HEE-1 INTERSTELLAR COCKPIT

Life-Size Space Cockpit — Sit-In Command Station

Build a full mission control cockpit. The living room is now the launchpad.

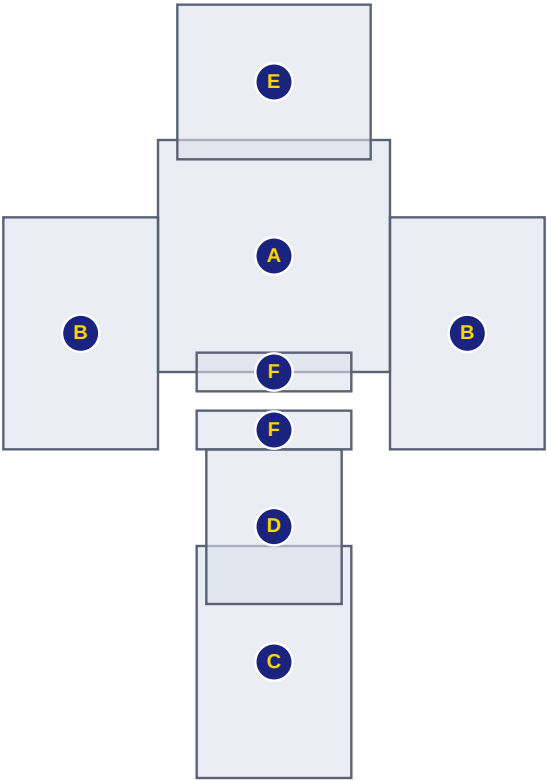

AGES 4–12	BOXES 3–4 Large Boxes	TIME 2 Hours	DIFF Intermediate **	PIECES 6 pcs
--------------	--------------------------	-----------------	-------------------------	-----------------

CARDBOARD NEEDED:
3–4 Large Boxes (at least 24" × 36" (61 × 91 cm) each)

MISSION GOAL:
Build a fully enclosed cockpit: U-shaped console, command seat, main screen, control panels on all surfaces.

HOW IT ALL GOES TOGETHER — HEE-1 INTERSTELLAR COCKPIT

The finished build, plan view, looking down, with every part in the place the steps put it and the letter from its own cut-template page. Parts are drawn at their real size relative to each other, so if a letter is on this picture there is a page for it in this file. Pieces that roll into a tube are shown rolled, not laid flat.

EVERY PART IN THIS BUILD					
A	CONSOLE FRONT PANEL 24" × 24" (61 × 61 cm)	CUT ×1	B	CONSOLE SIDE PANEL 16" × 24" (41 × 61 cm)	CUT ×2
C	SEAT BACK 16" × 24" (41 × 61 cm)	CUT ×1	D	SEAT BASE 14" × 16" (36 × 41 cm)	CUT ×1
E	MAIN SCREEN PANEL 20" × 16" (51 × 41 cm)	CUT ×1	F	CONTROL DETAIL STRIP 16" × 4" (41 × 10 cm)	CUT ×6

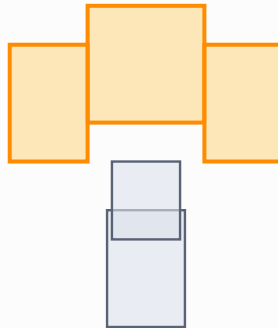

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

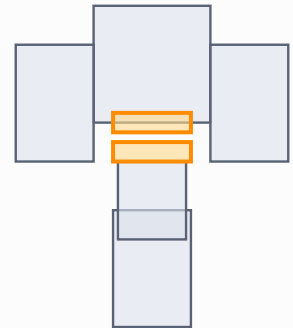

1 BUILD THE SEAT

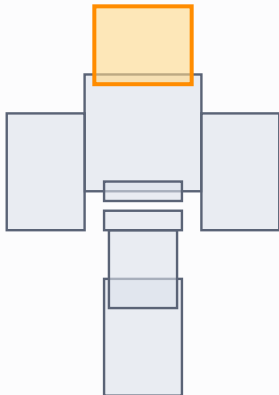

2 BUILD THE CONSOLE

3 FILL THE CONSOLE WITH CONTROLS

4 ADD THE MAIN SCREEN

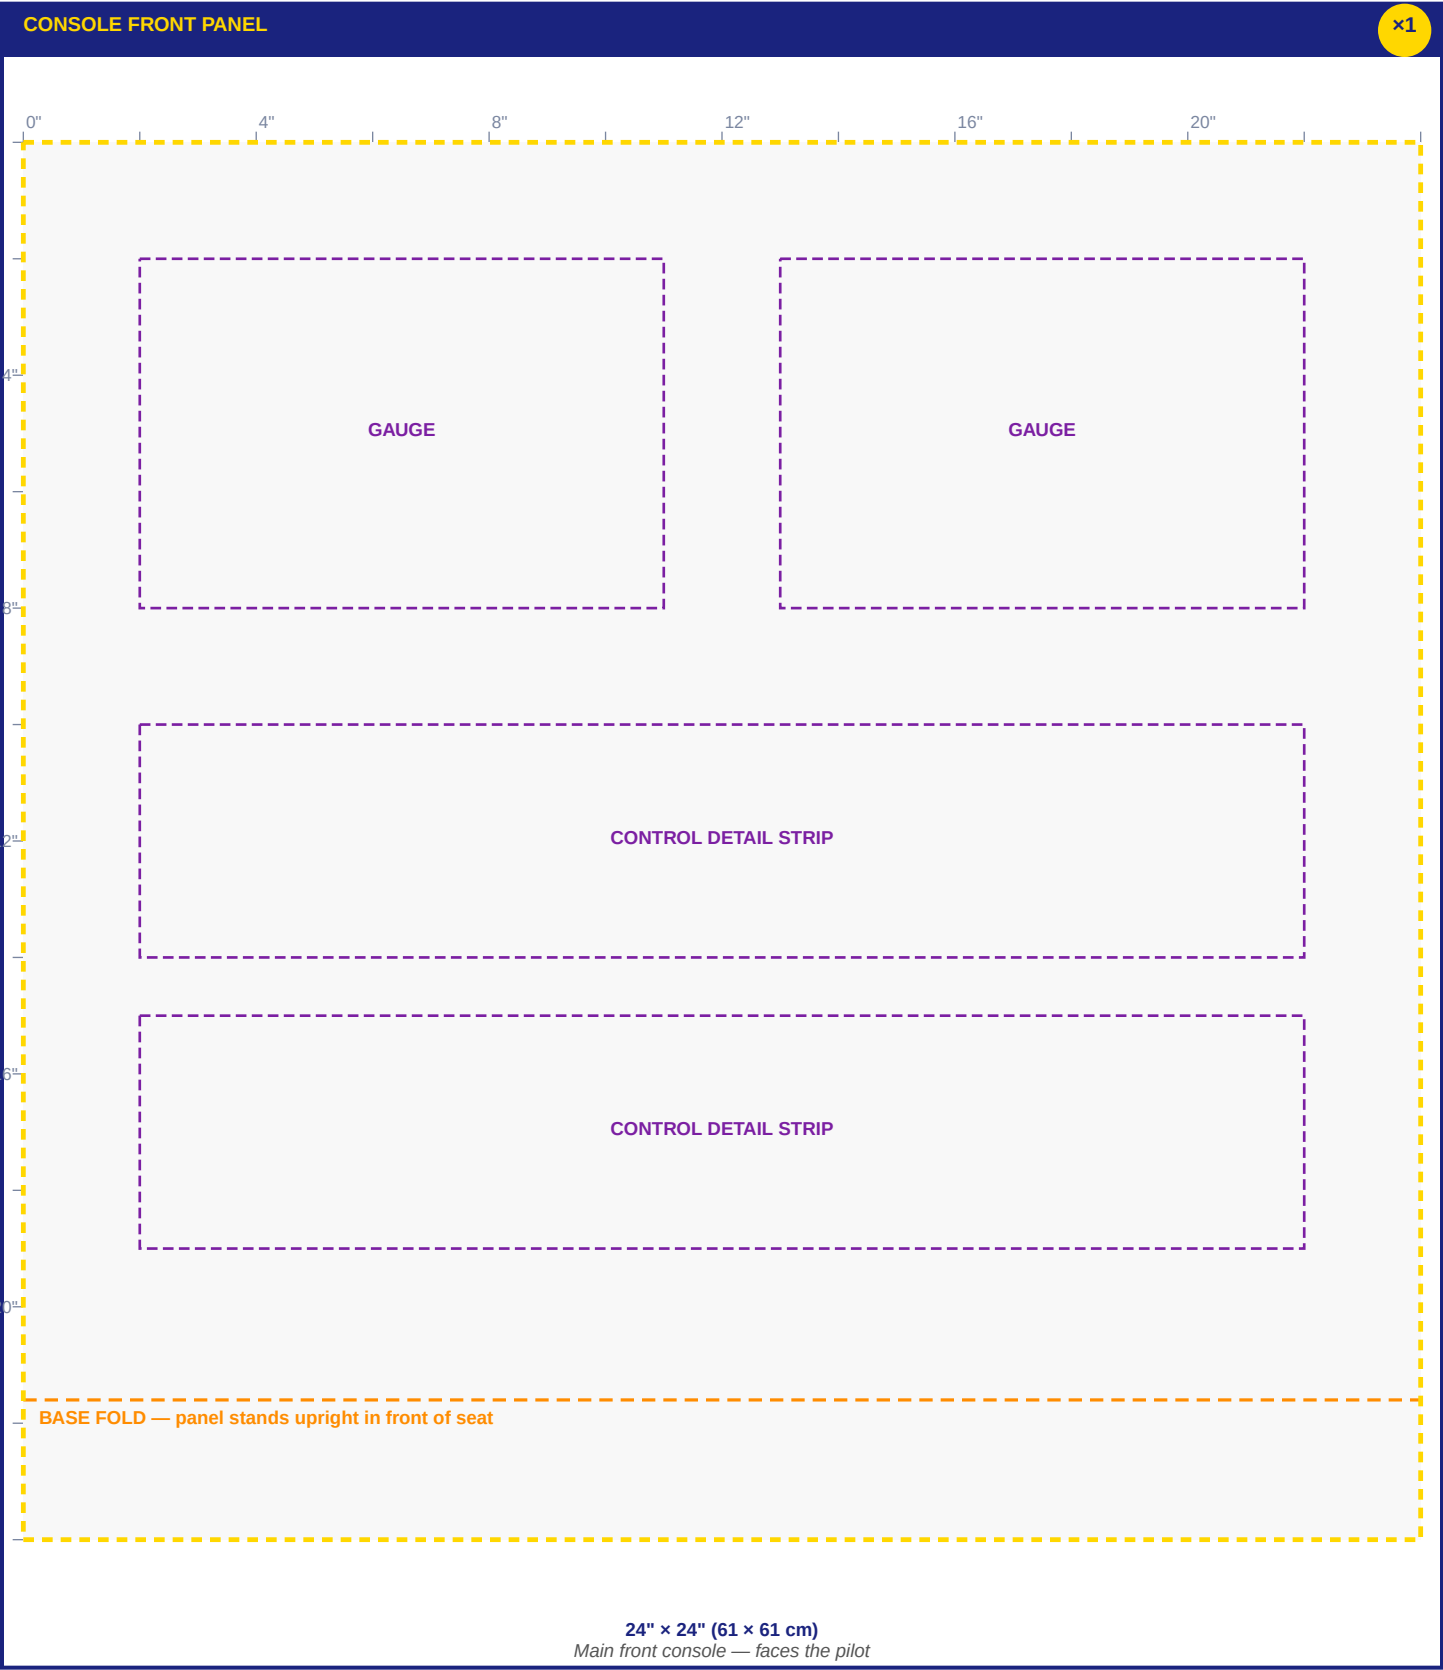

CONSOLE FRONT PANEL

24" x 24" (61 x 61 cm) | Cut x1

x6

MARK LEGEND FOR THIS PIECE:

CUT OUT — cut along the red dashes (an orange side is a fold)	GLUE HERE — where another part goes
---	-------------------------------------

NOTE: Rows of controls along console surfaces

WHAT YOU NEED — HEE-1 INTERSTELLAR COCKPIT

CARDBOARD PIECES — 6 TOTAL (3–4 Large Boxes (at least 24" × 36" (61 × 91 cm) each))

x1 Console Front Panel 24" × 24" Main front console — faces the pilot	x1 Seat Base 14" × 16" Child sits here — DOUBLE LAYER for strength
x2 Console Side Panel 16" × 24" Left and right sides of the U	x1 Main Screen Panel 20" × 16" Stands upright — paint star field on it
x1 Seat Back 16" × 24" High-back command chair	x6 Control Detail Strip 16" × 4" Rows of controls along console surfaces

TOOLS & SUPPLIES

+ 3–4 large cardboard boxes	+ BLACK PAINT (entire cockpit goes black first)
+ Box cutter — ADULT USE ONLY	+ Gold + silver markers for control highlights
+ Packing tape	+ Small cardboard scraps for buttons, gauges, levers

FUN FACT!

The International Space Station cockpit has over 1,000 switches. Add as many fake ones as you want.

CHALLENGE!

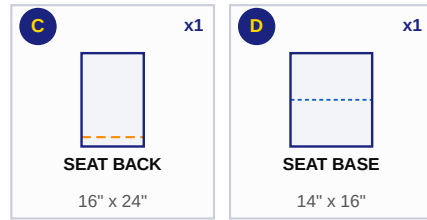

Mission debrief! Once seated, the pilot gives a 30-second report: Where are we going? What's the mission? What's the crew name?

1

STEP 1: BUILD THE SEAT

Tape the Seat Base flat — double layer it for strength (score mark on template shows this). Tape the Seat Back upright at the rear. Add armrests from scrap cardboard. The seat must hold a child's weight.

PIECES USED IN THIS STEP

2

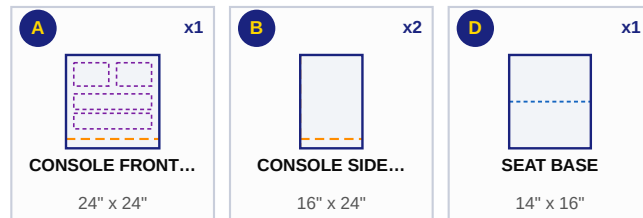

STEP 2: BUILD THE CONSOLE

! ADULT ASSIST NEEDED

Tape the Console Front Panel upright in front of the seat (base fold mark on template). Tape one Console Side Panel on each side (inner edge + base fold marks). This creates the U-shape that wraps around the pilot.

SAFETY: Two people needed to hold the U-shape together while taping.

PIECES USED IN THIS STEP

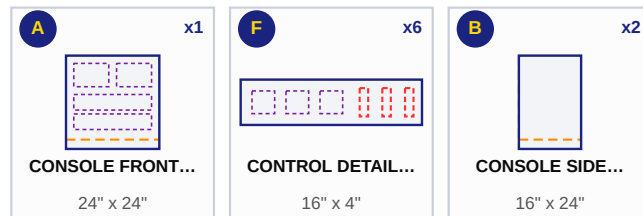

3

STEP 3: FILL THE CONSOLE WITH CONTROLS

On each Control Detail Strip: tape on 3 buttons (2" (5 cm) squares or bottle caps) where the template shows, and cut out the 3 lever slots — push a rolled strip of scrap into each slot as a lever. On the Console Front Panel, draw or tape on 2 big gauges (trace a mug) in the top boxes, then tape the Control Detail Strips across the console where the template shows, and more on the side panels. No empty flat space. Label key controls: THRUST, SHIELDS, COMMS, WEAPONS, HEE-1.

PIECES USED IN THIS STEP

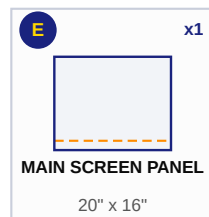

4

STEP 4: ADD THE MAIN SCREEN

Stand the Main Screen Panel upright behind the console (base fold mark). Paint a star field, a planet, or a navigation grid on it. Label it MISSION SCREEN.

PIECES USED IN THIS STEP

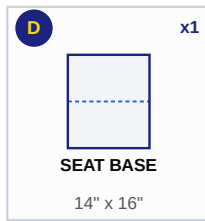

5

STEP 5: PAINT MATTE BLACK

Paint the entire cockpit matte black — seat, all console surfaces, screen. Every surface. This is the foundation. Gold and silver only pop because the background is black.

PIECES USED IN THIS STEP

6

STEP 6: ADD GOLD & SILVER HIGHLIGHTS

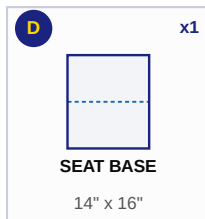

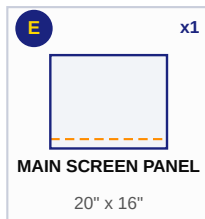

Trace every button edge and panel border in gold marker. Highlight gauge rings in silver. Label prominently: HEE-1 COMMAND. Add a mission clock. Add crew names. Add a mission badge.

7

STEP 7: QUALITY CHECK

Child sits in the seat. Console wraps on 3 sides. Main screen in view. Controls reachable. Cockpit feels enclosed. Gold and silver on black. Compare to cover photo. That's the standard.

PIECES USED IN THIS STEP

QUALITY CHECK!

Does your build match the cover photo? Compare side by side before you call it done.
