GIANT CRACKED DINO EGG

Life-Size Blueprint — 4-Foot Hatching Dinosaur Egg

Build a 4-foot dinosaur egg. Your kid hatches out of it. The internet will love this.

AGES
3–10

BOXES
3 Large Boxes

TIME
1.5–2 Hours

DIFF
Beginner *

PIECES
4 pcs

CARDBOARD NEEDED:

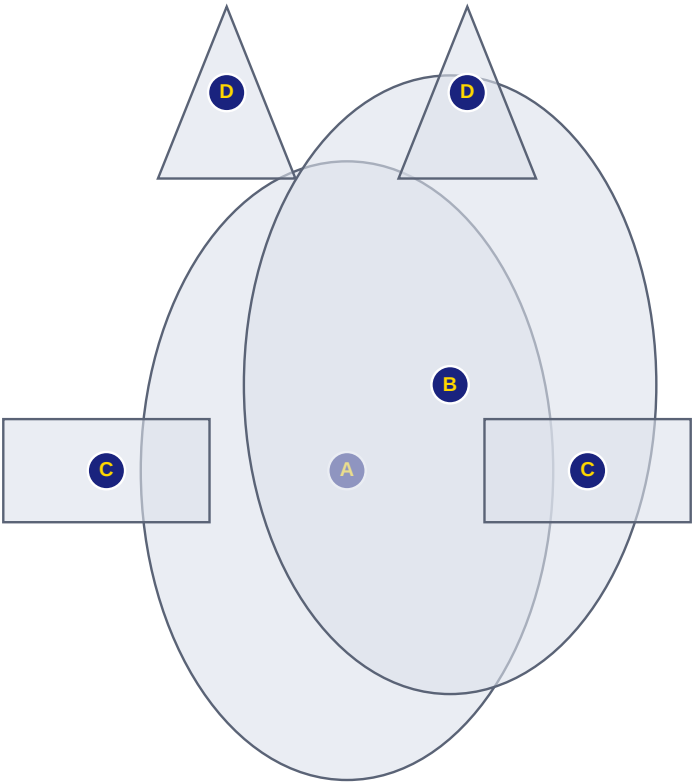

3 Large Boxes (at least 24" × 36" (61 × 91 cm) each)

MISSION GOAL:

Build a 4-foot hatching dinosaur egg: crack opening at top third, pointed shell shards, green spots, orange zigzag band, fossil details.

HOW IT ALL GOES TOGETHER — GIANT CRACKED DINO EGG

The finished build, front view, with every part in the place the steps put it and the letter from its own cut-template page. Parts are drawn at their real size relative to each other, so if a letter is on this picture there is a page for it in this file. Pieces that roll into a tube are shown rolled, not laid flat.

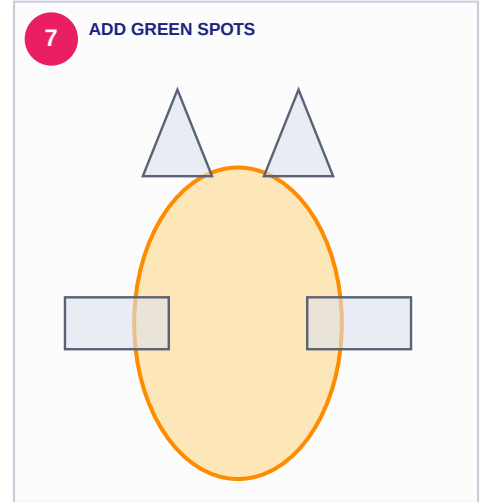

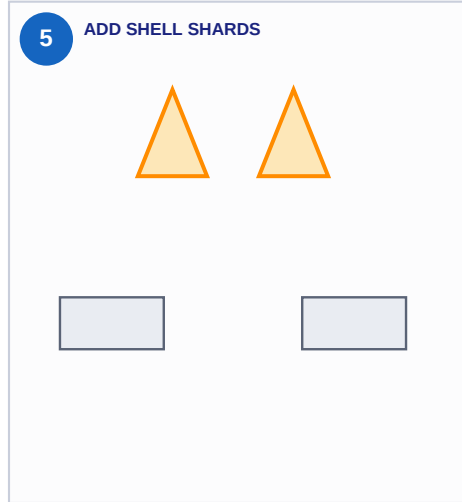

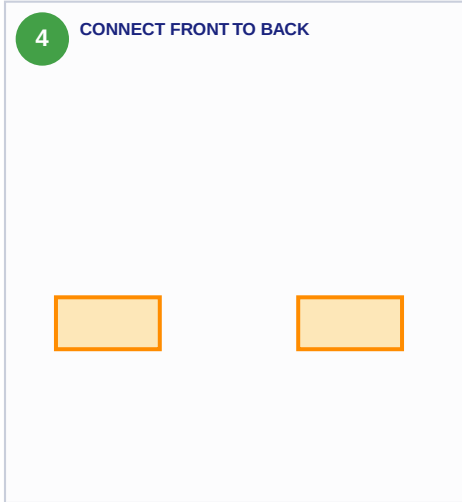

EVERY PART IN THIS BUILD

A	EGG FRONT PANEL (OVAL) 24" × 36" (61 × 91 cm)	CUT ×1	B	EGG BACK PANEL (OVAL) 24" × 36" (61 × 91 cm)	CUT ×1
C	CONNECTING STRIP 12" × 6" (30 × 15 cm)	CUT ×8	D	SHELL SHARD (POINTED) 8" × 10" (20 × 25 cm)	CUT ×5

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

A

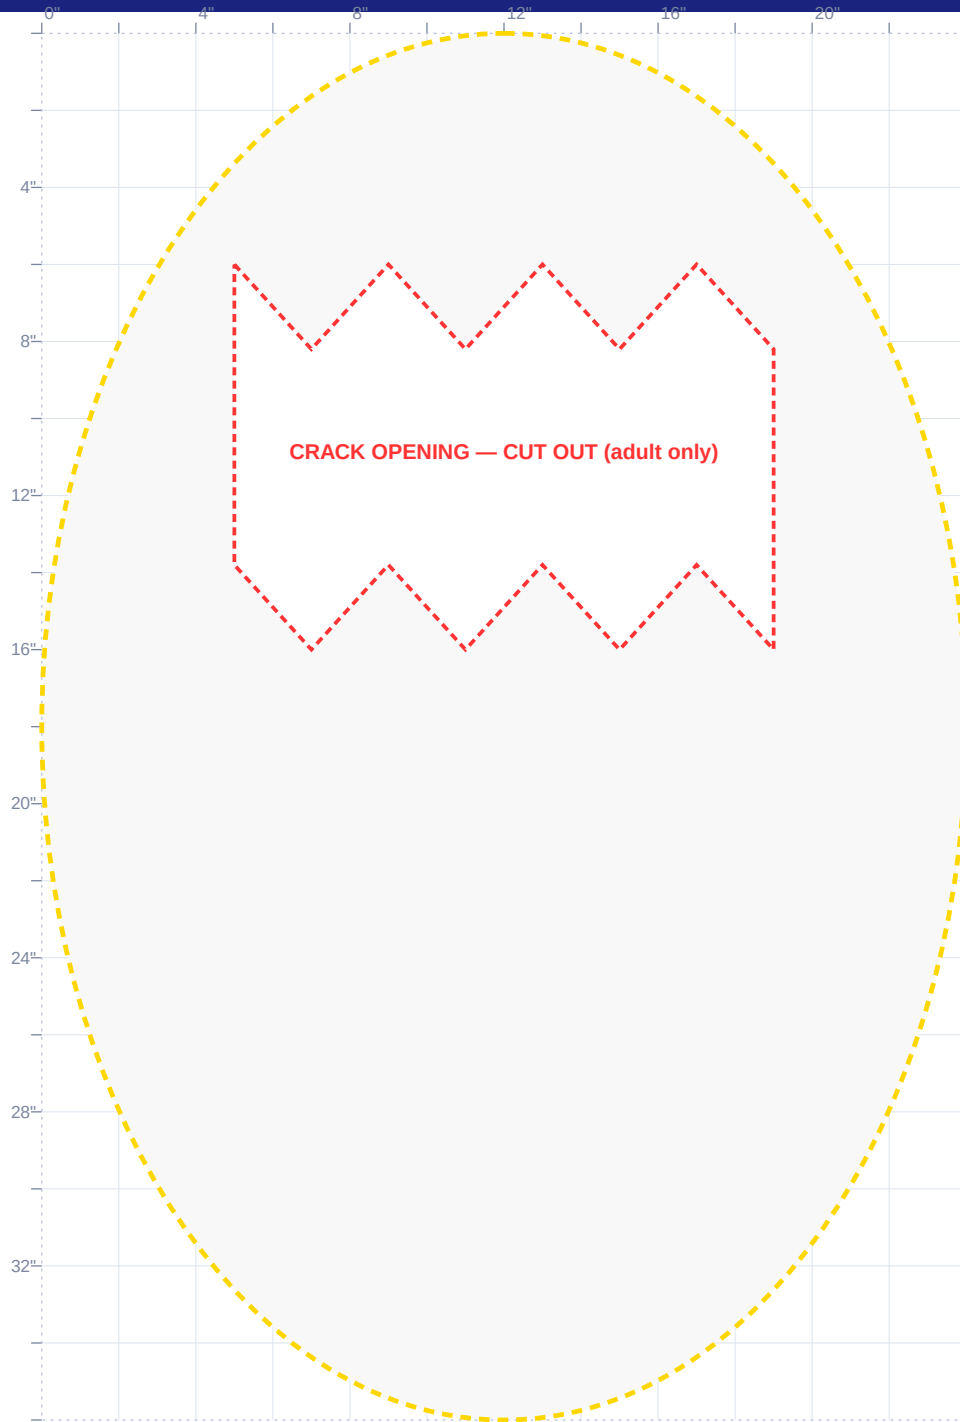

EGG FRONT PANEL (OVAL)

24" × 36" (61 × 91 cm) | Cut ×1

CUT
x1

EGG FRONT PANEL (OVAL)

x1

**HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:**

An oval 24" wide by 36" tall. Push two pins into the cardboard 8" either side of the centre, loop a string round both, put a pencil in the loop and pull it taut as you swing all the way round. That makes a true oval, not a circle.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

24" × 36" (61 × 91 cm)
Oval

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

CUT OUT — cut along the red dashes (an orange side is a fold)

NOTE: Use string method to draw oval

B

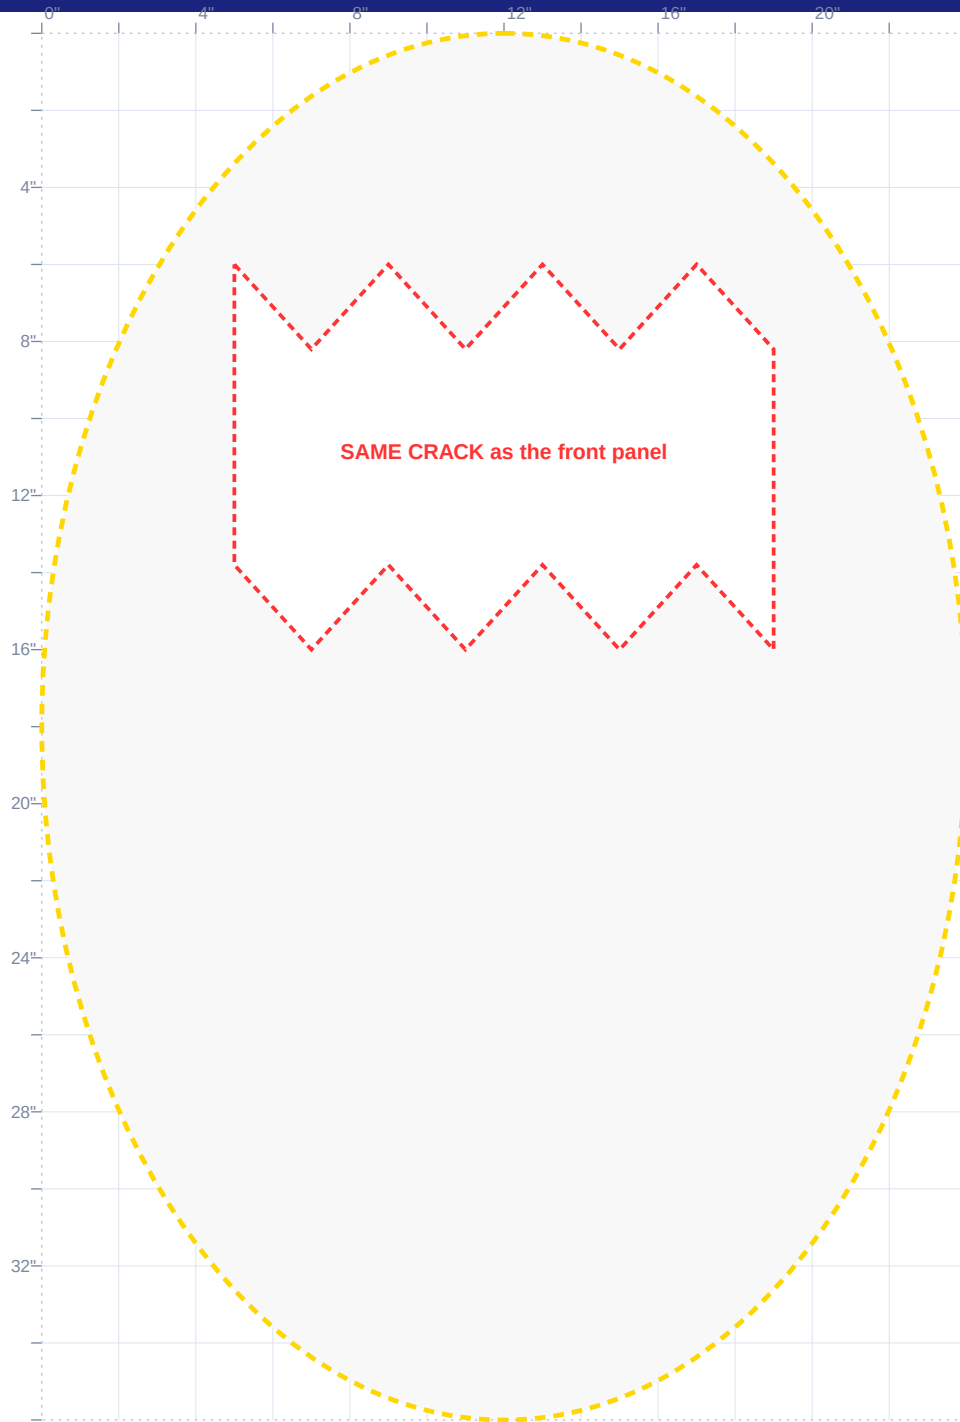

EGG BACK PANEL (OVAL)

24" × 36" (61 × 91 cm) | Cut ×1

CUT
x1

EGG BACK PANEL (OVAL)

x1

**HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:**

Cut the front panel first, lay it on this sheet and draw round it. Stack the two and trim until they match.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

24" × 36" (61 × 91 cm)*Oval — identical to the front panel***MARK LEGEND FOR THIS PIECE:****GOLD OUTLINE** — this is the shape you cut. It is NOT a rectangle.**CUT OUT** — cut along the red dashes (an orange side is a fold)**NOTE:** Identical to front panel

CONNECTING STRIP

12" × 6" (30 × 15 cm) | Cut ×8

CUT

CONNECTING STRIP

x8

0"

4"

8"

4"

FOLD IN HALF — each half tapes to one egg panel edge

12" × 6" (30 × 15 cm)
Bridge front to back around perimeter

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: Bridge front to back around perimeter

D

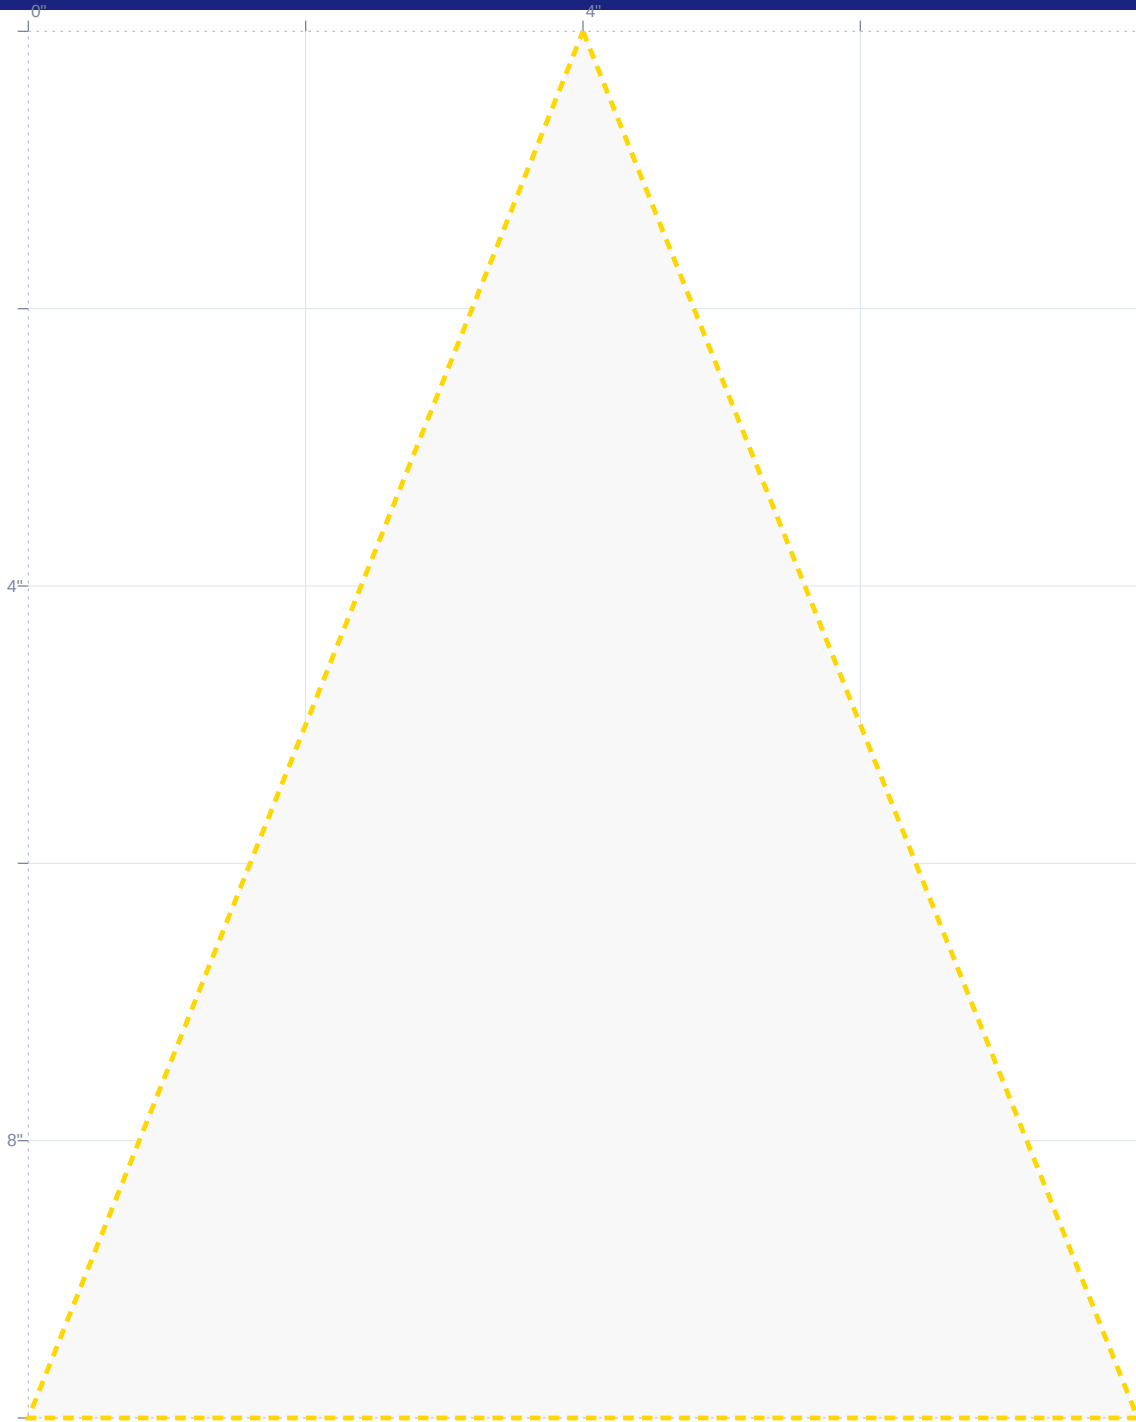

SHELL SHARD (POINTED)

8" × 10" (20 × 25 cm) | Cut ×5

CUT
x5

SHELL SHARD (POINTED)

x5

**HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:**

Mark the centre of the top edge. Draw straight lines from there to both bottom corners, then blunt the tip slightly.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

8" × 10" (20 × 25 cm)*Shard — wide base, sharp point at the top***MARK LEGEND FOR THIS PIECE:**

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: Triangular shards around crack

WHAT YOU NEED — GIANT CRACKED DINO EGG

CARDBOARD PIECES — 4 TOTAL (3 Large Boxes (at least 24" × 36" (61 × 91 cm) each))

Egg Front Panel (oval)
24" × 36"
Use string method to draw oval

Egg Back Panel (oval)
24" × 36"
Identical to front panel

Connecting Strip
12" × 6"
Bridge front to back around perimeter

Shell Shard (pointed)
8" × 10"
Triangular shards around crack

TOOLS & SUPPLIES

- + 3 large cardboard boxes (flattened)
- + Box cutter — ADULT USE ONLY
- + Packing tape (2+ rolls)
- + String + pencil for drawing oval
- + Green, orange, and tan paint or markers
- + Tan/cream base paint

FUN FACT!

The biggest real dinosaur egg ever found was about 2 feet long. Yours is 4 feet — bigger dinosaur.

CHALLENGE!

Hatch sequence: child climbs inside. Family counts: 3... 2... 1... HATCH! Pop up through the crack with your best dinosaur roar. Who wins?

1 STEP 1: DRAW THE OVAL

To draw a perfect oval: tie a string loop 20" (51 cm) long. Pin one end 8" (20 cm) left of center, other end 8" (20 cm) right of center. Put a pencil in the loop — trace all the way around. This draws a perfect oval. Do this on both the front and back egg panels.

2 STEP 2: CUT BOTH EGG PANELS

! ADULT ASSIST NEEDED

Cut both oval pieces out (oval cut mark on template). Stack them to compare — trim until they match closely.

SAFETY: Adult uses box cutter. Smooth, steady curves — no jagged edges on the oval perimeter.

3 STEP 3: CUT THE CRACK OPENING

! ADULT ASSIST NEEDED

On both panels at the top third: cut out the same jagged crack opening shown on the template — 14" (36 cm) wide × 10" (25 cm) tall, starting 6" (15 cm) below the top of the egg. The crack edge must be JAGGED, not straight. Adult only. The crack must align on both panels perfectly.

SAFETY: Adult cuts the crack ONLY. No sharp points facing inward — file down if needed.

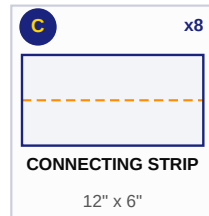

4 STEP 4: CONNECT FRONT TO BACK

! ADULT ASSIST NEEDED

Stand both oval panels upright facing each other. Use all 8 Connecting Strips — fold each in half (fold mark on template) and tape one half to each panel edge. Work from the bottom up, leaving the crack area open at the top.

SAFETY: Two people needed — one holds panels upright, one tapes strips around the perimeter.

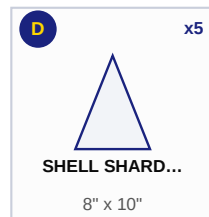

PIECES USED IN THIS STEP

5 STEP 5: ADD SHELL SHARDS

Cut all 5 Shell Shards to pointed triangles (taper marks on template). Tape them around the outside of the crack opening, pointing outward and upward — broken shell fragments flying outward.

PIECES USED IN THIS STEP

6 STEP 6: PAINT BASE COAT

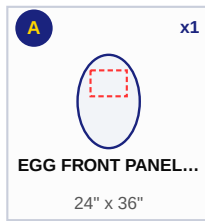

Paint the entire egg warm tan or cream. Every surface. Let it dry completely before the next step.

7

STEP 7: ADD GREEN SPOTS

Paint large green polka dots across the full egg — front and back. Space them evenly. These are the most recognizable feature — match them to the cover photo.

PIECES USED IN THIS STEP

8

STEP 8: ADD THE ORANGE BAND

Paint a bold orange zigzag stripe around the egg's midsection. This is clearly visible in the cover photo — do not skip it.

9

STEP 9: FOSSIL DETAILS

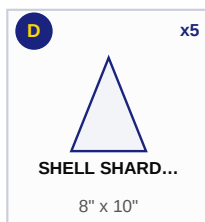

Using tan marker, draw fern and leaf fossil patterns on the lower half. Subtle — these are background detail.

10

STEP 10: QUALITY CHECK

Child climbs through the crack. Head and arms pop out the top. Egg sits stable. Green spots, orange band, fossil details all visible. Shell shards pointing outward. Compare to cover photo.

PIECES USED IN THIS STEP

**QUALITY CHECK!**

Does your build match the cover photo? Compare side by side before you call it done.
