CARDBOARD KNIGHT ARMOR SET

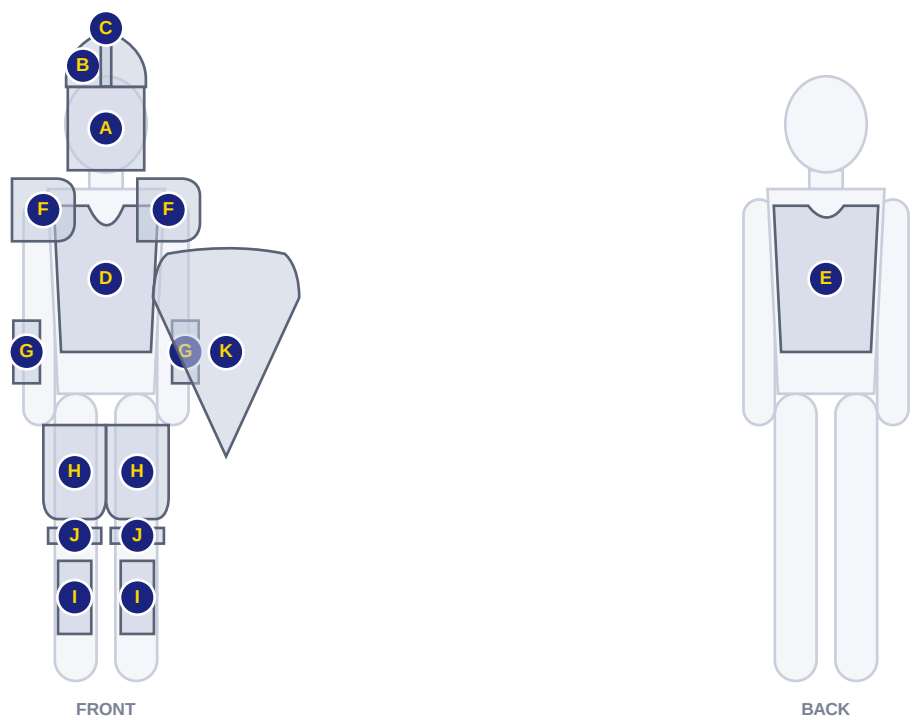

Wearable 11-Part Suit — Domed Helmet, Chest, Arms, Thighs, Shins & Shield

A full wearable suit of armor. Cut it, tape it, wear it, rule the realm.

AGES 4–12	BOXES 2 Medium Boxes	TIME 2–3 Hours	DIFF Beginner *	PIECES 11 pcs
CARDBOARD NEEDED: 2 Medium Boxes (at least 18" × 24" (46 × 61 cm) each) FINISHED SIZE: Helmet fits heads 19.5–22.5" (50–57 cm) · chest and back plates 10" × 14" (25 × 36 cm) · shield 14" × 20" (36 × 51 cm)				
MISSION GOAL: Build and wear a complete knight armor suit like the cover photo: a domed helmet with a crest and two slits, chest and back plates, 2 shoulder plates, 2 arm guards, 2 thigh plates, 2 shin guards with cardboard straps, and a kite shield.				

HOW IT ALL GOES TOGETHER — CARDBOARD KNIGHT ARMOR SET

Every part you cut, shown on the child at its real size, with the letter from its own cut-template page. The grey figure is only there for scale — measure your own child, never this drawing. Pieces that wrap round the head, an arm or a leg are shown as they look once wrapped, not laid flat.

EVERY PART IN THIS BUILD					
A	HELMET WRAP 23" × 8" (58 × 20 cm)	CUT ×1	B	HELMET DOME PANEL 6" × 7" (15 × 18 cm)	CUT ×4
C	HELMET CREST 14" × 3" (36 × 8 cm)	CUT ×1	D	CHEST FRONT 10" × 14" (25 × 36 cm)	CUT ×1
E	CHEST BACK 10" × 14" (25 × 36 cm)	CUT ×1	F	SHOULDER PLATE 6" × 6" (15 × 15 cm)	CUT ×2
G	ARM GUARD 8" × 6" (20 × 15 cm)	CUT ×2	H	THIGH PLATE 6" × 9" (15 × 23 cm)	CUT ×2
I	SHIN GUARD 10" × 7" (25 × 18 cm)	CUT ×2	J	ARMOUR STRAP 16" × 1.5" (41 × 4 cm)	CUT ×10
K	SHIELD 14" × 20" (36 × 51 cm)	CUT ×1			

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

HELMET WRAP

23" × 8" (58 × 20 cm) | Cut ×1

CUT
x1

HELMET WRAP

x1

0" 4" 8" 12" 16" 20"

4"

FACE OPENING — CUT OUT (adult only)

23" × 8" (58 × 20 cm)

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 2.5" (32% of real size).
Cut your REAL piece at 23" × 8" (58 × 20 cm). Use a ruler, not the printout — each grid square = 2 real inches.

The band around the head: overlap and tape the seam at the back

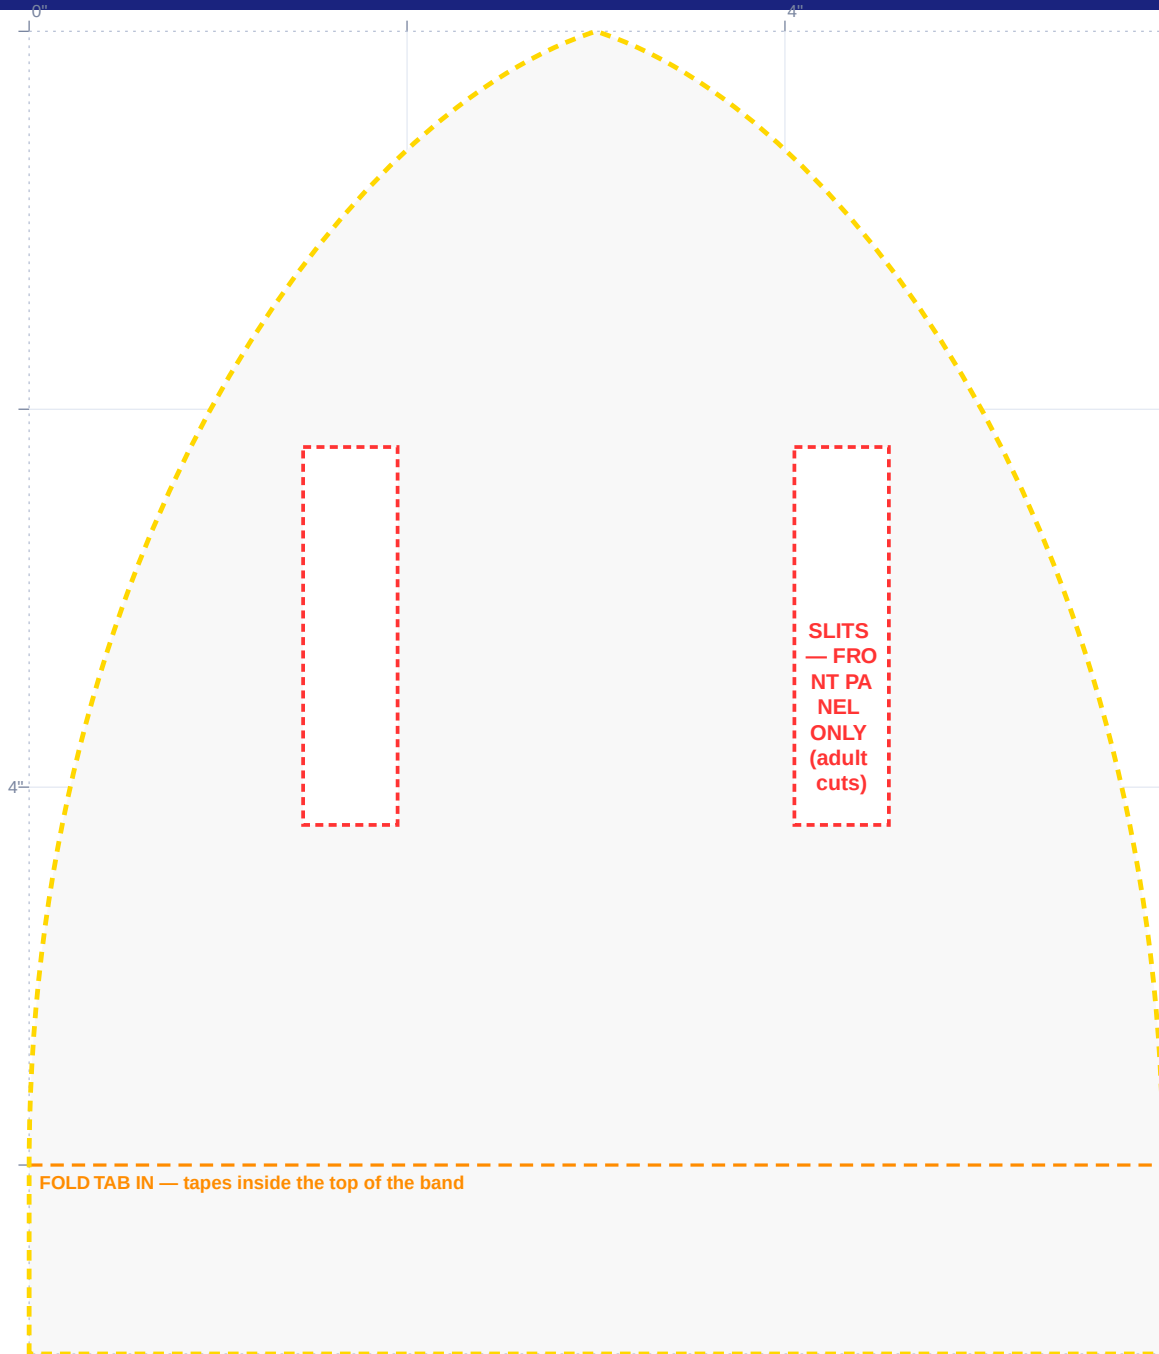

MARK LEGEND FOR THIS PIECE:

CUT OUT — cut along the red dashes (an orange side is a fold)

NOTE: The band around the head: overlap and tape the seam at the back

HELMET DOME PANEL

x4

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 5.9" × 6.9" (98% of real size). Cut your **REAL** piece at 6" × 7" (15 × 18 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Draw a line 1" up from the bottom edge — that strip is the tab. Mark the centre of the top edge. From each end of the tab line, draw a smooth outward curve up to that centre mark (like one segment of an orange peel). Cut one, then trace it for the other three so all four match.

Cut along the **GOLD** dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

6" × 7" (15 × 18 cm)

Dome panel — straight tab at the bottom, curved sides meeting in a point

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

FOLD — score lightly, then fold at this line

CUT OUT — cut along the red dashes (an orange side is a fold)

NOTE: Four identical panels tape together into the round top of the helmet. Cut the 2 slits in **ONE** panel only — that one goes at the front

HELMET CREST

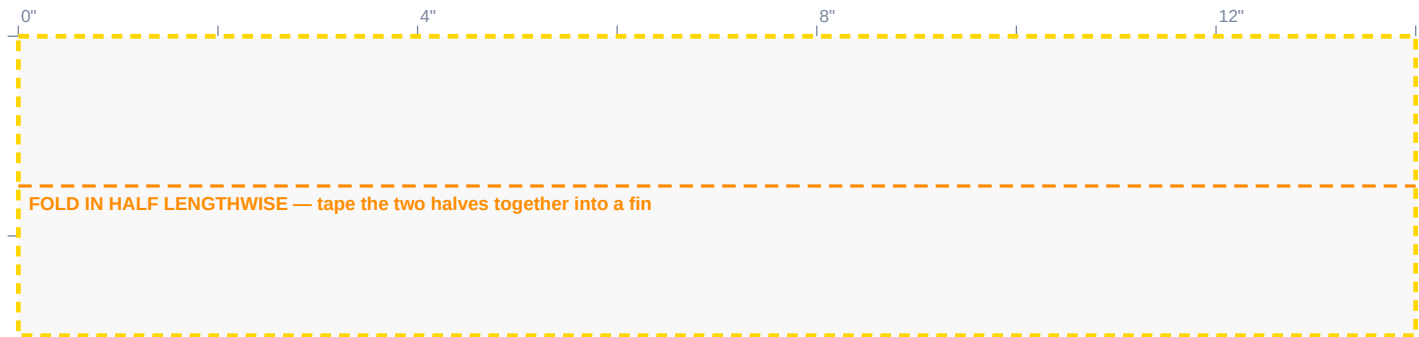

14" × 3" (36 × 8 cm) | Cut ×1

CUT

x1

HELMET CREST

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 1.6" (52% of real size).
Cut your REAL piece at 14" × 3" (36 × 8 cm). Use a ruler, not the printout — each grid square = 2 real inches.

14" × 3" (36 × 8 cm)

The raised ridge that runs over the top of the helmet, front to back

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: The raised ridge that runs over the top of the helmet, front to back

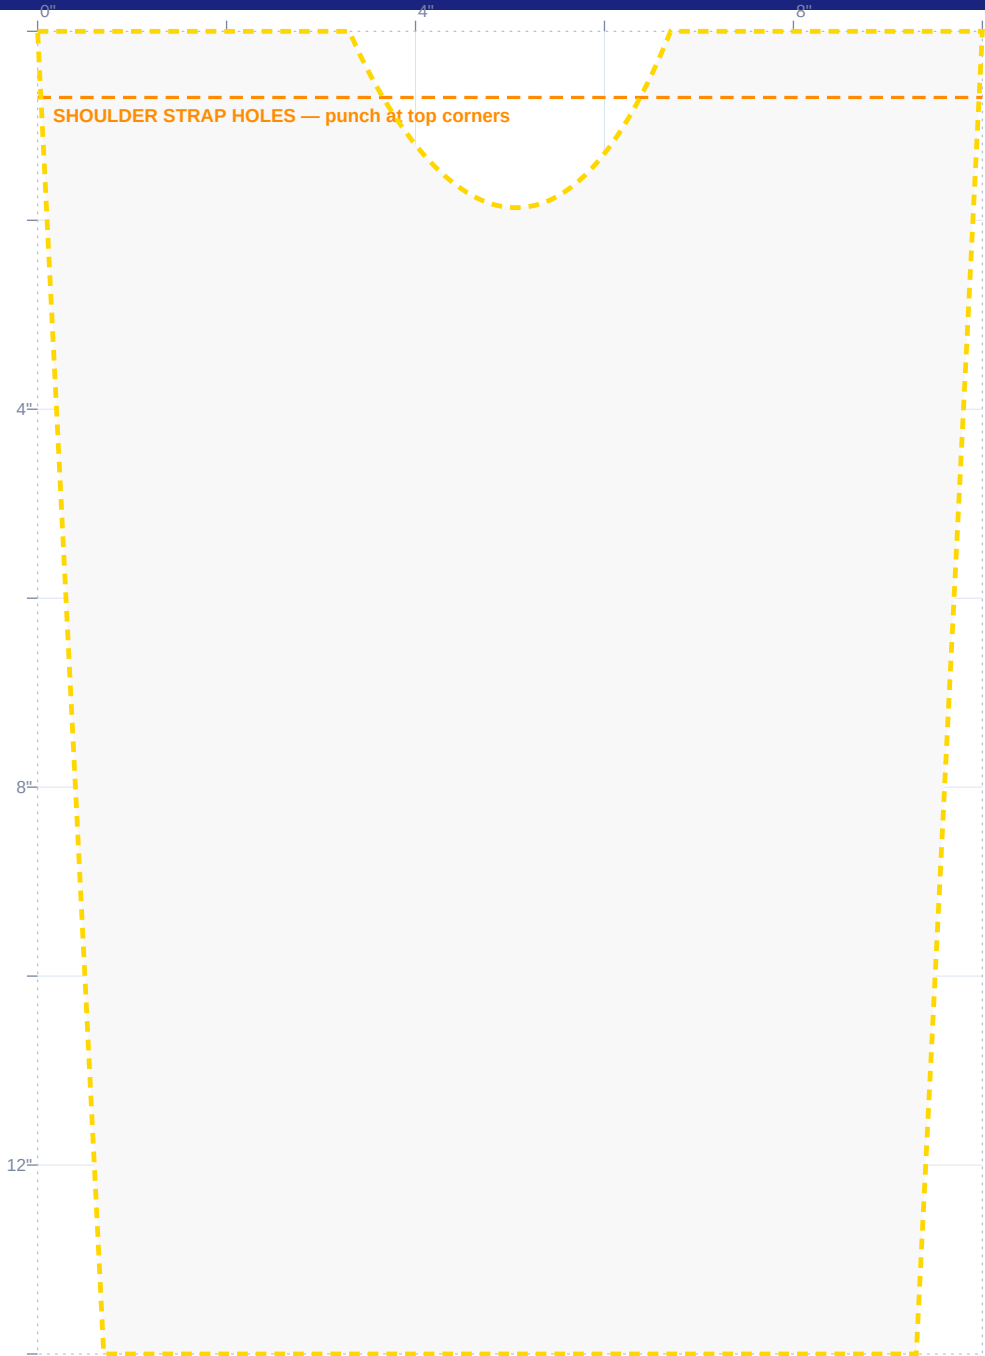

CHEST FRONT

10" × 14" (25 × 36 cm) | Cut ×1

CUT
x1

CHEST FRONT

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 4.9" × 6.9" (49% of real size). Cut your REAL piece at 10" × 14" (25 × 36 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark 3.3" in from each TOP corner — the gap between those two marks is the neck. Scoop a shallow curve 2.1" deep between them. Then mark 0.7" in from each BOTTOM corner and draw a straight line up to the top corner on that side. Check the neck over the child's head before you cut the second one.
Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 14" (25 × 36 cm)
Breastplate — neck scooped out of the top, tapers in at the waist

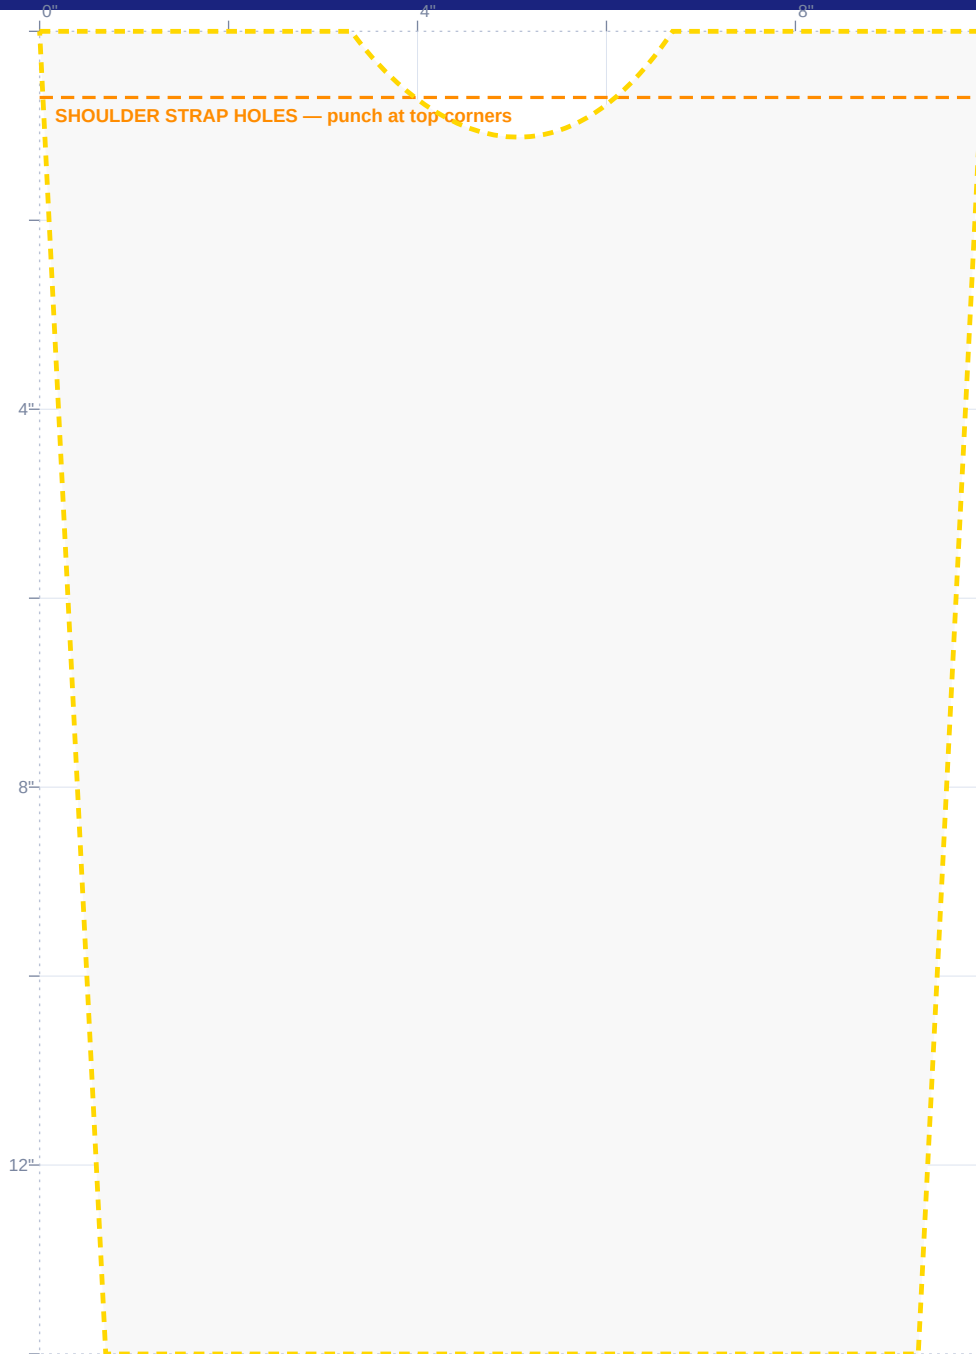

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line
--	--

NOTE: Trace child's torso for fit

CHEST BACK

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 4.9" × 6.9" (49% of real size). Cut your REAL piece at 10" × 14" (25 × 36 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Same outline as the chest front, but scoop the neck only 1.3" deep — the back of the neck sits higher than the front. Mark 3.3" in from each top corner, curve between the marks, then taper 0.7" in at each bottom corner.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 14" (25 × 36 cm)

Back plate — matches the front, shallower neck scoop

MARK LEGEND FOR THIS PIECE:

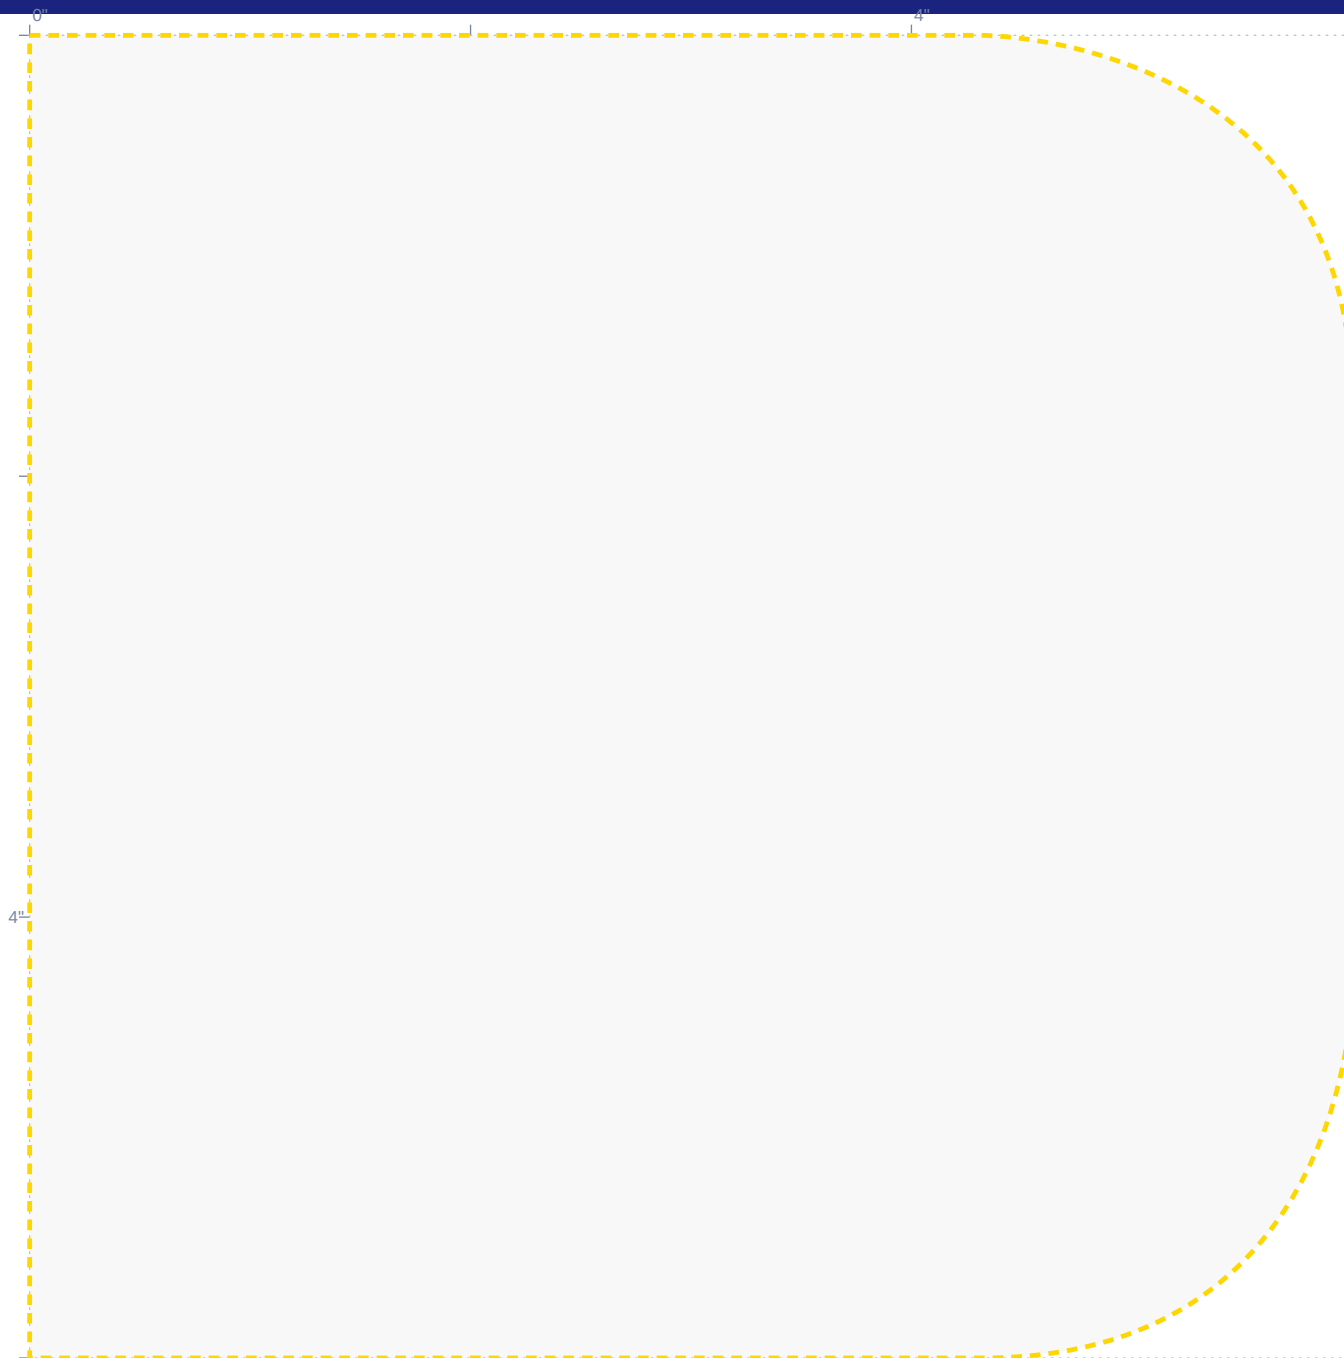

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

FOLD — score lightly, then fold at this line

NOTE: Matches chest front

SHOULDER PLATE

x2

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6.9" × 6.9" (115% of real size — **BIGGER** than the REAL piece at 6" × 6" (15 × 15 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark 1.7" in from the two OUTER corners along the top and bottom edges, and 1.7" in along the outer edge. Trace round a mug between the marks to curve that whole outer edge.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

6" × 6" (15 × 15 cm)*Pauldron — square inner edge, rounded outer edge***MARK LEGEND FOR THIS PIECE:**

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: Round the outer edge

TAPE BEHIND CHEST FRONT

STRAP

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 4.6" × 6.9" (77% of real size). Cut your REAL piece at 6" × 9" (15 × 23 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark 1.3" in from each BOTTOM corner along the bottom edge and 2" up each side. Trace round a mug between the marks to round both bottom corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

6" × 9" (15 × 23 cm)
Thigh plate — square top edge, rounded bottom corners

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	GLUE HERE — where another part goes
--	-------------------------------------

NOTE: Hangs from the bottom corner of the chest front over the thigh; held on by 1 cardboard strap

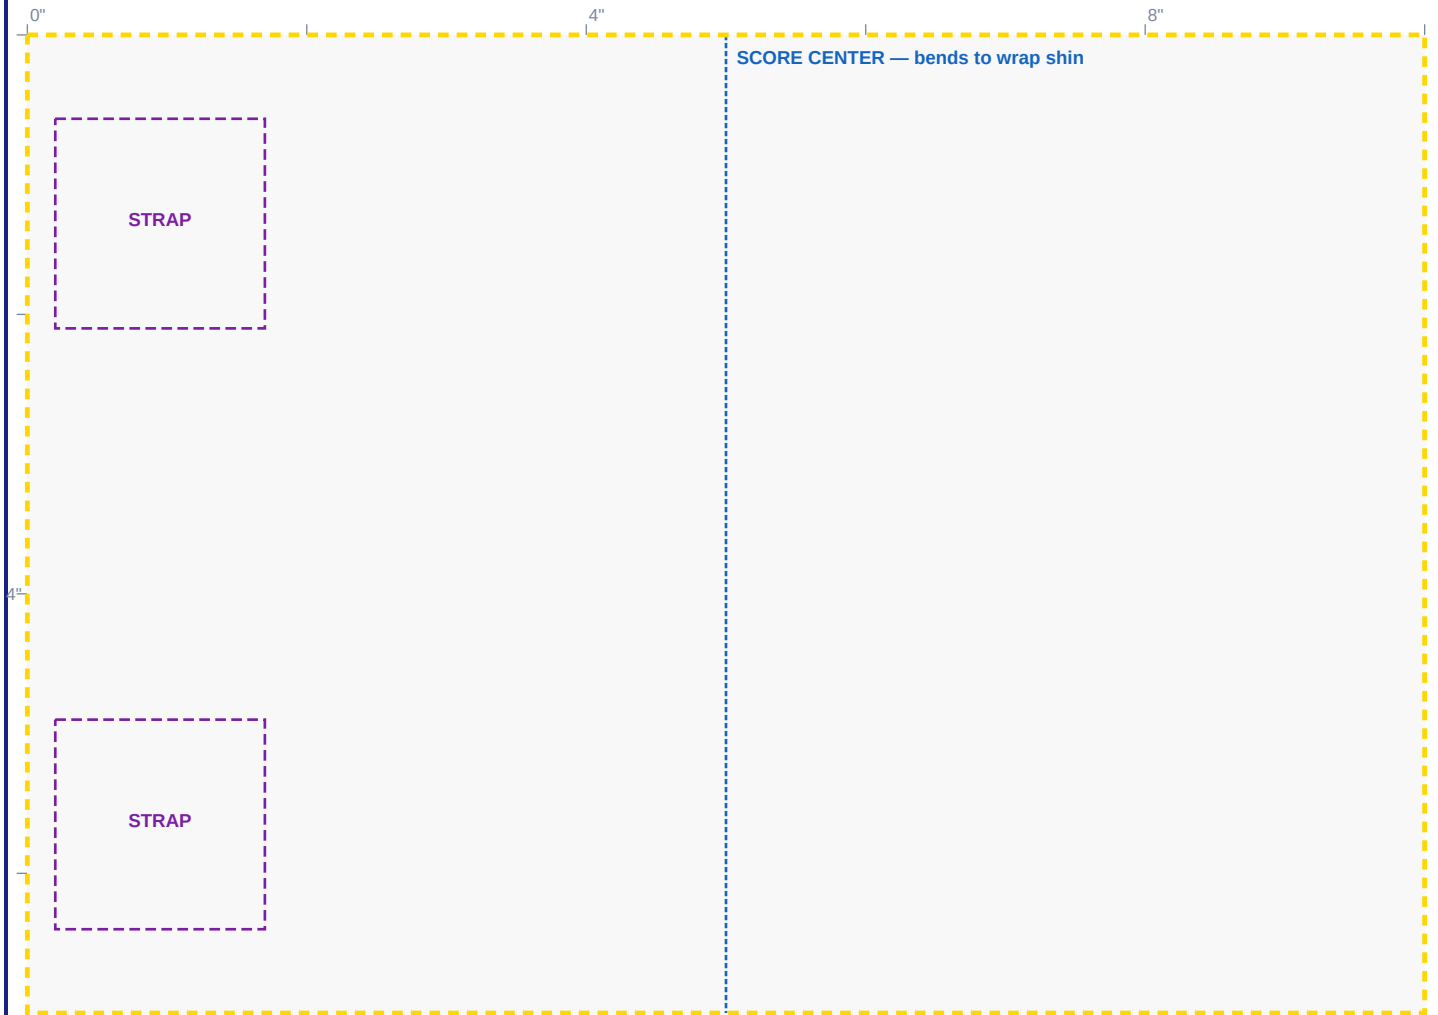

SHIN GUARD

10" × 7" (25 × 18 cm) | Cut ×2

CUT
x2

SHIN GUARD

x2

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 5.1" (73% of real size).
Cut your REAL piece at 10" × 7" (25 × 18 cm). Use a ruler, not the printout — each grid square = 2 real inches.

10" × 7" (25 × 18 cm)

Score center to wrap shin; held on by 2 cardboard straps

MARK LEGEND FOR THIS PIECE:

SCORE — press hard with ruler but do NOT cut through

GLUE HERE — where another part goes

NOTE: Score center to wrap shin; held on by 2 cardboard straps

ARMOUR STRAP

16" × 1.5" (41 × 4 cm) | Cut ×10

CUT
x10

ARMOUR STRAP

×10

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 0.7" (45% of real size).
Cut your REAL piece at 16" × 1.5" (41 × 4 cm). Use a ruler, not the printout — each grid square = 2 real inches.

16" × 1.5" (41 × 4 cm)

Cardboard straps: 4 for the arm guards, 2 for the thigh plates, 4 for the shin guards. Trim each to fit

MARK LEGEND FOR THIS PIECE:

CUT — scissors or box cutter on this line

NOTE: Cardboard straps: 4 for the arm guards, 2 for the thigh plates, 4 for the shin guards. Trim each to fit

SHIELD

14" × 20" (36 × 51 cm) | Cut ×1

CUT
x1

SHIELD

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 4.8" × 6.9" (34% of real size). Cut your REAL piece at 14" × 20" (36 × 51 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark both side edges 4.8" down from the top — this is the widest part. Draw a straight line from each mark to the CENTRE OF THE BOTTOM edge. Round off the two top corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

14" × 20" (36 × 51 cm)
Kite shield — widest across the top, POINT AT THE BOTTOM

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	SCORE — press hard with ruler but do NOT cut through
--	--

NOTE: Kite shape — point at bottom

WHAT YOU NEED — CARDBOARD KNIGHT ARMOR SET

CARDBOARD PIECES — 11 TOTAL (2 Medium Boxes (at least 18" × 24" (46 × 61 cm) each))

×1 Helmet Wrap 23" × 8" <i>The band around the head: overlap and tape the seam at the back</i>	×2 Arm Guard 8" × 6" <i>Score center to wrap forearm; held on by 2 cardboard straps</i>
×4 Helmet Dome Panel 6" × 7" <i>Four identical panels tape together into the round top of the helmet. Cut the 2 slits in ONE panel only — that one goes at the front</i>	×2 Thigh Plate 6" × 9" <i>Hangs from the bottom corner of the chest front over the thigh; held on by 1 cardboard strap</i>
×1 Helmet Crest 14" × 3" <i>The raised ridge that runs over the top of the helmet, front to back</i>	×2 Shin Guard 10" × 7" <i>Score center to wrap shin; held on by 2 cardboard straps</i>
×1 Chest Front 10" × 14" <i>Trace child's torso for fit</i>	×10 Armour Strap 16" × 1.5" <i>Cardboard straps: 4 for the arm guards, 2 for the thigh plates, 4 for the shin guards. Trim each to fit</i>
×1 Chest Back 10" × 14" <i>Matches chest front</i>	×1 Shield 14" × 20" <i>Kite shape — point at bottom</i>
×2 Shoulder Plate 6" × 6" <i>Round the outer edge</i>	

TOOLS & SUPPLIES

- + 2 medium cardboard boxes
- + Scissors
- + Packing tape
- + Silver markers or metallic paint
- + Black marker for rivets
- + Velcro dots (or extra tape) to close the strap ends
- + Pencil for tracing

FUN FACT!

Real medieval knight armor weighed up to 50 lbs. Yours weighs 0. That's a serious upgrade.

CHALLENGE!

Knightly quest: once fully armored, complete 5 tasks — rescue a stuffed animal, defend a pillow fort, slay a pillow dragon, carry a treasure, and bow to the king.

1 STEP 1: MEASURE THE CHILD

Before cutting anything, lightly trace the child's torso, arm, shin, and head with pencil on the cardboard. Armor must fit them — armor that falls off is not armor.

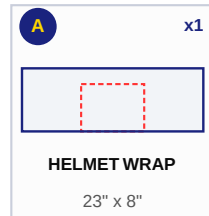

2 STEP 2: BUILD THE HELMET BAND

! ADULT ASSIST NEEDED

The Helmet Wrap is cut LONGER than any child's head on purpose. Wrap it around the child's head, overlap the ends by about 1 inch, mark that spot, trim the extra off BOTH ends equally so the face opening stays at the front, and tape the seam at the back. Cut out the face opening shown on the template: 8" (20 cm) wide, from 2" (5 cm) below the top edge all the way down through the bottom edge. The band sits just above the eyebrows and comes down the sides of the head to about the jaw; the whole face stays open, like the cover photo.

SAFETY: Adult cuts. Eyes, nose, mouth and chin must be fully uncovered.

PIECES USED IN THIS STEP

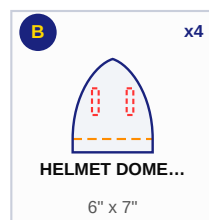

3 STEP 3: BUILD THE HELMET DOME

! ADULT ASSIST NEEDED

Cut all 4 Helmet Dome Panels to the same curved shape. In ONE of them only, cut the 2 slits shown on the template — that is the front panel. Fold the bottom tab of every panel inward along the fold line. Tape the front panel's tab inside the top edge of the band, centred over the face opening, then the back panel opposite it, then one panel on each side. Bend the panels in so their curved edges meet, and tape every seam from the band up to the point on top. The 4 points meet above the crown and the top of the helmet is now round, like the photo. The 4 panels are a little wider than they need to be on purpose: where they overlap at the bottom, just tape them overlapped.

SAFETY: Adult cuts the slits. They are for looks — the child sees through the face opening.

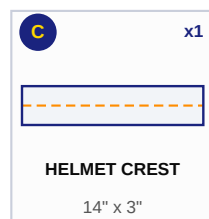

PIECES USED IN THIS STEP

4 STEP 4: ADD THE HELMET CREST

Fold the Helmet Crest in half along its length (fold line on template) and tape the two halves flat together so it becomes a stiff fin. Stand it on its folded edge along the centre of the helmet, from the front of the band, over the crown, to the back of the band, and tape it down on both sides. Trim any extra length at the back.

PIECES USED IN THIS STEP

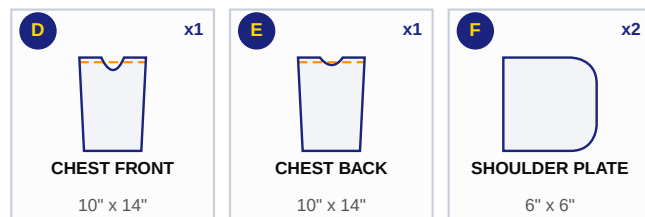

5

STEP 5: BUILD THE CHEST PLATE

Cut Chest Front to fit the child's torso width and length. Repeat for Chest Back. Punch holes at the top shoulder corners (fold marks on template). Thread tape loops through — these are the shoulder straps connecting front to back. Add a cross or HEE emblem on the front in silver.

PIECES USED IN THIS STEP

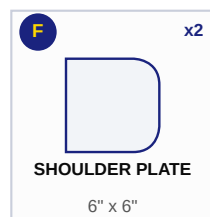

6

STEP 6: ADD SHOULDER PLATES

Round the outer corner of each Shoulder Plate (cut line on template). Tape them to the chest at the shoulder strap points — they should hang over the arm joints like real pauldrons.

PIECES USED IN THIS STEP

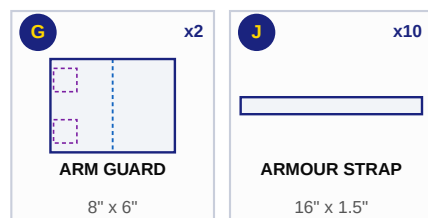

7

STEP 7: BUILD THE ARM GUARDS

Score the center vertical line on each Arm Guard (score mark on template) so it can bend to wrap the arm. Tape one end of an Armour Strap onto each STRAP box on the template, on the inside of the guard. Wrap the guard round the forearm, bring each strap round the back of the arm, trim it so it overlaps the other edge by about 1 inch, and close it with a velcro dot or a piece of tape. Add black marker rivets around every edge.

SAFETY: Straps snug, not tight — a finger must slide under each one.

PIECES USED IN THIS STEP

8

STEP 8: HANG THE THIGH PLATES

Round the two bottom corners of each Thigh Plate (gold outline). Tape the top edge of each plate behind one bottom corner of the Chest Front (TAPE BEHIND CHEST FRONT box) so the plates hang down over the front of the thighs. Tape an Armour Strap onto the STRAP box at the bottom of each plate, wrap it round the back of the thigh, trim it, and close it with a velcro dot or tape. The strap holds the plate against the leg when the child walks.

SAFETY: Straps snug, not tight — a finger must slide under each one.

PIECES USED IN THIS STEP

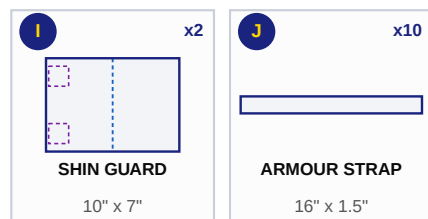

9

STEP 9: BUILD THE SHIN GUARDS

Score the center vertical line on each Shin Guard (score mark on template). Tape an Armour Strap onto each of the 2 STRAP boxes, on the inside. Wrap the guard round the front of the shin, bring both straps round the back of the leg, trim them, and close each with a velcro dot or tape. Add horizontal score lines across the surface for the plate mail look.

SAFETY: Straps snug, not tight — a finger must slide under each one.

PIECES USED IN THIS STEP

10

STEP 10: BUILD THE SHIELD

Cut the Shield (14" x 20" (36 x 51 cm)). Use the taper marks on the template to cut the bottom to a kite point. Score the center vertical spine for rigidity (score mark on template). Decorate with a family crest. Add 2 tape loops on the back for the arm strap.

PIECES USED IN THIS STEP

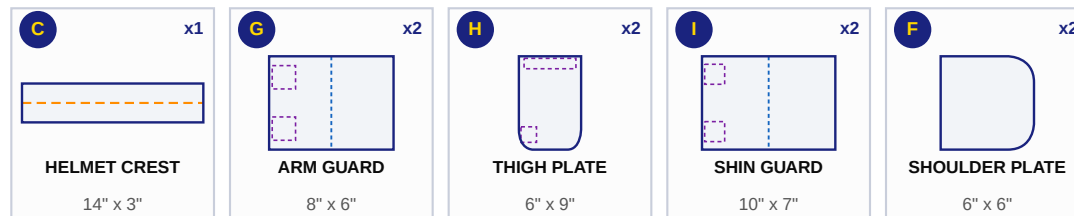

11

STEP 11: SILVER EVERYTHING

Go over every piece — helmet, crest, chest, shoulders, arm guards, thigh plates, shin guards, straps and shield — with silver marker or paint. Add black marker rivets at every edge. This is the step that makes it look like real armor — do not skip any surface.

PIECES USED IN THIS STEP

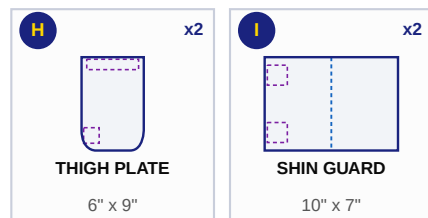

12

STEP 12: QUALITY CHECK

Put on the whole suit — everything fits and stays on when the child walks. The helmet is round on top with the crest down the middle and 2 slits at the front. Thigh plates and shin guards are held on by cardboard straps. Silver on every piece. Compare to the cover photo. That's the standard.

PIECES USED IN THIS STEP

QUALITY CHECK!

Does your build match the cover photo? Compare side by side before you call it done.
