CASTLE FORTRESS ALPHA

Full-Size Cardboard Castle with Towers, Battlements & Gatehouse

Build a real castle. With towers. And battlements. And an arch you walk through.

AGES
4–12

BOXES
5–7 Large Boxes

TIME
3–4 Hours

DIFF
Advanced ***

PIECES
5 pcs

CARDBOARD NEEDED:

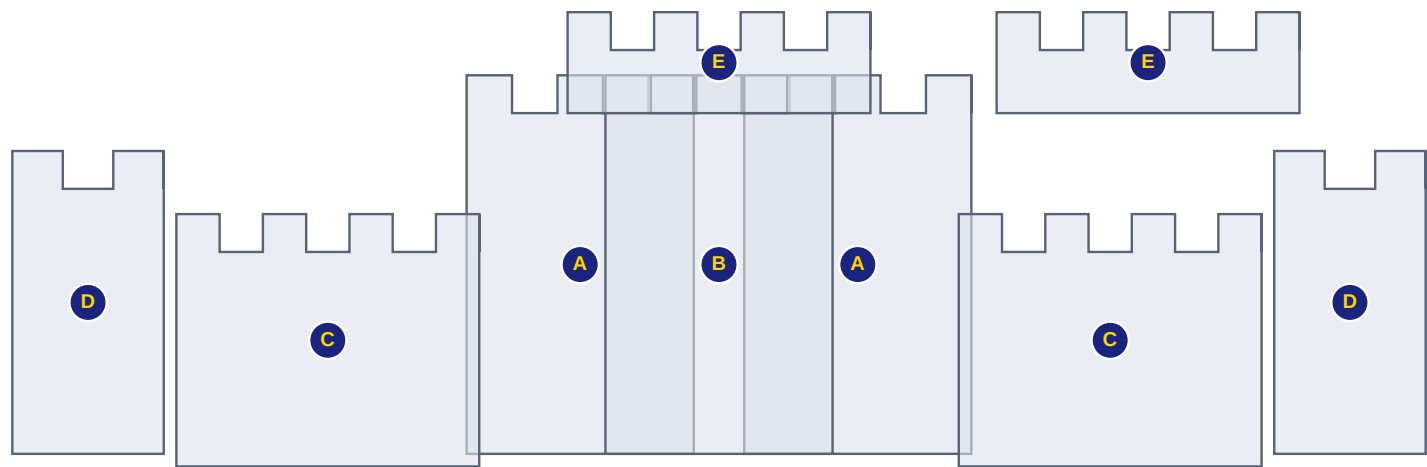

5–7 Large Boxes (at least 24" × 36" (61 × 91 cm) each)

MISSION GOAL:

Build a castle: walk-through gatehouse arch, 2 gatehouse towers, 2 corner towers, side walls, crenellated battlements on all surfaces.

HOW IT ALL GOES TOGETHER — CASTLE FORTRESS ALPHA

The finished build, front view, with every part in the place the steps put it and the letter from its own cut-template page. Parts are drawn at their real size relative to each other, so if a letter is on this picture there is a page for it in this file. Pieces that roll into a tube are shown rolled, not laid flat.

EVERY PART IN THIS BUILD				
A	GATEHOUSE TOWER PANEL 18" × 30" (46 × 76 cm)	CUT ×4	B	GATEHOUSE ARCH PANEL 18" × 30" (46 × 76 cm) CUT ×1
C	SIDE WALL PANEL 24" × 20" (61 × 51 cm)	CUT ×4	D	CORNER TOWER PANEL 12" × 24" (30 × 61 cm) CUT ×4
E	BATTLEMENT STRIP 24" × 8" (61 × 20 cm)	CUT ×6		

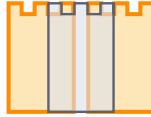

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

1 BUILD THE GATEHOUSE ARCH

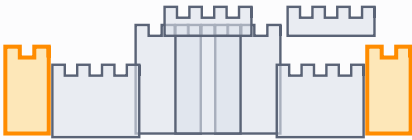

2 BUILD THE TWO GATEHOUSE TOWERS

3 CUT CRENELLATIONS

5 BUILD CORNER TOWERS

GATEHOUSE TOWER PANEL

18" × 30" (46 × 76 cm) | Cut ×4

CUT
x4

GATEHOUSE TOWER PANEL

x4

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Along the top edge mark 5 alternating blocks of about 3.6". Cut 3" DOWN into every second block, leaving the first and last standing.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

18" × 30" (46 × 76 cm)
Battlements along the top edge

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line
--	--

NOTE: 2 panels per tower — tape at 90° corner

B

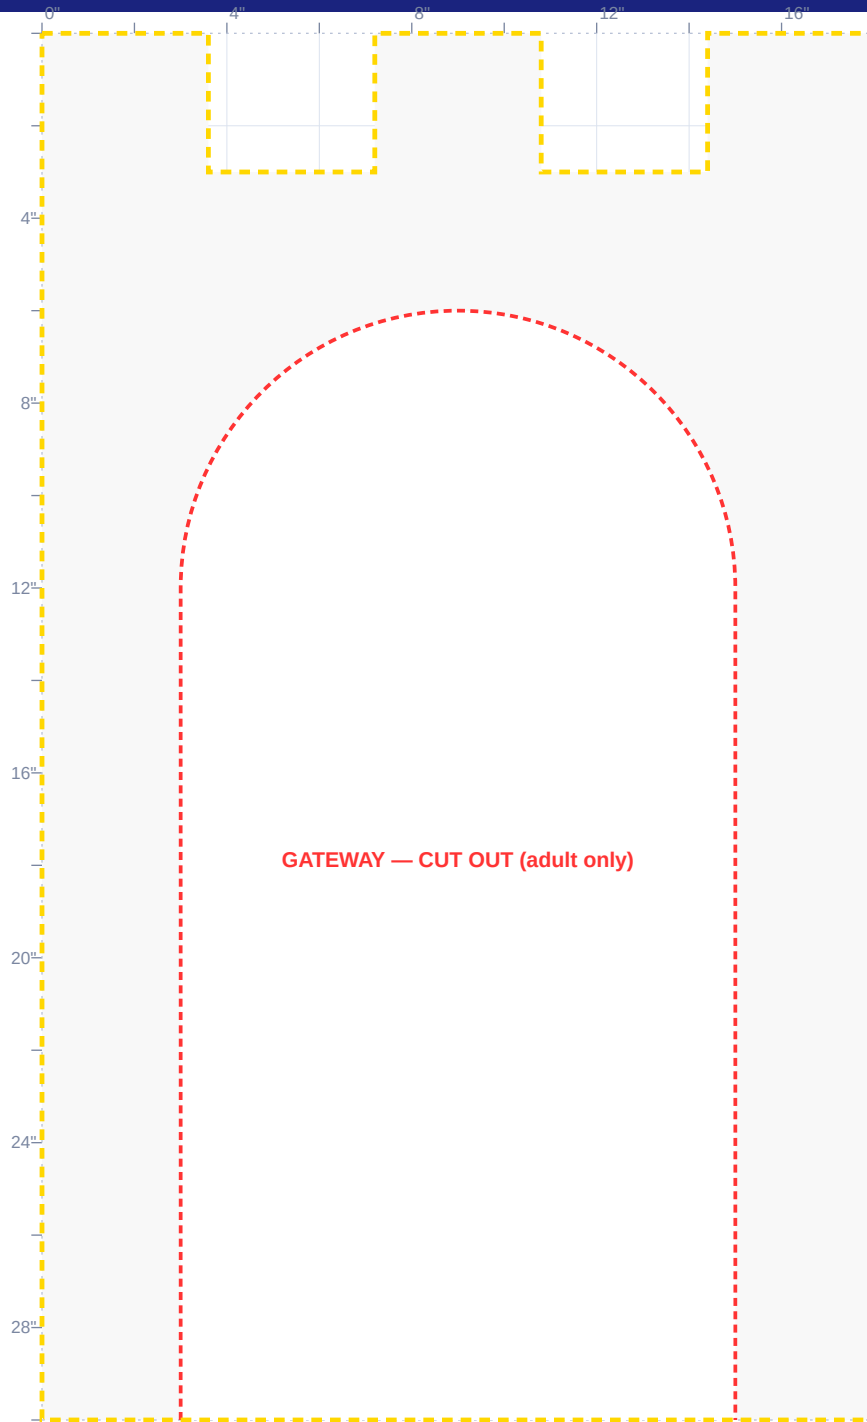

GATEHOUSE ARCH PANEL

18" × 30" (46 × 76 cm) | Cut ×1

CUT
x1

GATEHOUSE ARCH PANEL

x1

**HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:**

Along the top edge mark 5 alternating blocks of about 3.6". Cut 3" DOWN into every second block, leaving the first and last standing.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

18" × 30" (46 × 76 cm)
Battlements along the top edge

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

CUT OUT — cut along the red dashes (an orange side is a fold)

NOTE: Cut the gateway — kids duck through it

SIDE WALL PANEL

24" × 20" (61 × 51 cm) | Cut ×4

CUT
x4

SIDE WALL PANEL

x4

0" 4" 8" 12" 16" 20"

4" 3" 12" 16"

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Along the top edge mark 7 alternating blocks of about 3.4". Cut 3" DOWN into every second block, leaving the first and last standing.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

24" × 20" (61 × 51 cm)
Battlements along the top edge

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line
--	--

NOTE: 2 walls on each side of gatehouse

CORNER TOWER PANEL

12" x 24" (30 x 61 cm) | Cut x4

CUT
x4

CORNER TOWER PANEL

x4

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Along the top edge mark 3 alternating blocks of about 4". Cut 3" DOWN into every second block, leaving the first and last standing.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" x 24" (30 x 61 cm)

Battlements along the top edge

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

FOLD — score lightly, then fold at this line

NOTE:

2 panels per corner tower — tape at 90°

PIECE D: CORNER TOWER PANEL | CASTLE FORTRESS ALPHA | Presented by The High End

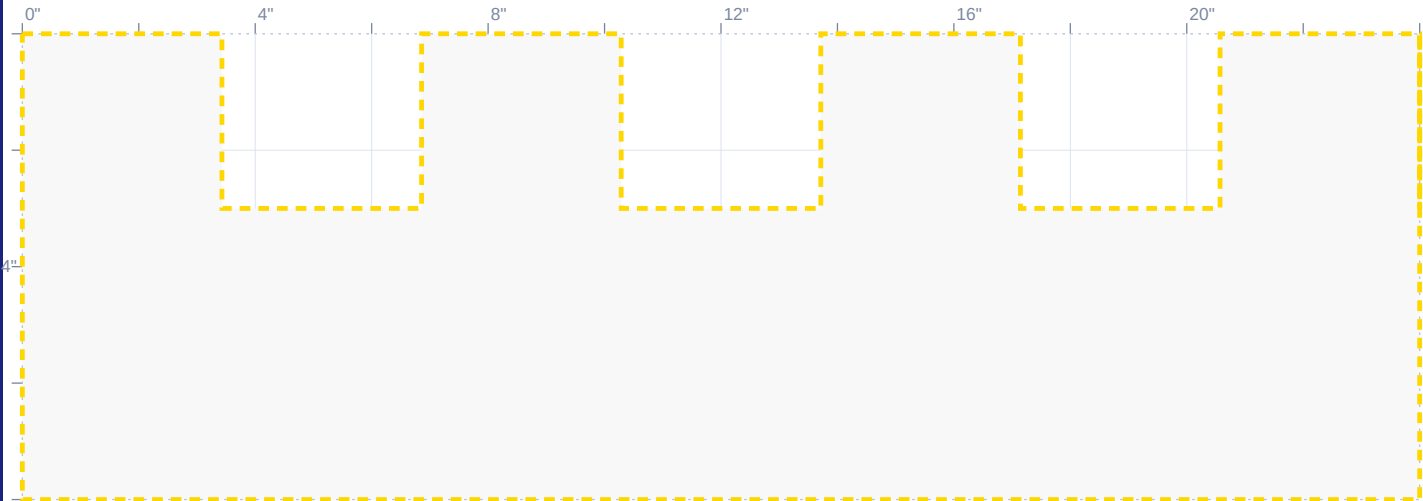

BATTLEMENT STRIP

24" × 8" (61 × 20 cm) | Cut ×6

CUT
x6

BATTLEMENT STRIP

×6

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Along the top edge mark 7 alternating blocks of about 3.4". Cut 3" DOWN into every second block, leaving the first and last standing.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

24" × 8" (61 × 20 cm)

Battlement strip — notches all the way across

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: Cut alternating notches across top

PEÇAS DE PAPELÃO — 5 NO TOTAL (5–7 caixas grandes (pelo menos 24" × 36" (61 × 91 cm) cada))

×4

Painel da torre do portão

18" × 30"

2 painéis por torre — uma no canto a 90°

×1

Painel do arco do portão

18" × 30"

Corte a passagem — as crianças passam abaixadas

×4

Painel da parede lateral

24" × 20"

2 paredes em cada lado do portão

×4

Painel da torre de canto

12" × 24"

2 painéis por torre de canto — uma a 90°

×6

Tira de ameias

24" × 8"

Corte entalhes alternados ao longo do topo

FERRAMENTAS E MATERIAIS

+ 5–7 caixas de papelão grandes

+ Estilete — SOMENTE PARA ADULTOS

+ Fita para embalagem (3 ou mais rolos)

+ TINTA CINZA — o castelo inteiro é de pedra cinza

+ Caneta preta para o padrão de blocos de pedra (linhas horizontais + verticais desencontradas)

+ Tinta verde-musgo para a base

CURIOSIDADE!

O castelo mais antigo ainda de pé foi construído em 963 d.C. — mais de 1.000 anos atrás. Vamos ver quanto tempo o seu dura.

DESAFIO!

Hora do cerco! Um defensor dentro com bolinhas de espuma para arremessar, atacantes do lado de fora. O castelo precisa sobreviver a 3 rodadas.

1

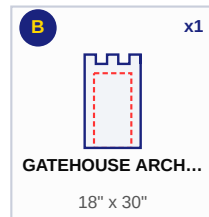

PASSO 1: MONTE O ARCO DO PORTÃO

! AJUDA DE UM ADULTO

Pegue o Painel do arco do portão. Corte a passagem mostrada no molde: 12" (30 cm) de largura, arredondada em cima, indo de 6" (15 cm) abaixo da borda de cima até atravessar a borda de baixo, para que não fique nenhum degrau para tropeçar. As crianças passam abaixadas. Mantenha a moldura firme dos dois lados e em cima.

SEGURANÇA: O adulto corta apenas o arco. Topo curvo e suave — sem bordas irregulares dentro do arco.

PEÇAS DESTE PASSO

2

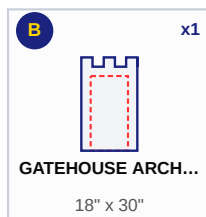

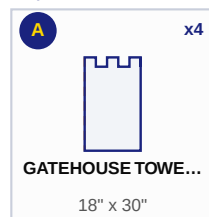

PASSO 2: MONTE AS DUAS TORRES DO PORTÃO

! AJUDA DE UM ADULTO

Para cada torre: pegue 2 Painéis da torre e uma num canto de 90° (marca da borda de canto no molde). Os formatos de L das torres se prendem em cada lado do painel do arco. As torres precisam ser mais altas que o centro do arco.

SEGURANÇA: Precisa de duas pessoas para segurar os painéis da torre a 90° enquanto se prende o canto.

PEÇAS DESTE PASSO

3

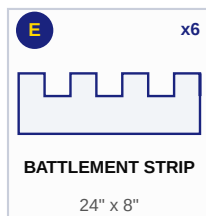

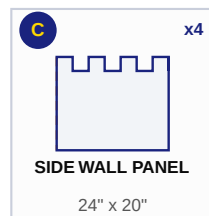

PASSO 3: CORTE AS AMEIAS

! AJUDA DE UM ADULTO

Use as marcas de entalhe no molde como guia. Corte entalhes retangulares alternados ao longo do topo de TODOS os painéis das torres e das paredes — cada entalhe com 4" (10 cm) de largura × 3" (8 cm) de altura. Essas são as ameias. Toda superfície recebe as suas.

SEGURANÇA: O adulto corta os entalhes em todas as peças. Marque todos os entalhes a lápis primeiro.

PEÇAS DESTE PASSO

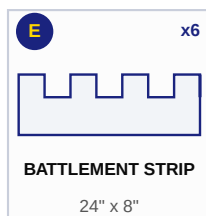

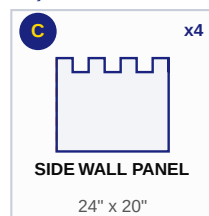

4

PASSO 4: ADICIONE AS PAREDES LATERAIS

! AJUDA DE UM ADULTO

Prenda 2 Painéis de parede lateral em cada lado da estrutura do portão (marcas da borda interna). As paredes se estendem para fora a partir das torres e são mais baixas que elas. Adicione tiras de ameias ao longo do topo de todas as paredes.

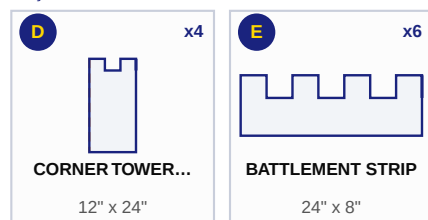

PEÇAS DESTE PASSO

5 PASSO 5: MONTE AS TORRES DE CANTO

Nas duas extremidades do castelo, monte 2 torres de canto usando 2 Painéis da torre de canto cada (mesmo formato de L a 90°, marcas da borda de canto). Menores que as duas torres ao lado do portão. Adicione entalhes de ameias no topo.

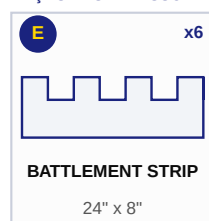

PEÇAS DESTE PASSO

6 PASSO 6: DESENHE O PADRÃO DE PEDRA

ESTA É A ETAPA MAIS IMPORTANTE. Em TODAS as superfícies: desenhe linhas horizontais a cada 5 centímetros. Depois adicione linhas verticais curtas desencontradas de uma fileira para a outra — padrão de tijolos escalonado. Cada parede, torre e ameia. Não pule nenhuma superfície.

PEÇAS DESTE PASSO

7 PASSO 7: PINTE DE CINZA

Pinte todas as superfícies de cinza-médio. Varie levemente o tom em algumas áreas para dar profundidade. É o padrão de pedra sob o cinza que faz parecer real.

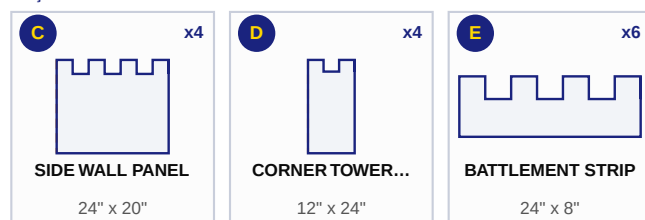

8 PASSO 8: DETALHES DE MUSGO

Na base de cada parede e torre, adicione tinta verde-musgo subindo 2 a 3" (8 cm) a partir de baixo. As paredes de castelos de verdade sempre têm musgo na base.

9 PASSO 9: CONTROLE DE QUALIDADE

Afaste-se e compare com a foto da capa. Passagem grande o bastante para passar abaixado. Torres dos dois lados. Paredes laterais estendidas para fora. Torres de canto nas extremidades. Ameias em tudo. Padrão de pedra. Pintura cinza. Combina com a foto.

PEÇAS DESTE PASSO

CONTROLE DE QUALIDADE!

A sua montagem está parecida com a foto? Compare lado a lado antes de finalizar.
