CARDBOARD RACE CAR COCKPIT

Life-Size Sit-In Formula Racing Car

Build a Formula 1 cockpit. Race from the bedroom. Trophies not included.

AGES 4–12	BOXES 2–3 Large Boxes	TIME 1.5–2 Hours	DIFF Beginner *	PIECES 6 pcs
--------------	--------------------------	---------------------	--------------------	-----------------

CARDBOARD NEEDED:
2–3 Large Boxes (at least 24" × 36" (61 × 91 cm) each)

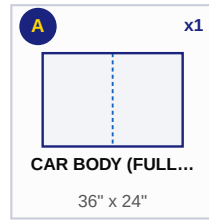

MISSION GOAL:
Build a low, wide F1 cockpit: extended nose cone, front + rear wings, steering wheel. Child sits low inside.

1

STEP 1: ORIENT THE CAR BODY

Take one large sealed box. Flip it on its side so the LONG dimension is now the car length, not the height. This low, wide orientation is the key to looking like an F1 car instead of a box.

PIECES USED IN THIS STEP

BUILD TO MATCH THIS

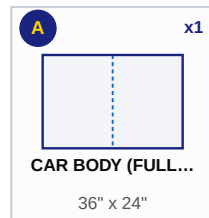

2

STEP 2: CUT THE COCKPIT

On the TOP of the box, cut the cockpit oval (oval mark on template). Child should slide in and sit low — only shoulders and head above the car body. This is the F1 driver position.

SAFETY: Adult cuts the cockpit oval. Test fit with child before finishing edges.

PIECES USED IN THIS STEP

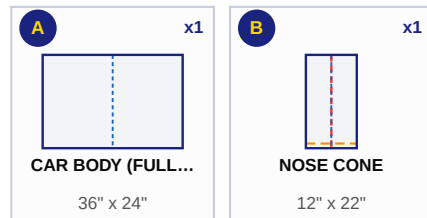

! ADULT ASSIST NEEDED

3

STEP 3: ATTACH THE NOSE CONE

Tape the Nose Cone piece to the front of the car body (rear edge fold mark). Score the center vertical line (score mark) and flex the tip slightly upward. Taper cuts on both sides give it the long aggressive F1 nose shape.

PIECES USED IN THIS STEP

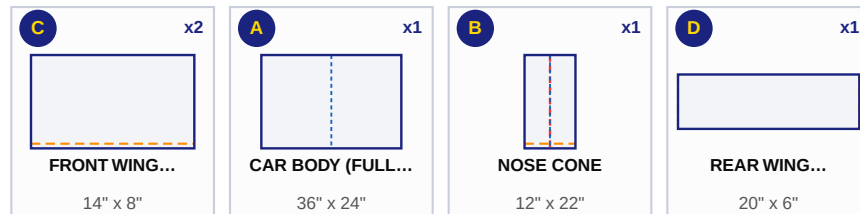

4

STEP 4: ADD FRONT WINGS

Tape a Front Wing Element to each side of the nose cone (inner edge fold mark), angling slightly downward. These should extend WIDER than the car body on each side.

PIECES USED IN THIS STEP

5 STEP 5: BUILD THE REAR WING

Tape both Rear Wing Endplates upright at the very rear of the car (base tab fold mark). Tape the Rear Wing Element horizontally between the tops of both endplates. This T-shape is the rear wing.

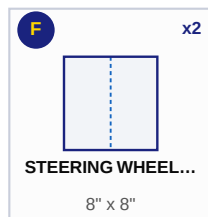

PIECES USED IN THIS STEP

6 STEP 6: ADD STEERING WHEEL

Cut and stack 2 Steering Wheel circles (circle mark). Tape together. Mount inside the cockpit on a short tape column at the right height for a seated child to hold.

PIECES USED IN THIS STEP

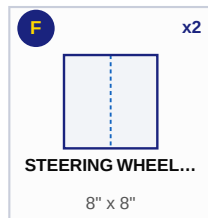

7 STEP 7: PAINT YOUR LIVERY

Choose bold racing colors. Paint the nose one color, the body another. Add racing stripes, a large number on the nose, a team name on the side. Make it look FAST.

8 STEP 8: QUALITY CHECK

Child sits low in the cockpit. Steering wheel at hand height. Long nose extended. Front wings wide. Rear wing mounted. Bold racing colors. Compare to cover photo. That's the standard.

PIECES USED IN THIS STEP

QUALITY CHECK!

Does your build match the cover photo? Compare side by side before you call it done.

CAR BODY (FULL BOX)

36" × 24" (91 × 61 cm) | Cut ×1

CUT
x1

CAR BODY (FULL BOX)

x1

CUT COCKPIT OVAL on top: child sits low, shoulders at edge. Adult only.

36" × 24" (91 × 61 cm)
Flip on its side — long = car length

MARK LEGEND FOR THIS PIECE:

OVAL — cut oval shape: pin string at center, trace with pencil

NOTE: Flip on its side — long = car length

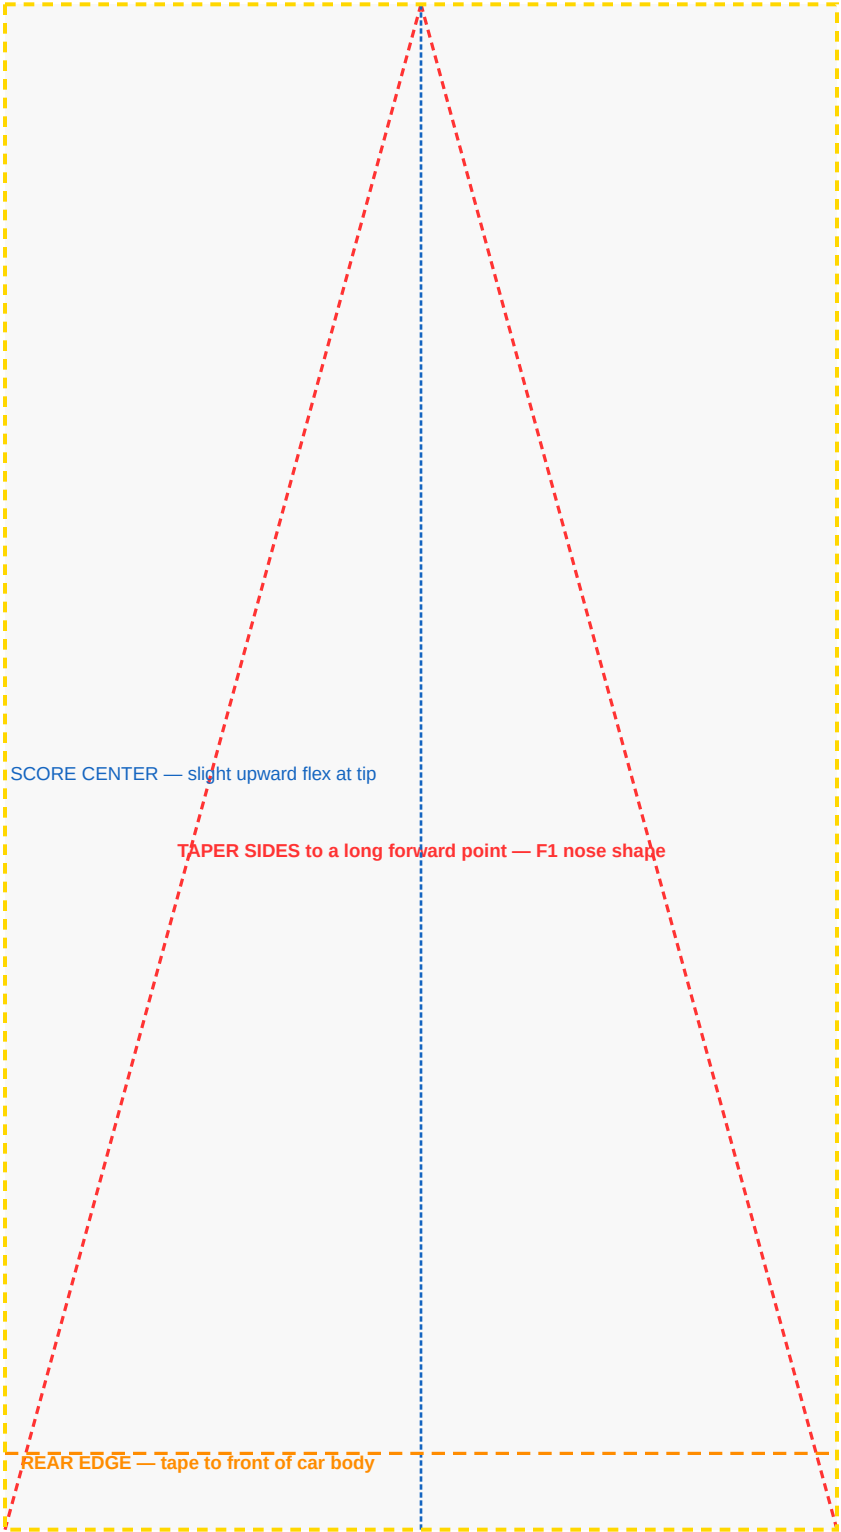

NOSE CONE

12" x 22" (30 x 56 cm) | Cut x1

CUT
x1

NOSE CONE

x1

12" x 22" (30 x 56 cm)
Long taper to a point

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line	SCORE — press hard with ruler but do NOT cut through	TAPER — cut diagonally to this point
--	--	--------------------------------------

NOTE: Long taper to a point

FRONT WING ELEMENT

14" × 8" (36 × 20 cm) | Cut ×2

CUT
x2

FRONT WING ELEMENT

x2

INNER EDGE — tape to nose cone sides, angled slightly down

14" × 8" (36 × 20 cm)
Wide flat — attach low at nose

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: Wide flat — attach low at nose

REAR WING ELEMENT

20" × 6" (51 × 15 cm) | Cut ×1

CUT
x1

REAR WING ELEMENT

x1

20" × 6" (51 × 15 cm)
Horizontal wing at rear

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: Horizontal wing at rear

WHAT YOU NEED — CARDBOARD RACE CAR COCKPIT

CARDBOARD PIECES — 6 TOTAL (2–3 Large Boxes (at least 24" × 36" (61 × 91 cm) each))

×1 Car Body (full box)
36" × 24"
Flip on its side — long = car length

×1 Nose Cone
12" × 22"
Long taper to a point

×2 Front Wing Element
14" × 8"
Wide flat — attach low at nose

×1 Rear Wing Element
20" × 6"
Horizontal wing at rear

×2 Rear Wing Endplate
6" × 8"
Vertical plates — hold rear wing

×2 Steering Wheel (circle)
8" × 8"
Stack for thickness

TOOLS & SUPPLIES

+ 2–3 large cardboard boxes

+ Box cutter — ADULT USE ONLY

+ Packing tape

+ Bold racing colors (red, yellow, or choice)

+ Black + white markers

+ Ruler

FUN FACT!

Real F1 cars go 0 to 60 in under 2.5 seconds. Yours goes 0 to imagination instantly. Same energy.

CHALLENGE!

Race day: two kids, two cardboard cars. Decorate differently. Who has the fastest-looking car? Race on 3... 2... 1... GO!

BUILD GUIDE — CARDBOARD RACE CAR COCKPIT

1

STEP 1: ORIENT THE CAR BODY

Take one large sealed box. Flip it on its side so the LONG dimension is now the car length, not the height. This low, wide orientation is the key to looking like an F1 car instead of a box.

2

STEP 2: CUT THE COCKPIT

! ADULT ASSIST NEEDED

On the TOP of the box, cut the cockpit oval (oval mark on template). Child should slide in and sit low — only shoulders and head above the car body. This is the F1 driver position.

SAFETY: Adult cuts the cockpit oval. Test fit with child before finishing edges.

3

STEP 3: ATTACH THE NOSE CONE

Tape the Nose Cone piece to the front of the car body (rear edge fold mark). Score the center vertical line (score mark) and flex the tip slightly upward. Taper cuts on both sides give it the long aggressive F1 nose shape.

4

STEP 4: ADD FRONT WINGS

Tape a Front Wing Element to each side of the nose cone (inner edge fold mark), angling slightly downward. These should extend WIDER than the car body on each side.

5

STEP 5: BUILD THE REAR WING

Tape both Rear Wing Endplates upright at the very rear of the car (base tab fold mark). Tape the Rear Wing Element horizontally between the tops of both endplates. This T-shape is the rear wing.

6

STEP 6: ADD STEERING WHEEL

Cut and stack 2 Steering Wheel circles (circle mark). Tape together. Mount inside the cockpit on a short tape column at the right height for a seated child to hold.

7

STEP 7: PAINT YOUR LIVERY

Choose bold racing colors. Paint the nose one color, the body another. Add racing stripes, a large number on the nose, a team name on the side. Make it look FAST.

8

STEP 8: QUALITY CHECK

Child sits low in the cockpit. Steering wheel at hand height. Long nose extended. Front wings wide. Rear wing mounted. Bold racing colors. Compare to cover photo. That's the standard.

QUALITY CHECK!

Does your build match the cover photo? Compare side by side before you call it done.
