CARDBOARD MONSTER MASK

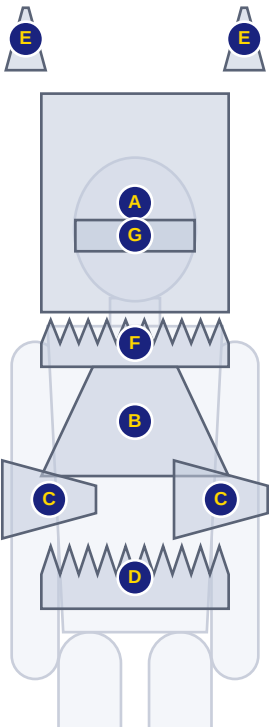

Wearable 7-Piece Creature Mask — Box Jaw, Horns & Teeth

One box, one hour, and a creature nobody else will be wearing.

AGES 4–12	BOXES 1 Large Box	TIME 45–60 Minutes	DIFF Beginner *	PIECES 7 pcs
CARDBOARD NEEDED: 1 Large Box (at least 24" × 36" (61 × 91 cm))				
MISSION GOAL: Build and wear a 7-piece creature mask: a face plate with wide eye holes, a boxed 3-part snout with upper and lower teeth, 2 rolled horns and a head strap.				

HOW IT ALL GOES TOGETHER — CARDBOARD MONSTER MASK

Every part you cut, shown on the child at its real size, with the letter from its own cut-template page. The grey figure is only there for scale — measure your own child, never this drawing. Pieces that wrap round the head, an arm or a leg are shown as they look once wrapped, not laid flat.

EVERY PART IN THIS BUILD					
A	MASK FACE 12" × 14" (30 × 36 cm)	CUT ×1	B	JAW TOP 12" × 7" (30 × 18 cm)	CUT ×1
C	JAW SIDE 6" × 5" (15 × 13 cm)	CUT ×2	D	JAW FRONT 12" × 4" (30 × 10 cm)	CUT ×1
E	HORN 8" × 4" (20 × 10 cm)	CUT ×2	F	TEETH STRIP 12" × 3" (30 × 8 cm)	CUT ×1
G	HEAD STRAP 24" × 2" (61 × 5 cm)	CUT ×1			

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

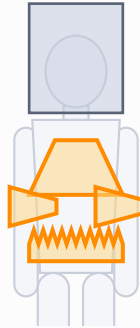

2

CUT THE FACE & EYE HOLES

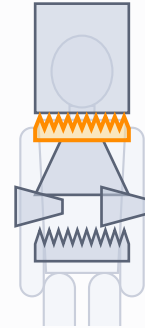

4

CUT THE JAW BOX

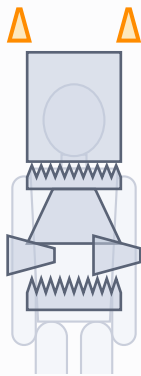

7

ADD THE TEETH

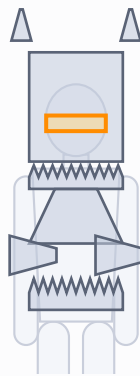

8

ROLL THE HORNS

9

FIT THE STRAP

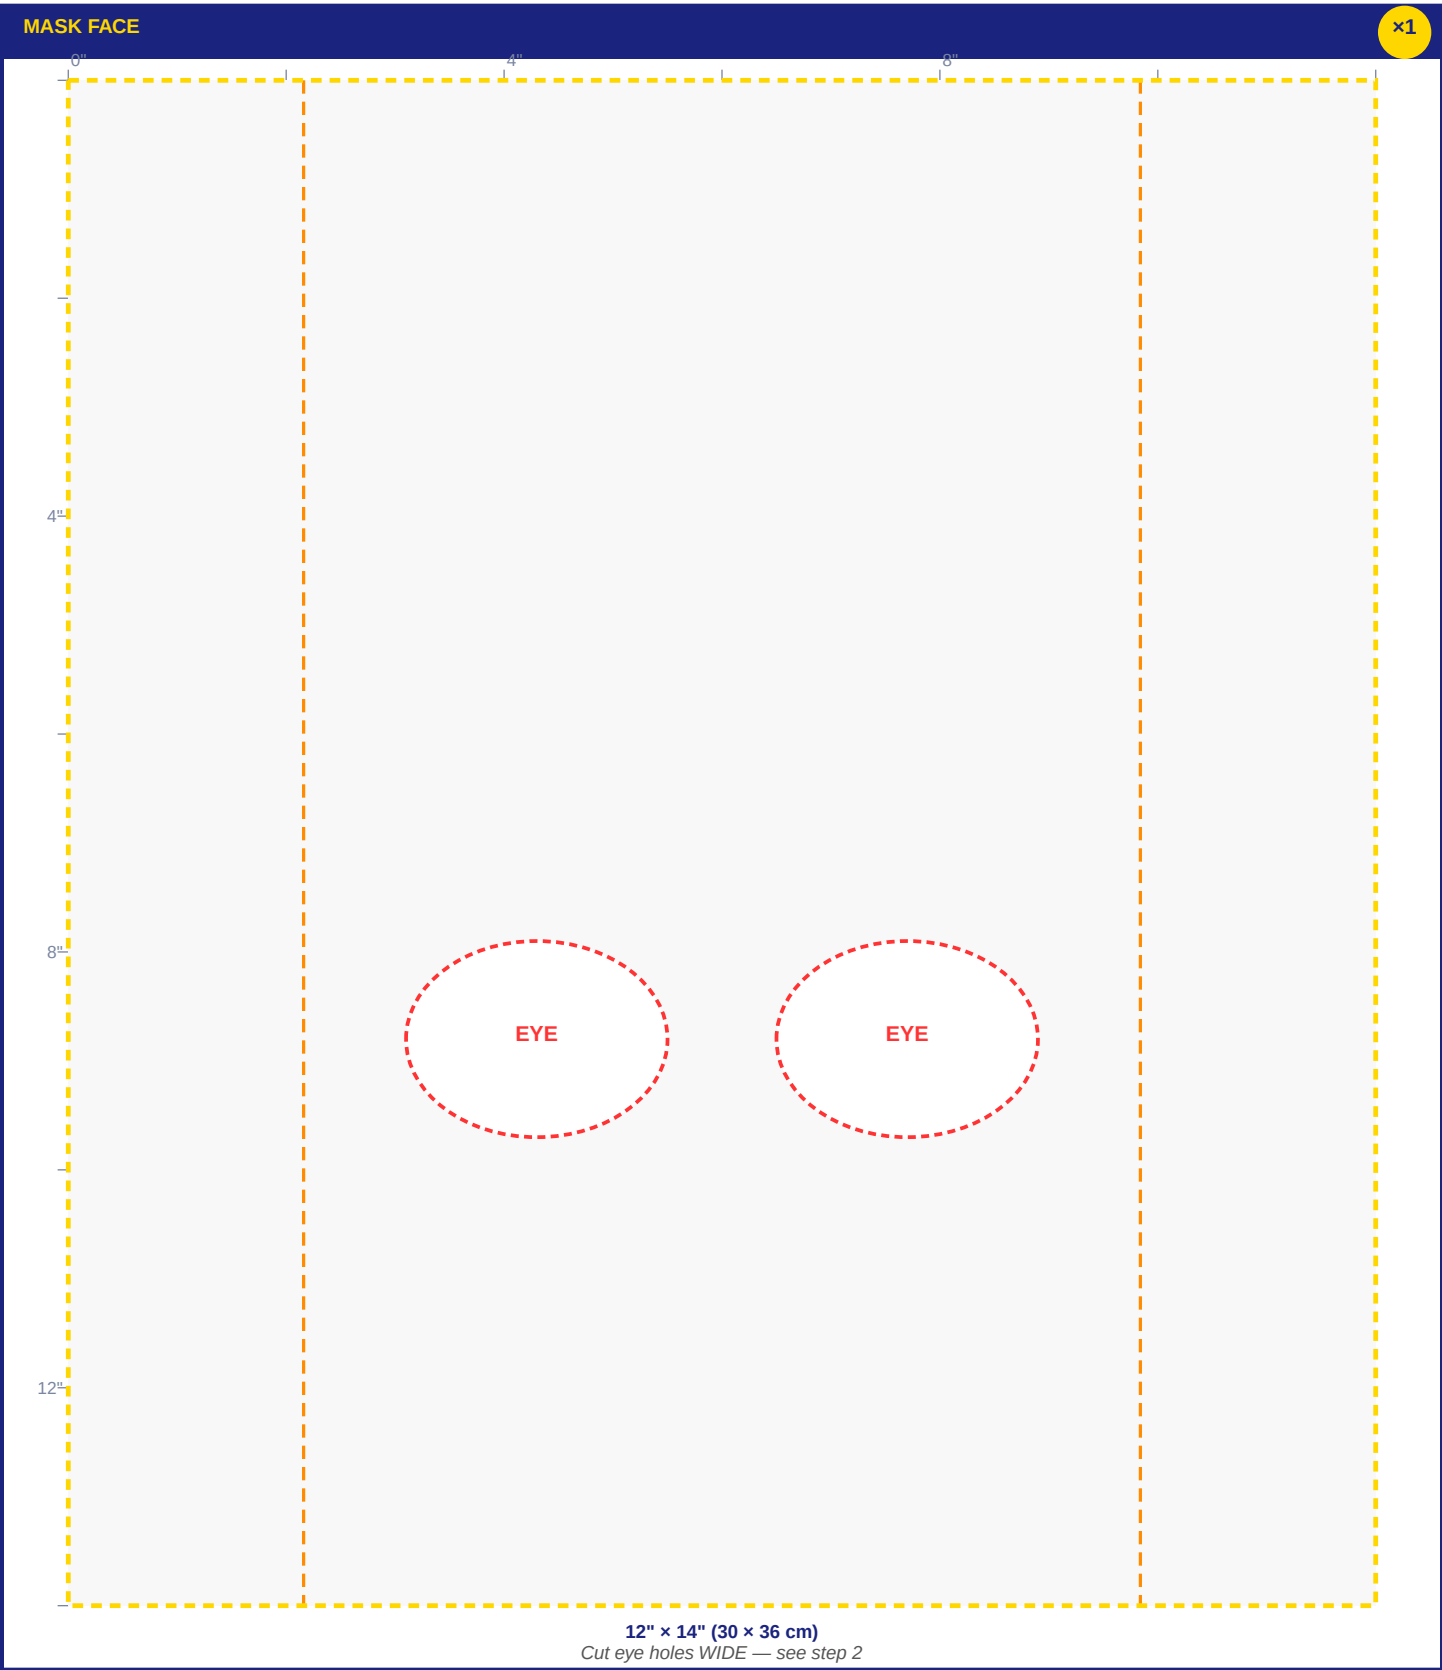

MASK FACE

12" x 14" (30 x 36 cm) | Cut x1

CUT
x1

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line	CUT OUT — cut along the red dashes (an orange side is a fold)
--	---

NOTE: Cut eye holes WIDE — see step 2

JAW TOP

12" x 7" (30 x 18 cm) | Cut x1

CUT
x1

JAW TOP

x1

0" 4" 8"

FOLD TAB — tapes behind the Mask Face

FOLD DOWN — front edge of the snout

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark 3.3" in from each front corner. Draw straight lines back to the rear corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" x 7" (30 x 18 cm)
Tapered jaw — wide at the back, narrower at the snout

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line
--	--

NOTE: Roof of the snout — tapes under the face

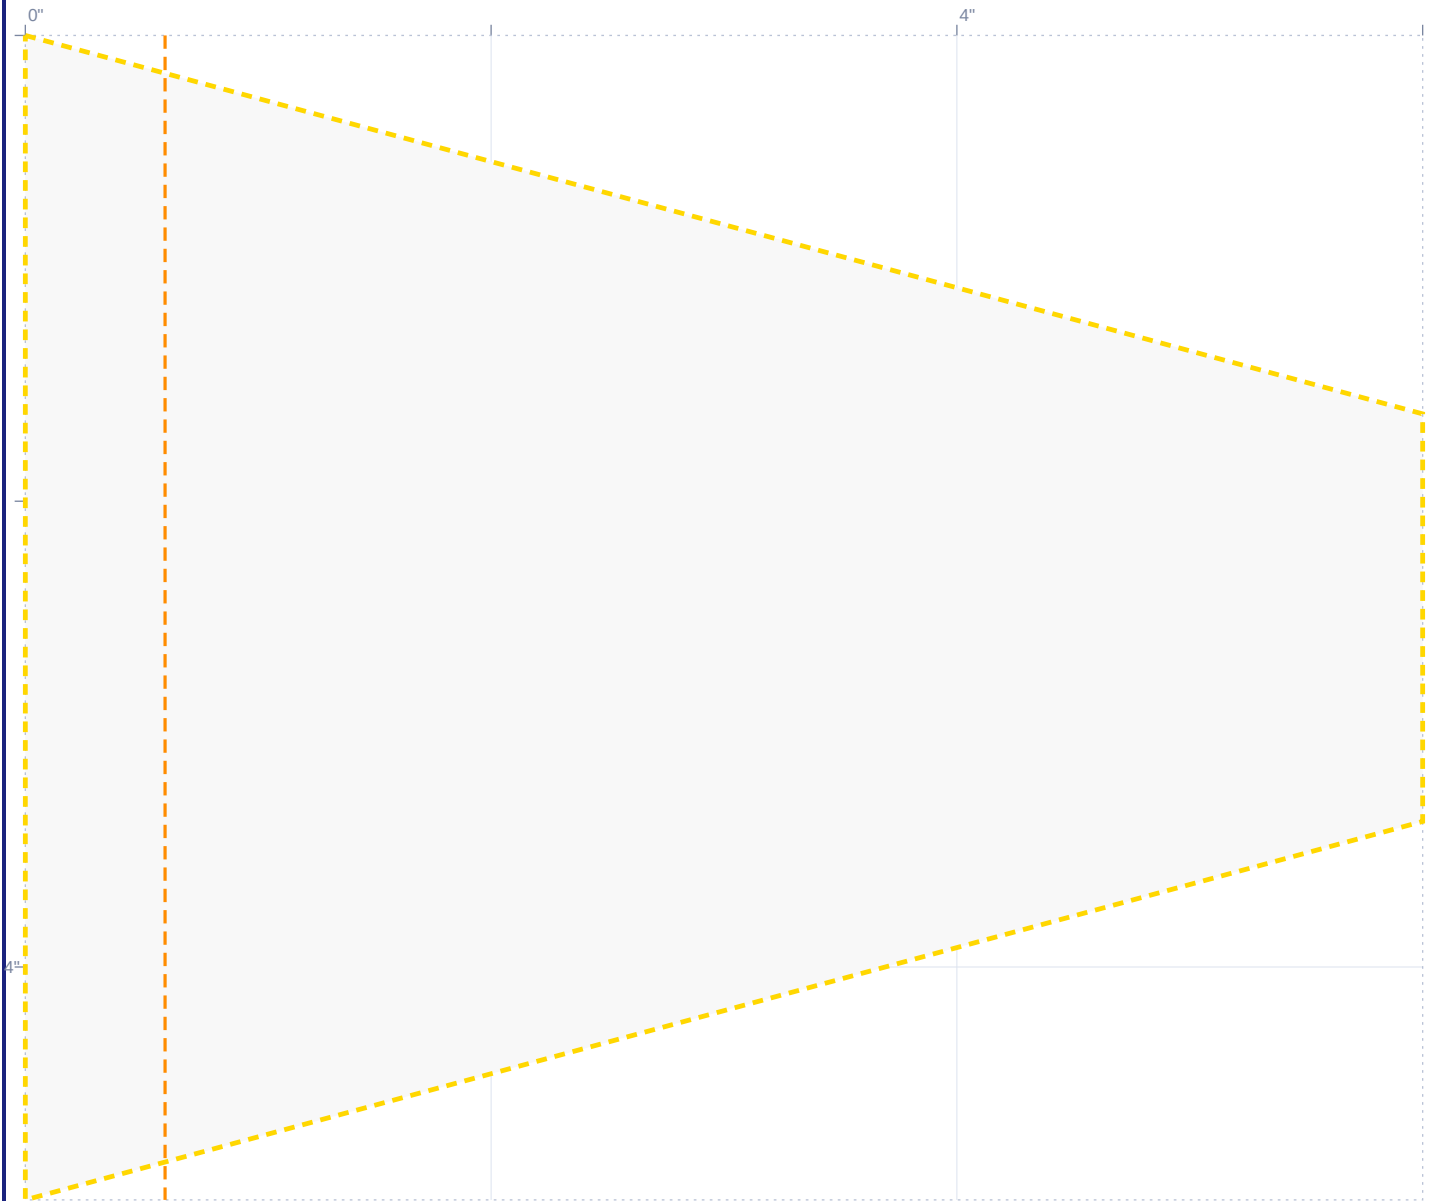

JAW SIDE

6" × 5" (15 × 13 cm) | Cut ×2

CUT
x2

JAW SIDE

x2

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark the front edge 1.6" down from the top and the same up from the bottom, leaving a 1.8" front edge. Draw straight lines from those marks back to the rear corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

6" × 5" (15 × 13 cm)

Wedge — tall at the back, short at the front

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

FOLD — score lightly, then fold at this line

NOTE: THIS is what makes the jaw a box, not a flap

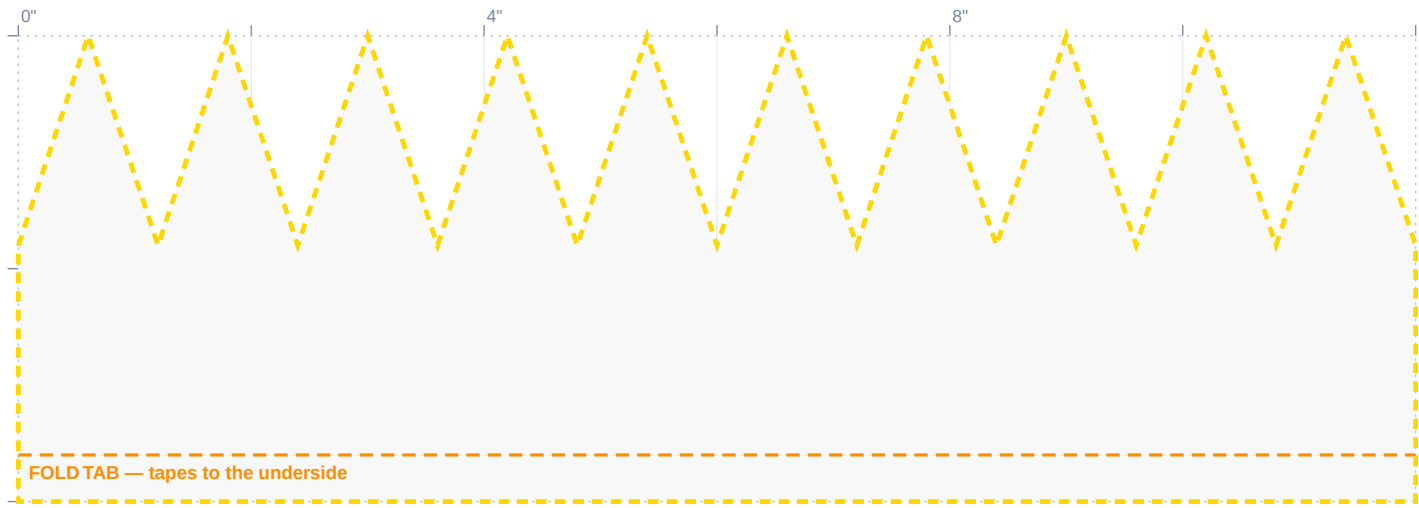

JAW FRONT

12" x 4" (30 x 10 cm) | Cut x1

CUT
x1

JAW FRONT

x1

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Along the toothed edge mark 10 points about 1.2" apart. Cut a triangle 1.8" deep at each one. The zigzag IS the cut line.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" x 4" (30 x 10 cm)

Jaw — lower teeth cut into the edge as a zigzag

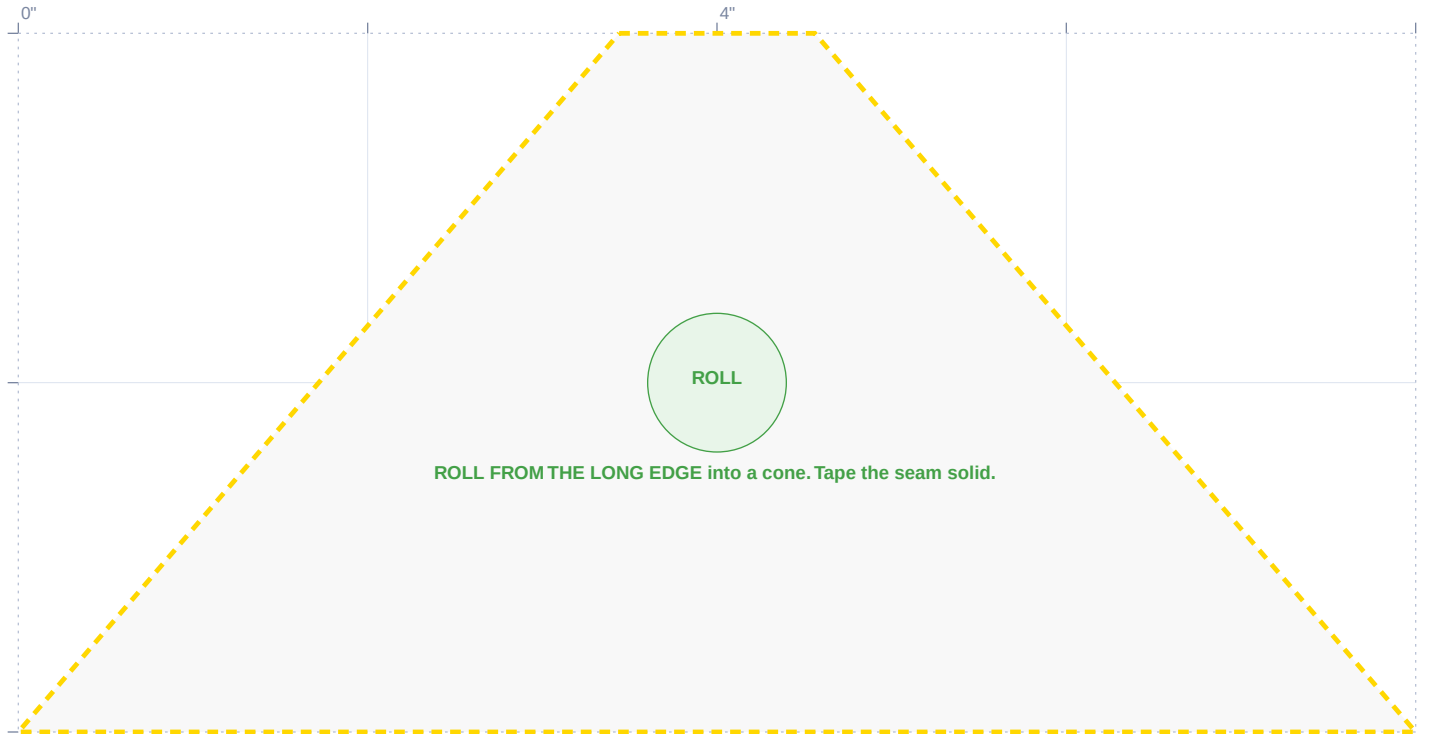

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line
--	--

NOTE: Lower teeth are cut into this

HORN

x2

ROLL FROM THE LONG EDGE into a cone. Tape the seam solid.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Keep the bottom edge its full 8". Mark 3.4" in from each TOP corner and draw a straight line down to each bottom corner. Roll the long bottom edge first — the narrow top becomes the tip.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

8" × 4" (20 × 10 cm)

Horn — tapers to a near-point so it rolls into a CONE, not a tube

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

ROLL — roll the cardboard tightly in this direction

NOTE: Roll into a cone, wide end down

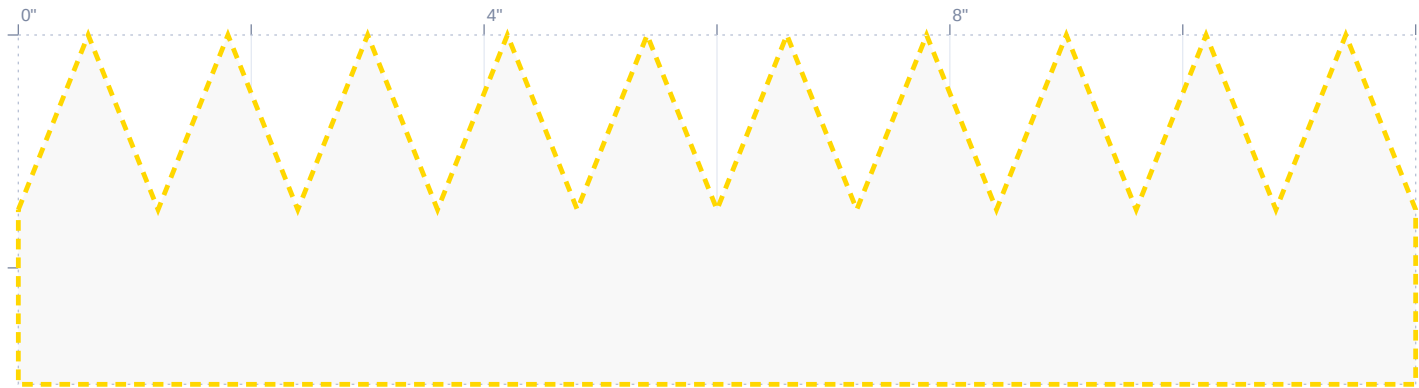

TEETH STRIP

12" × 3" (30 × 8 cm) | Cut ×1

CUT
x1

TEETH STRIP

x1

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark 10 points about 1.2" apart along the top edge and cut a triangle 1.5" deep at each. Tape the flat bottom edge inside the face.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" × 3" (30 × 8 cm)

Upper teeth — a zigzag strip, not a plain band

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

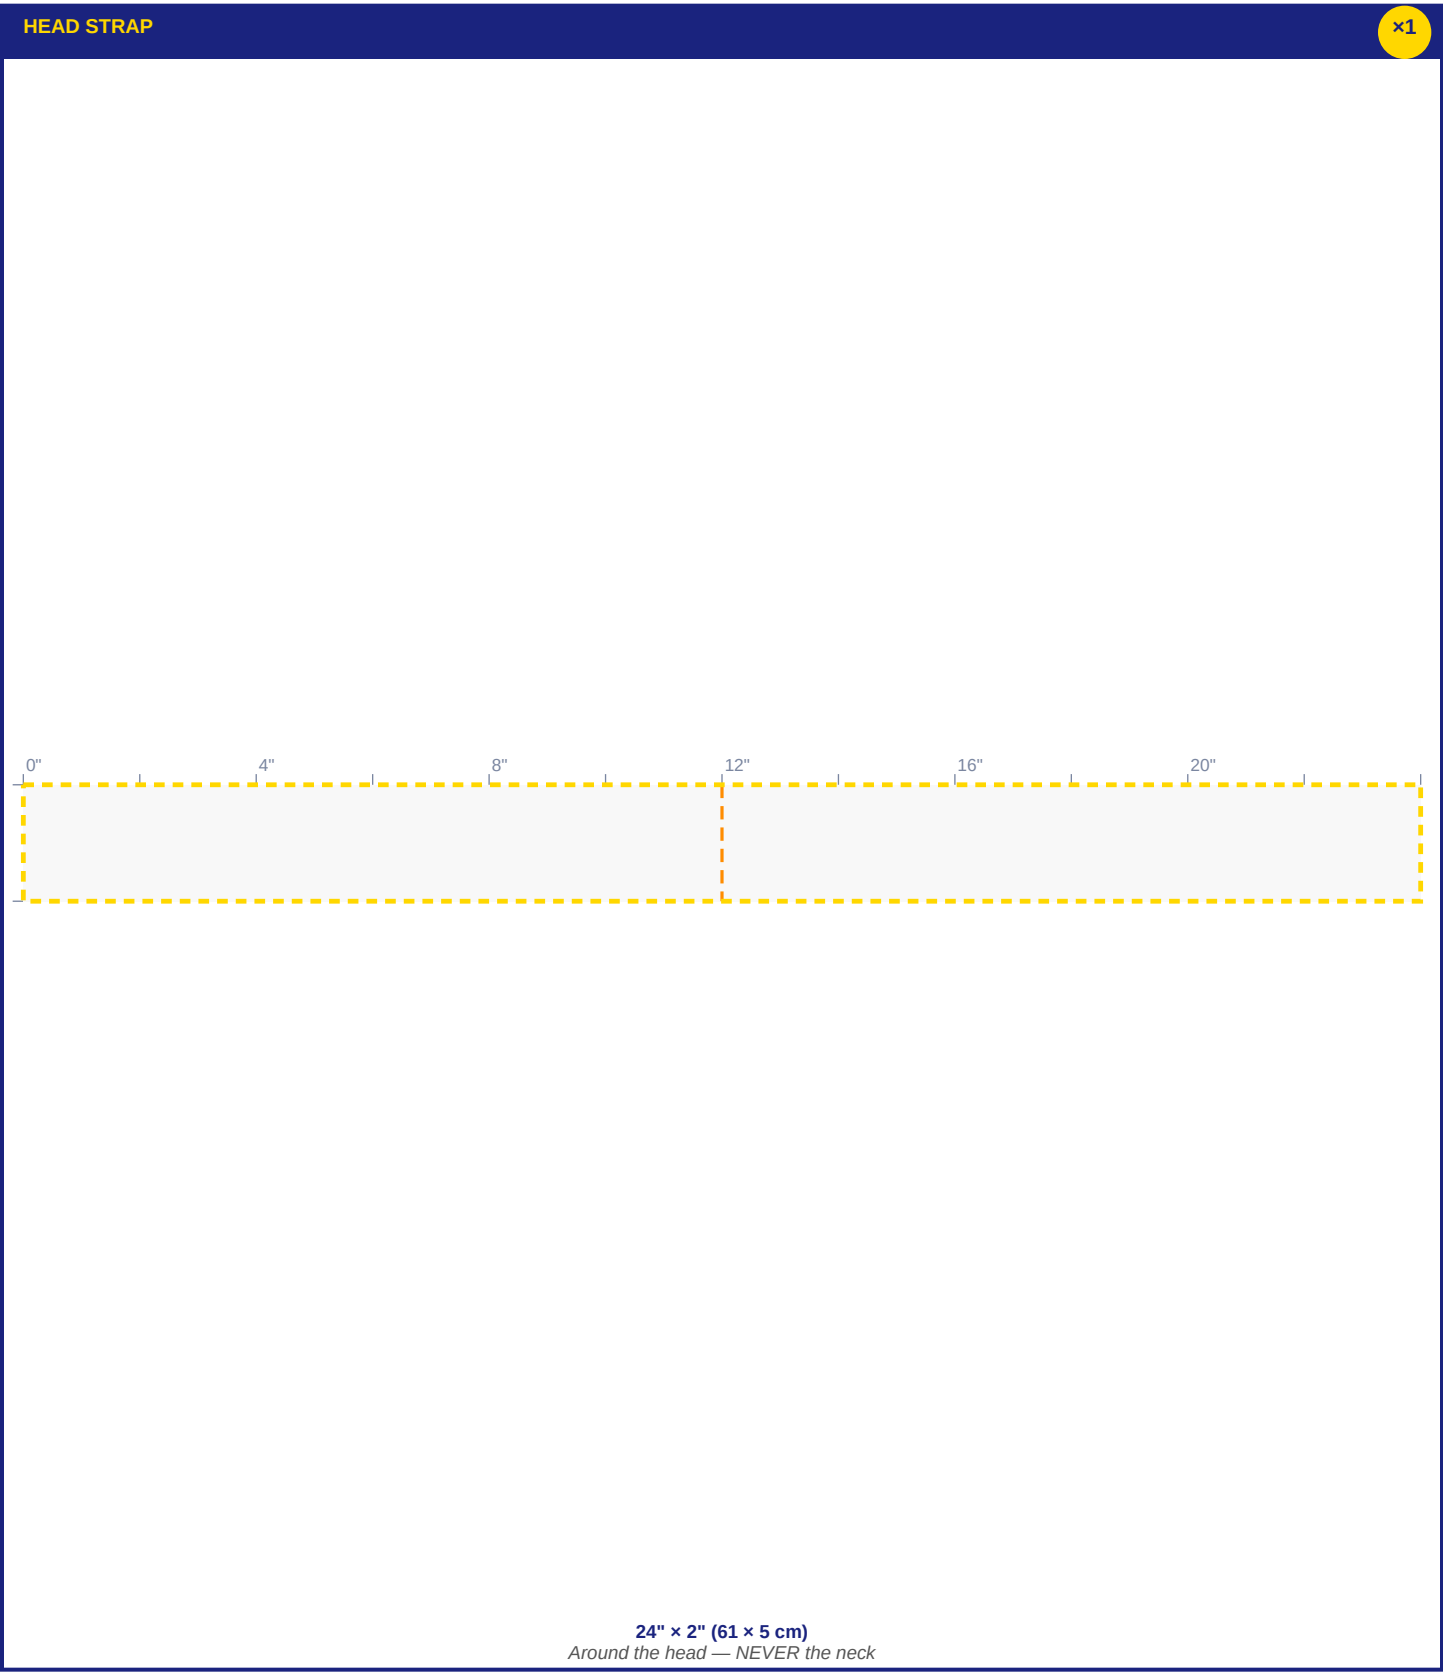

NOTE: Upper row — tapes inside the face

HEAD STRAP

24" × 2" (61 × 5 cm) | Cut ×1

CUT
x1

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: Around the head — NEVER the neck

WHAT YOU NEED — CARDBOARD MONSTER MASK

CARDBOARD PIECES — 7 TOTAL (1 Large Box (at least 24" × 36" (61 × 91 cm)))

×1

Mask Face

12" × 14"

Cut eye holes WIDE — see step 2

×1

Jaw Top

12" × 7"

Roof of the snout — tapes under the face

×2

Jaw Side

6" × 5"

THIS is what makes the jaw a box, not a flap

×1

Jaw Front

12" × 4"

Lower teeth are cut into this

×2

Horn

8" × 4"

Roll into a cone, wide end down

×1

Teeth Strip

12" × 3"

Upper row — tapes inside the face

×1

Head Strap

24" × 2"

Around the head — NEVER the neck

TOOLS & SUPPLIES

+ 1 large cardboard box

+ Scissors

+ Box cutter — ADULT USE ONLY (eye holes)

+ Packing tape

+ Pencil for tracing

+ Paint or markers in your creature colours

+ Elastic or ribbon (optional — comfier than a taped strap)

FUN FACT!

Masks are older than writing. The oldest one ever found is a stone face from about 9,000 years ago.

CHALLENGE!

Creature challenge: give it a name, a sound and one thing it is afraid of. Then scare somebody in the kitchen.

1 STEP 1: MEASURE THE FACE

Hold the flattened cardboard against the child's face. Mark where the eyes sit and where the chin ends. Every cut after this is measured from those two marks — the mask fits the child you actually have.

2 STEP 2: CUT THE FACE & EYE HOLES

! ADULT ASSIST NEEDED

Cut the Mask Face (12" × 14" (30 × 36 cm)). Cut out BOTH eye holes where the template shows them — at least 2" (5 cm) wide each. Before cutting, hold the face up to the child and move the holes so each one is centered on an eye mark from step 1. Hold it up and check: the child must see left and right without turning their head.

SAFETY: Adult cuts the eye holes. Wide eye holes are the whole safety story on a mask — never trim them smaller to look neater.

PIECES USED IN THIS STEP

3 STEP 3: CURVE THE MASK

Score the two vertical fold lines and bend both side panels backward. This turns a flat rectangle into a face shape that wraps. A gentle curve, not a hard fold.

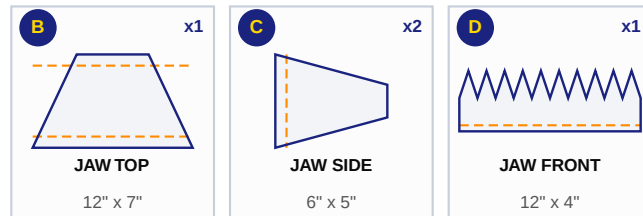

4 STEP 4: CUT THE JAW BOX

! ADULT ASSIST NEEDED

Cut all three snout pieces: Jaw Top (12" × 7" (30 × 18 cm)), 2 Jaw Sides (6" × 5" (15 × 13 cm)) and Jaw Front (12" × 4" (30 × 10 cm)). Taper the Jaw Top toward the front, and cut each Jaw Side into a wedge — tall at the back, short at the front. That wedge is what gives the snout its shape.

SAFETY: Adult uses the box cutter. Kids trace every line in pencil first.

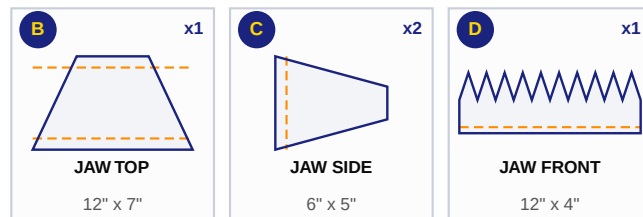

PIECES USED IN THIS STEP

5 STEP 5: BUILD THE SNOOT

Fold the front edge of the Jaw Top down. Tape a Jaw Side under each edge of it, tabs up inside, so you have a three-sided box open at the bottom and back. Then tape the Jaw Front across the front. Squeeze it — it should hold its shape on its own. A flat flap would sag; this will not.

PIECES USED IN THIS STEP

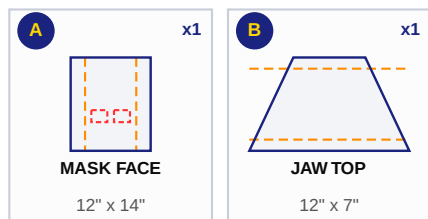

6

STEP 6: ATTACH THE SNOOT

Fold the back tab of the Jaw Top and tape it behind the bottom of the Mask Face, angled slightly down and out. Leave the underside open — that is where the child breathes and talks.

SAFETY: Check the gap under the snout is open. If breath feels warm on the cardboard, angle it further out.

PIECES USED IN THIS STEP

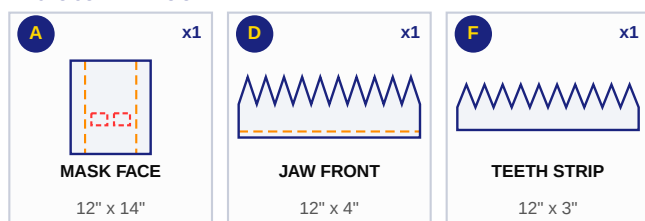

7

STEP 7: ADD THE TEETH

Cut a zigzag along the Jaw Front — those are the lower teeth, already part of the snout. Then cut the Teeth Strip and tape it inside the bottom edge of the Mask Face for the upper row. Two zigzags pointing at each other is what reads as a mouth.

PIECES USED IN THIS STEP

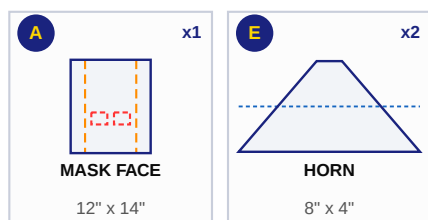

8

STEP 8: ROLL THE HORNS

Roll each Horn strip from the long edge into a cone, wide end down. Tape the seam solid. Cut two small slots in the top of the Mask Face, push the horns through and tape from behind.

PIECES USED IN THIS STEP

9

STEP 9: FIT THE STRAP

! ADULT ASSIST NEEDED

Tape one end of the Head Strap to the left side of the mask, run it around the back of the head and tape the other end to the right side. AROUND THE HEAD, never around the neck. Ribbon or elastic is comfier if you have it.

SAFETY: Strap around the head only. Never around the neck, and never a loop the mask can hang from.

PIECES USED IN THIS STEP

10

STEP 10: PAINT & QUALITY CHECK

Paint your creature. Then the real test: child wears it, walks the hallway, turns their head both ways and reads something across the room. Eyes clear, snout holding its box shape, breathing easy, strap comfortable. Compare to the cover photo — that is the standard.

SAFETY: Add reflective tape or a glow stick if this is going out after dark on Halloween.

QUALITY CHECK!

Does your build match the cover photo? Compare side by side before you call it done.
