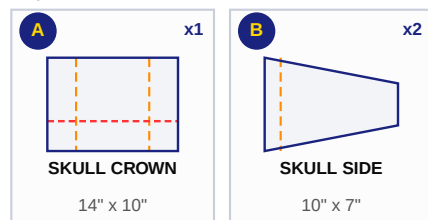

PASSO 2: CORTAR AS PEÇAS DO CRÂNIO

! AJUDA DE UM ADULTO

Corte a Calote do crânio (14" × 10" (36 × 25 cm)) e 2 Laterais do crânio (10" × 7" (25 × 18 cm)). Afine cada Lateral em direção à ponta do focinho. Experimente a Calote na criança: se a borda da frente esconder os olhos, corte fora a tira abaixo da linha de acabamento da sobrancelha e descarte essa tira — a sobrancelha sombreia os olhos, nunca os cobre.

SEGURANÇA: A sobrancelha tem de ficar acima dos olhos. Se a criança tiver de inclinar a cabeça para trás para ver em frente, corte mais alto e tente de novo.

PEÇAS DESTE PASSO

3

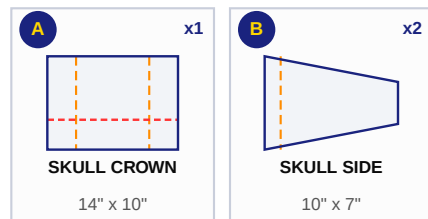

PASSO 3: MONTAR A CAIXA DO CRÂNIO

! AJUDA DE UM ADULTO

Dobre as duas facetas da Calote para baixo. Cole uma Lateral dentro de cada uma, abas para cima sob a calote. Tem agora um crânio angulado e facetado em vez de uma placa plana — é esse facetado que o faz ler como osso. Experimente antes de continuar.

SEGURANÇA: A dois é mais fácil — um segura as facetas no ângulo, outro cola.

PEÇAS DESTE PASSO

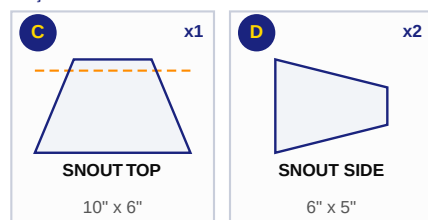

4

PASSO 4: MONTAR O FOCINHO

Dobre a aba do Topo e afine ambos os lados. Cole uma cunha Lateral sob cada aresta para formar uma caixa de três lados aberta em baixo. Cole o conjunto à frente do crânio, inclinado para baixo e para fora.

PEÇAS DESTE PASSO

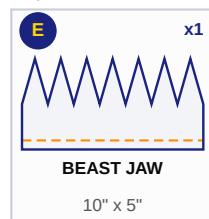

5

PASSO 5: ARTICULAR O MAXILAR

Corte dentes em ziguezague na aresta da frente do Maxilar. Dobre a aba e cole-a sob a parte de trás do focinho para que fique pendurado por baixo. Deixe a boca aberta — é por aí que a criança respira e fala.

SEGURANÇA: Mantenha a abertura da boca livre. Um focinho fechado aquece e abafa a voz em poucos minutos.

PEÇAS DESTE PASSO

6

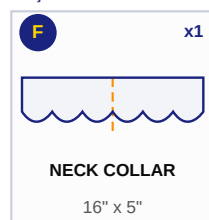

PASSO 6: AJUSTAR O GORJAL

! AJUDA DE UM ADULTO

Corte a aresta festonada do Gorjal e envolva-o SEM APERTAR à volta do pescoço, colado atrás. FOLGADO é a palavra: tem de rodar livremente com a cabeça e sair sozinho se for puxado.

SEGURANÇA: Nunca cole o gorjal apertado nem fechado à volta do pescoço. Assenta nos ombros, não agarra.

PEÇAS DESTE PASSO

7

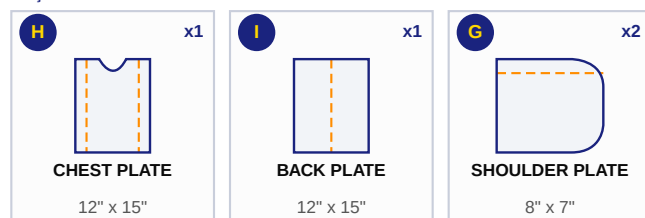

PASSO 7: CORTAR PEITORAL E COSTAS

! AJUDA DE UM ADULTO

Corte o Peitoral e a Placa das costas (12" x 15" (30 x 38 cm) cada). Dobre as laterais do peitoral para trás para envolverem as costelas. Fure os dois cantos superiores de cada um e enfie fita — serão os laços dos ombros.

SEGURANÇA: O adulto faz os furos. Laços sobre os ombros, nunca à volta do pescoço.

PEÇAS DESTE PASSO

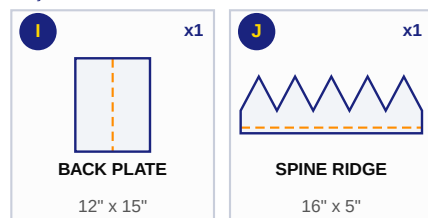

8

PASSO 8: MONTAR A CRISTA DORSAL

Corte espigões triangulares ao longo da Crista — maiores ao meio, menores para as pontas. Dobre a aba de baixo e cole-a pela linha central da Placa das costas para que os espigões fiquem de pé. É o detalhe que as pessoas notam primeiro.

PEÇAS DESTE PASSO

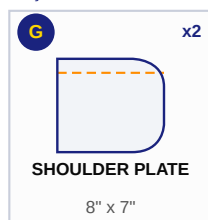

9

PASSO 9: PÔR AS OMBREIRAS

Arredonde a aresta exterior de cada Ombreira. Dobre as abas e ate-as às fitas dos ombros para que assentem sobre a articulação e caiam ligeiramente para fora, como ombreiras a sério. Devem subir quando o braço sobe.

PEÇAS DESTE PASSO

10

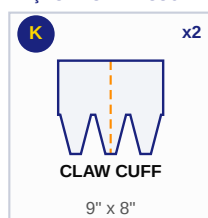

PASSO 10: FAZER AS MANÁPULAS

! AJUDA DE UM ADULTO

Vinque cada Manápula ao centro para dobrar à volta do antebraço. Corte 3 garras na aresta da frente, afine-as e depois ARREDONDE cada ponta. Fure as duas pontas e enfie fita para as atar.

SEGURANÇA: Arredonde as pontas das garras. Cartão pontiagudo à altura das mãos e perto de um rosto vale dez segundos de acerto.

PEÇAS DESTE PASSO

11

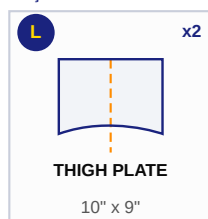

PASSO 11: BLINDAR AS PERNAS

! AJUDA DE UM ADULTO

Vinque cada Coxote e Caneleira ao centro para envolverem. Corte nos Coxotes a curva que liberta o joelho. Ate os coxotes acima do joelho e as caneleiras abaixo, com a folga na articulação. Ande, sente-se, levante-se — se algum laço impedir o joelho de dobrar, mude-o de sítio.

SEGURANÇA: A blindagem das pernas nunca pode restringir o joelho. Testem escadas antes de sair — é esta a peça que provoca quedas.

PEÇAS DESTE PASSO

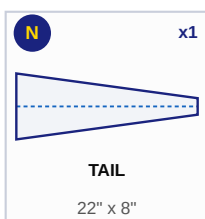

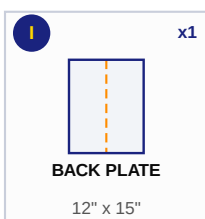

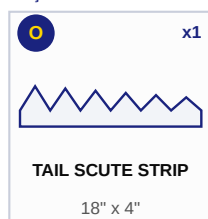

12

PASSO 12: MONTAR A CAUDA

Afine a Cauda de 8" (20 cm) para cerca de 2" (5 cm) na ponta, enrole-a sem apertar num cone comprido e cole a costura. Corte a Tira de espigões em triângulos, menores para a ponta, e cole-os por cima. Cole a extremidade larga à base da Placa das costas para que fique pendurada e balance.

SEGURANÇA: Uma cauda é um risco de tropeço para quem vem atrás. Mantenha-a longe de escadas e avise quem caminhar atrás.

PEÇAS DESTE PASSO

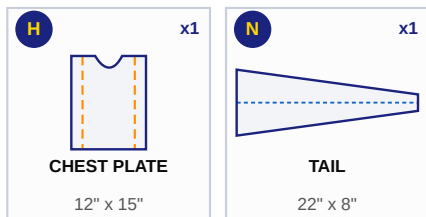

13

PASSO 13: PINTAR E VERIFICAR

Pinte o fato todo e depois trace linhas de escamas a marcador preto pelo crânio, peitoral, costas, pernas e cauda. Teste final: todas as peças vestidas, percorra o corredor, vire a cabeça para os dois lados, levante os dois braços, sente-se e levante-se, suba três degraus. Visão desimpedida, respiração fácil, joelhos a dobrar, nada a cair, cauda a balançar. Compare com a foto de capa — é esse o padrão.

SEGURANÇA: O cartão arde. Mantenha o fato todo longe de velas e abóboras iluminadas, e acrescente fita refletora se sair depois de escurecer.
