CARDBOARD RACE CAR COCKPIT

Life-Size Sit-In Formula Racing Car — Long Nose, Fat Tires, Fairing & High Rear Wing

Build a Formula 1 cockpit. Race from the bedroom. Trophies not included.

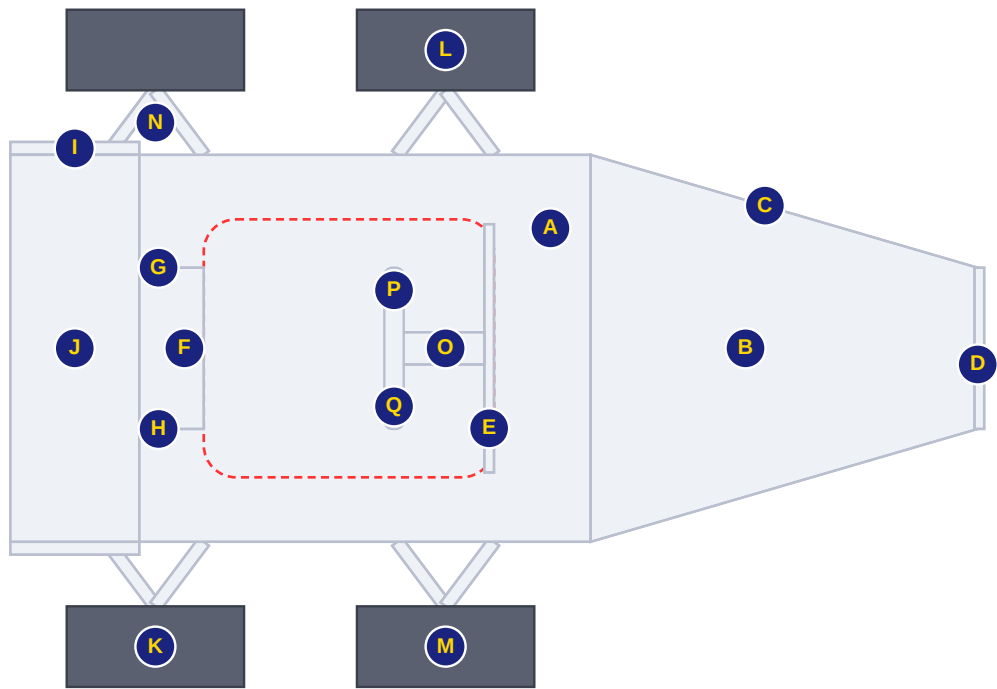

AGES 4–10	BOXES 3 Large Boxes	TIME 3–4 Hours	DIFF Intermediate **	PIECES 17 pcs
--------------	------------------------	-------------------	-------------------------	------------------

CARDBOARD NEEDED:
3 Large Boxes (sides at least 24" × 36" (61 × 91 cm); one is the body)
FINISHED SIZE:
60" long × 42" wide at the tires × 32" tall at the wing (152 × 107 × 81 cm); cockpit 18" × 16"

MISSION GOAL:
Build the car in the photo: a low body the child sits down inside, a long striped nose, a tall fairing behind the head, a rear wing high on tall endplates, 4 fat tires on suspension arms, a 3-spoke wheel, and a big orange 7.

HOW IT ALL GOES TOGETHER — CARDBOARD RACE CAR COCKPIT

Seen from directly above. Every part you cut is on this picture, with the letter from its own cut-template page. If a letter is on this drawing, there is a page for it in this file — that is the whole parts list, nothing else is needed.

Drawn to scale from the cut sizes in this plan. Front of the car is to the right.

EVERY PART IN THIS BUILD					
A	CAR BODY (FULL BOX) 36" × 24" (91 × 61 cm)	CUT x1	B	NOSE TOP 24" × 25" (61 × 64 cm)	CUT x1
C	NOSE SIDE 25" × 16" (64 × 41 cm)	CUT x2	D	NOSE TIP 10" × 9" (25 × 23 cm)	CUT x1
E	DASH PANEL 23" × 7" (58 × 18 cm)	CUT x1	F	FAIRING FRONT 10" × 9" (25 × 23 cm)	CUT x1
G	FAIRING SIDE 12" × 9" (30 × 23 cm)	CUT x2	H	FAIRING TOP 10" × 17" (25 × 43 cm)	CUT x1
I	REAR WING ENDPLATE 8" × 25" (20 × 64 cm)	CUT x2	J	REAR WING ELEMENT 26" × 8" (66 × 20 cm)	CUT x1
K	TIRE INNER DISC 11" × 11" (28 × 28 cm)	CUT x4	L	TIRE OUTER RING 11" × 11" (28 × 28 cm)	CUT x4
M	TIRE TREAD 36" × 5" (91 × 13 cm)	CUT x4	N	SUSPENSION ARM 8" × 3" (20 × 8 cm)	CUT x8
O	STEERING COLUMN 8" × 6" (20 × 15 cm)	CUT x1	P	STEERING WHEEL LAYER 10" × 10" (25 × 25 cm)	CUT x2
Q	STEERING HUB 2.5" × 2.5" (6 × 6 cm)	CUT x1			

WHEEL MOUNT — LOOKING DOWN ON ONE TIRE	FROM THE SIDE — WHERE THE AXLE MARKS GO
BODY SIDE N = 2 SUSPENSION ARMS in a V, 3" either side of the axle mark, holding the tire 4" out. K INNER DISC + M TREAD 5" wide + L OUTER RING = one tire 11" across.	wing top 32" 9" 9" body 16" nose tip 9" 5.5" Four axle marks — 9" in from each end, 5.5" up from the bottom edge, on BOTH sides. Each tire stands on the floor 4" out from the body.

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the car once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and your car should look like each picture in turn.

3 SET UP THE CAR BODY

4 CUT THE COCKPIT

5 FIT THE DASH PANEL

6 BUILD THE NOSE

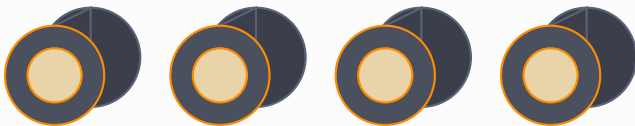

7 BUILD THE FAIRING

8 BUILD THE REAR WING

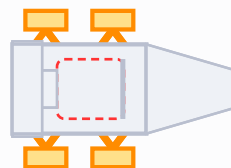

9 BUILD THE TIRES

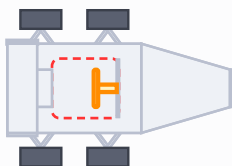

4 TIRES — EACH: INNER DISC + TREAD + OUTER RING

10 MOUNT THE TIRES

11 ADD THE STEERING WHEEL

FINISHED CAR CHECK

Long nose out front. Fairing behind the cockpit. Rear wing high on its two tall endplates. 4 fat tires, 2 a side, each held 4" out from the body by a V of 2 arms. Steering wheel on the dash. That is every part in the table above, all used.

CAR BODY (FULL BOX)

36" x 24" (91 x 61 cm) | Cut x1

CUT
x1

CAR BODY (FULL BOX)

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" x 4.9" (20% of real size).
Cut your REAL piece at 36" x 24" (91 x 61 cm). Use a ruler, not the printout — each grid square = 2 real inches.

36" x 24" (91 x 61 cm)

A 36" x 24" x 16" box used whole. Drawn: its TOP, back of the car on the left

MARK LEGEND FOR THIS PIECE:

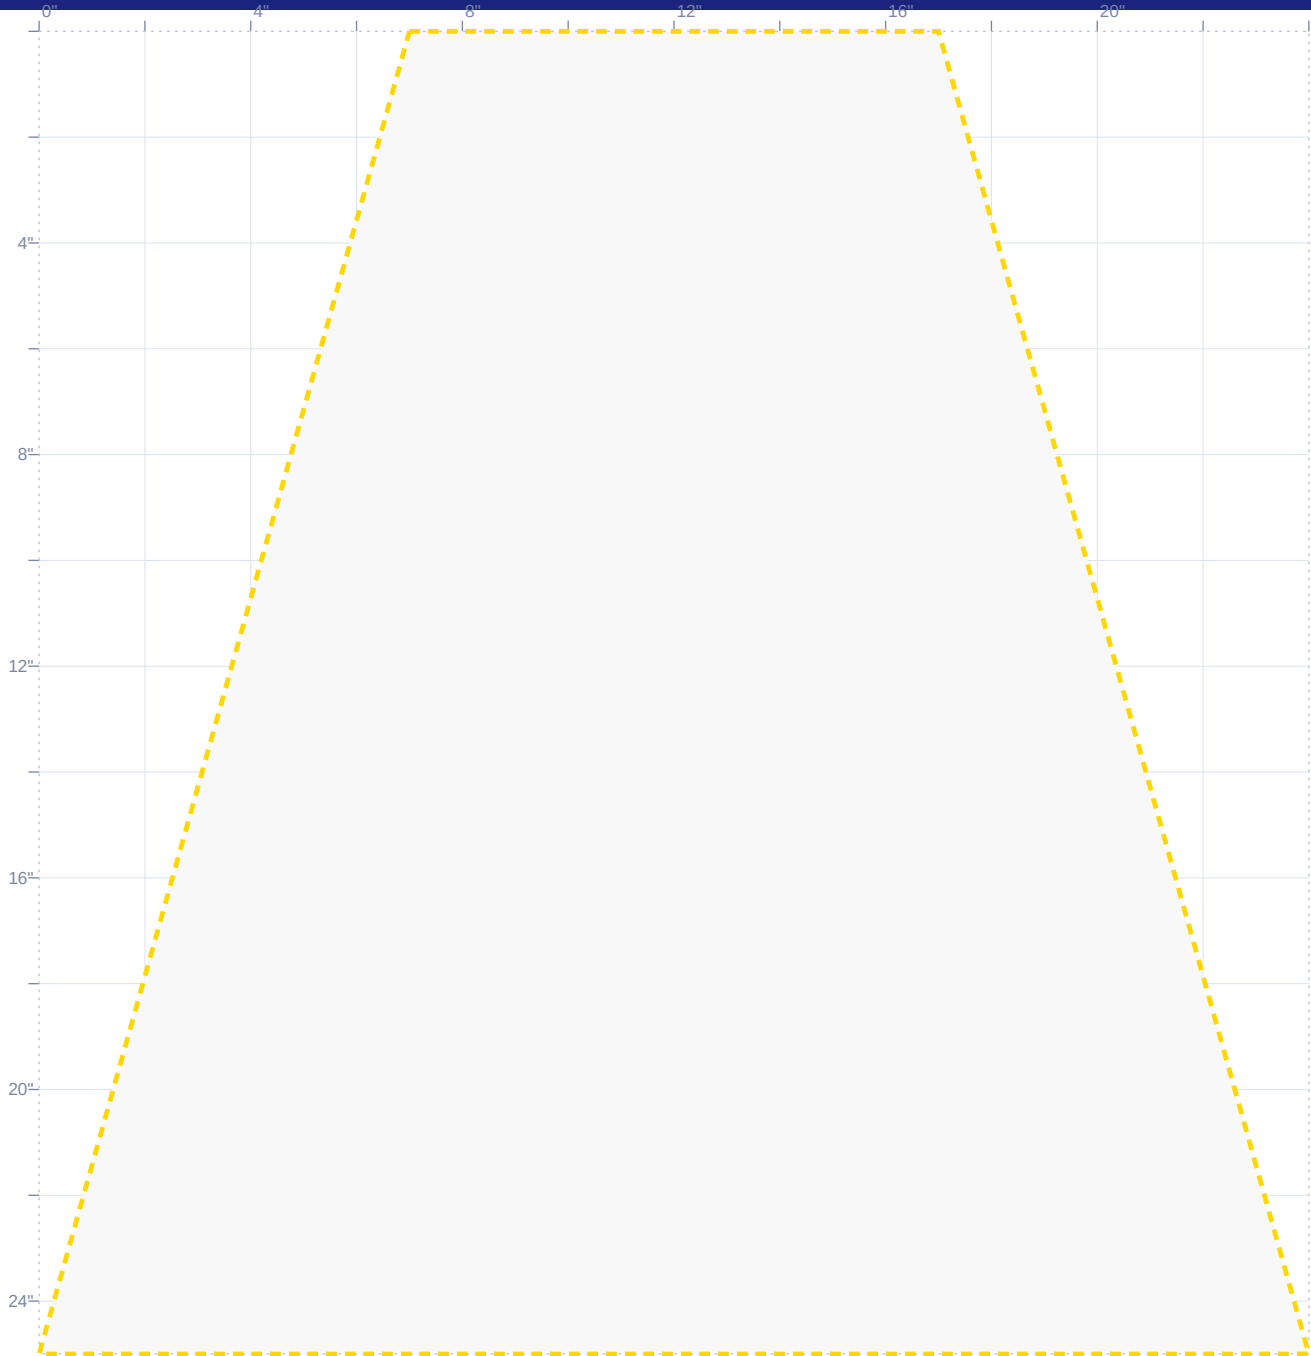

CUT OUT — cut along the red dashes (an orange side is a fold)

GLUE HERE — where another part goes

NOTE: A 36" x 24" x 16" box used whole. Drawn: its TOP, back of the car on the left

NOSE TOP

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6.6" × 6.9" (28% of real size).
Cut your REAL piece at 24" × 25" (61 × 64 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

The bottom edge (24") is the end that meets the body. Mark 7" in from each TOP corner — that leaves a 10" tip. Draw straight lines from those marks down to the bottom corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

24" × 25" (61 × 64 cm)

Nose top — 24" wide at the body, 10" at the tip

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: The long sloping top of the nose: the stripes go on it

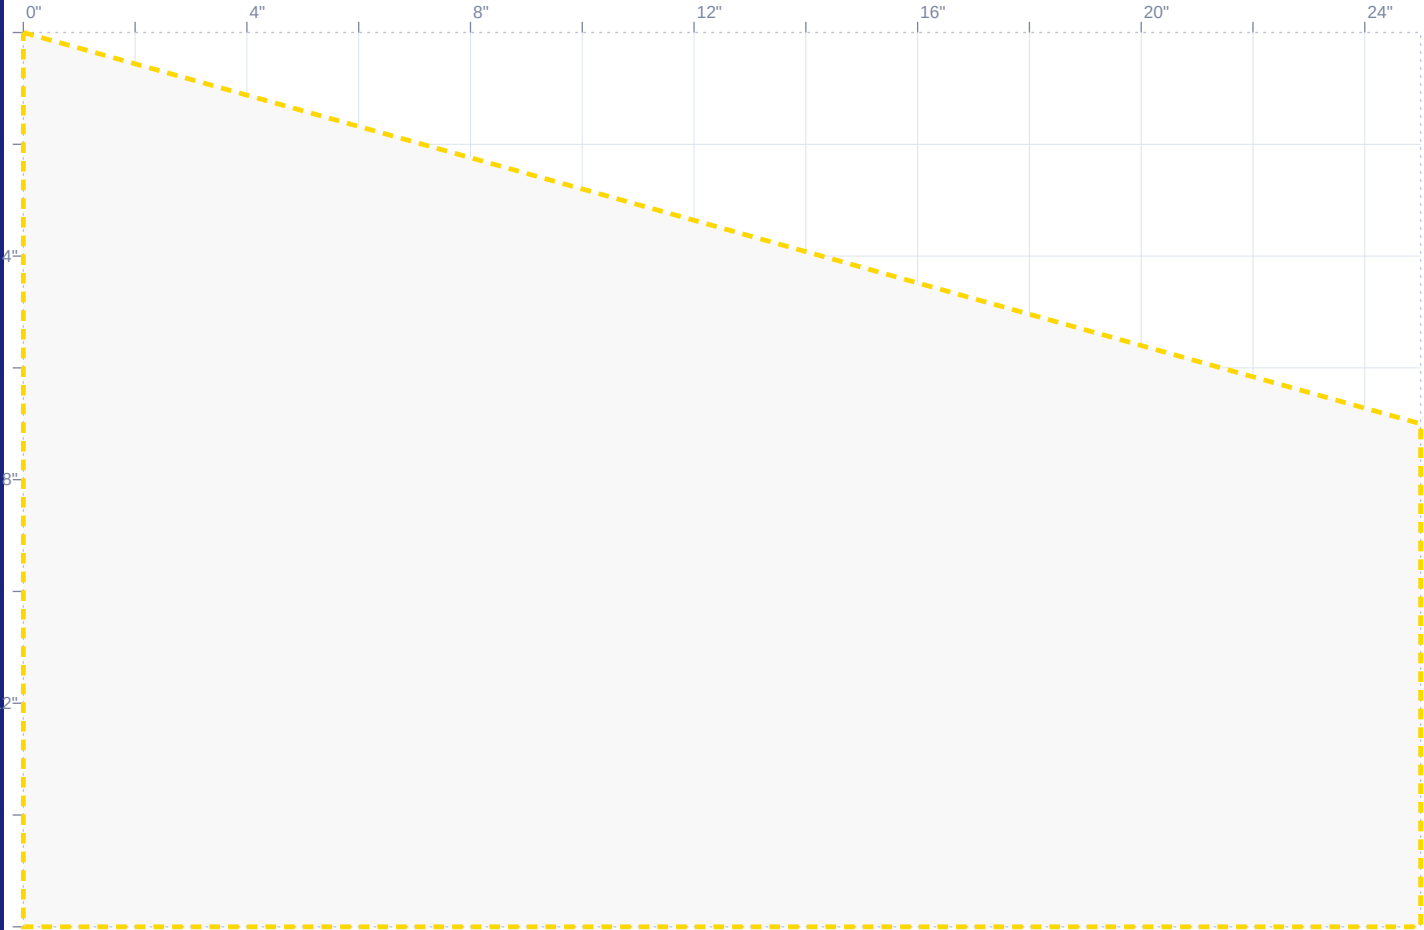

NOSE SIDE

25" × 16" (64 × 41 cm) | Cut ×2

CUT
x2

NOSE SIDE

x2

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 4.7" (29% of real size).
Cut your REAL piece at 25" × 16" (64 × 41 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Keep the bottom edge straight and the left (body) end its full 16". Mark the right (tip) end 9" up from the bottom and draw a straight line from that mark to the top-left corner. Cut 1, flip it over and trace the second.
Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

25" × 16" (64 × 41 cm)
Nose side — tall at the body, sloping down to the tip

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: Left and right sides of the nose: 16" at the body, 9" at the tip

NOSE TIP

10" × 9" (25 × 23 cm) | Cut ×1

CUT
x1

NOSE TIP

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 6.6" (73% of real size).
Cut your REAL piece at 10" × 9" (25 × 23 cm). Use a ruler, not the printout — each grid square = 2 real inches.

10" × 9" (25 × 23 cm)
Closes the front end of the nose

MARK LEGEND FOR THIS PIECE:

CUT — scissors or box cutter on this line

NOTE: Closes the front end of the nose

FAIRING SIDE

x2

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 5.5" (61% of real size).
Cut your REAL piece at 12" × 9" (30 × 23 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Keep the bottom edge straight and the left (front) end its full 9". Mark the right (back) end 4" up from the bottom and draw a straight line from that mark to the top-left corner. Cut 1, flip it over and trace the second.
Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" × 9" (30 × 23 cm)
Fairing side — tall behind the head, sloping down to the back

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

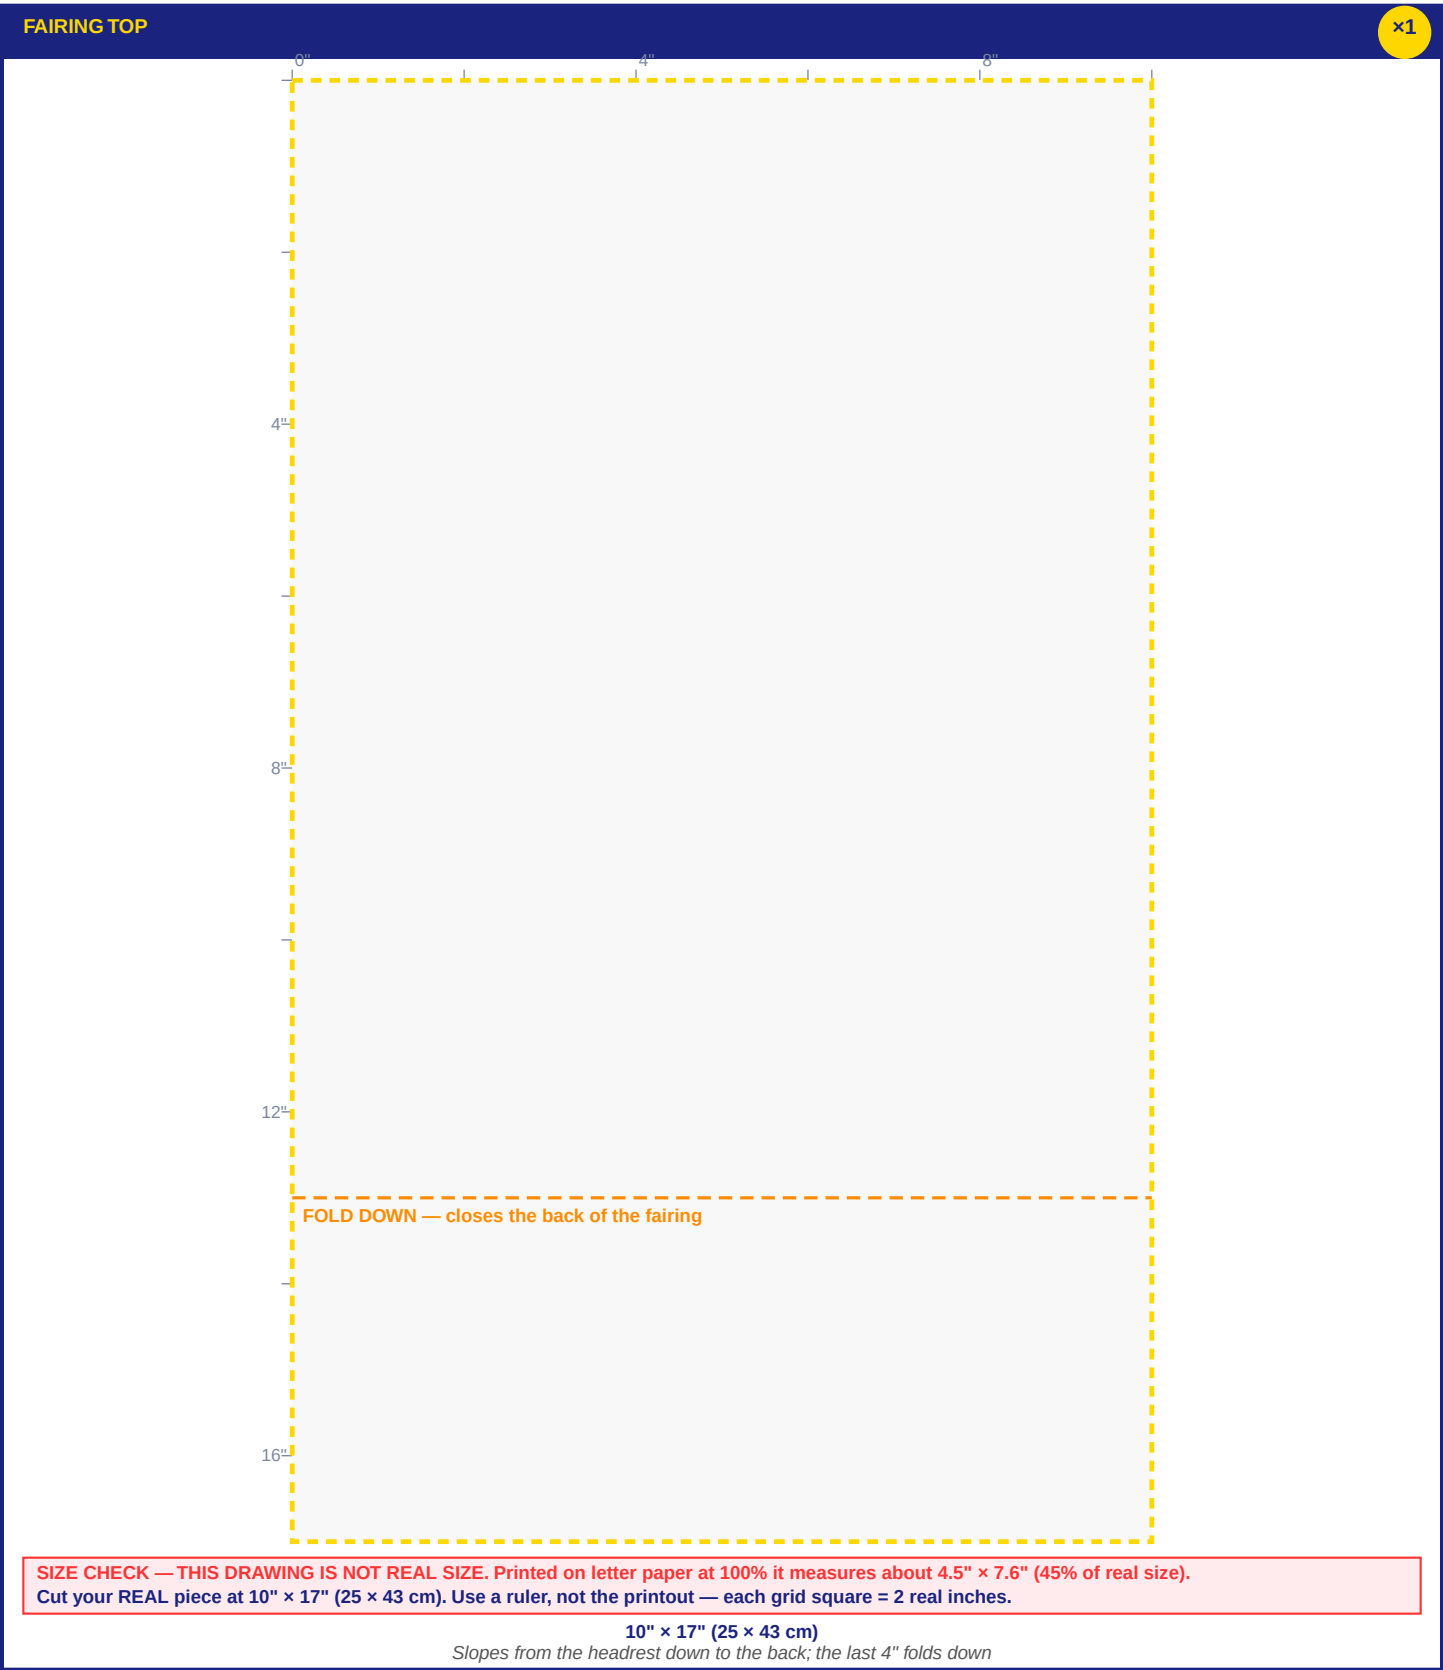

NOTE: Left and right sides of the fairing

FAIRING TOP

10" × 17" (25 × 43 cm) | Cut ×1

CUT
x1

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: Slopes from the headrest down to the back; the last 4" folds down

REAR WING ENDPLATE

8" × 25" (20 × 64 cm) | Cut ×2

CUT
x2

REAR WING ENDPLATE

x2

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 2.4" × 7.6" (30% of real size). Cut your REAL piece at 8" × 25" (20 × 64 cm). Use a ruler, not the printout — each grid square = 2 real inches.

8" × 25" (20 × 64 cm)

Tall plates: the bottom 9" tapes to the body side, the top holds the wing

MARK LEGEND FOR THIS PIECE:

GLUE HERE — where another part goes

NOTE: Tall plates: the bottom 9" tapes to the body side, the top holds the wing

REAR WING ELEMENT

26" × 8" (66 × 20 cm) | Cut ×1

CUT
x1

REAR WING ELEMENT

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 2.2" (28% of real size).
Cut your REAL piece at 26" × 8" (66 × 20 cm). Use a ruler, not the printout — each grid square = 2 real inches.

26" × 8" (66 × 20 cm)
The wing: a 1" tab at each end tapes inside an endplate

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: The wing: a 1" tab at each end tapes inside an endplate

TIRE INNER DISC

11" × 11" (28 × 28 cm) | Cut ×4

CUT
x4

TIRE INNER DISC

x4

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6.9" × 6.9" (63% of real size).
Cut your **REAL** piece at 11" × 11" (28 × 28 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
A circle 11" across. Pin a string 5.5" from the centre and swing a pencil right round. Cut 1, then trace it for the rest: 4 inner discs and 4 outer rings are all this size.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

11" × 11" (28 × 28 cm)

Circle

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: The side of each tire facing the car; its plain middle is the hub you see

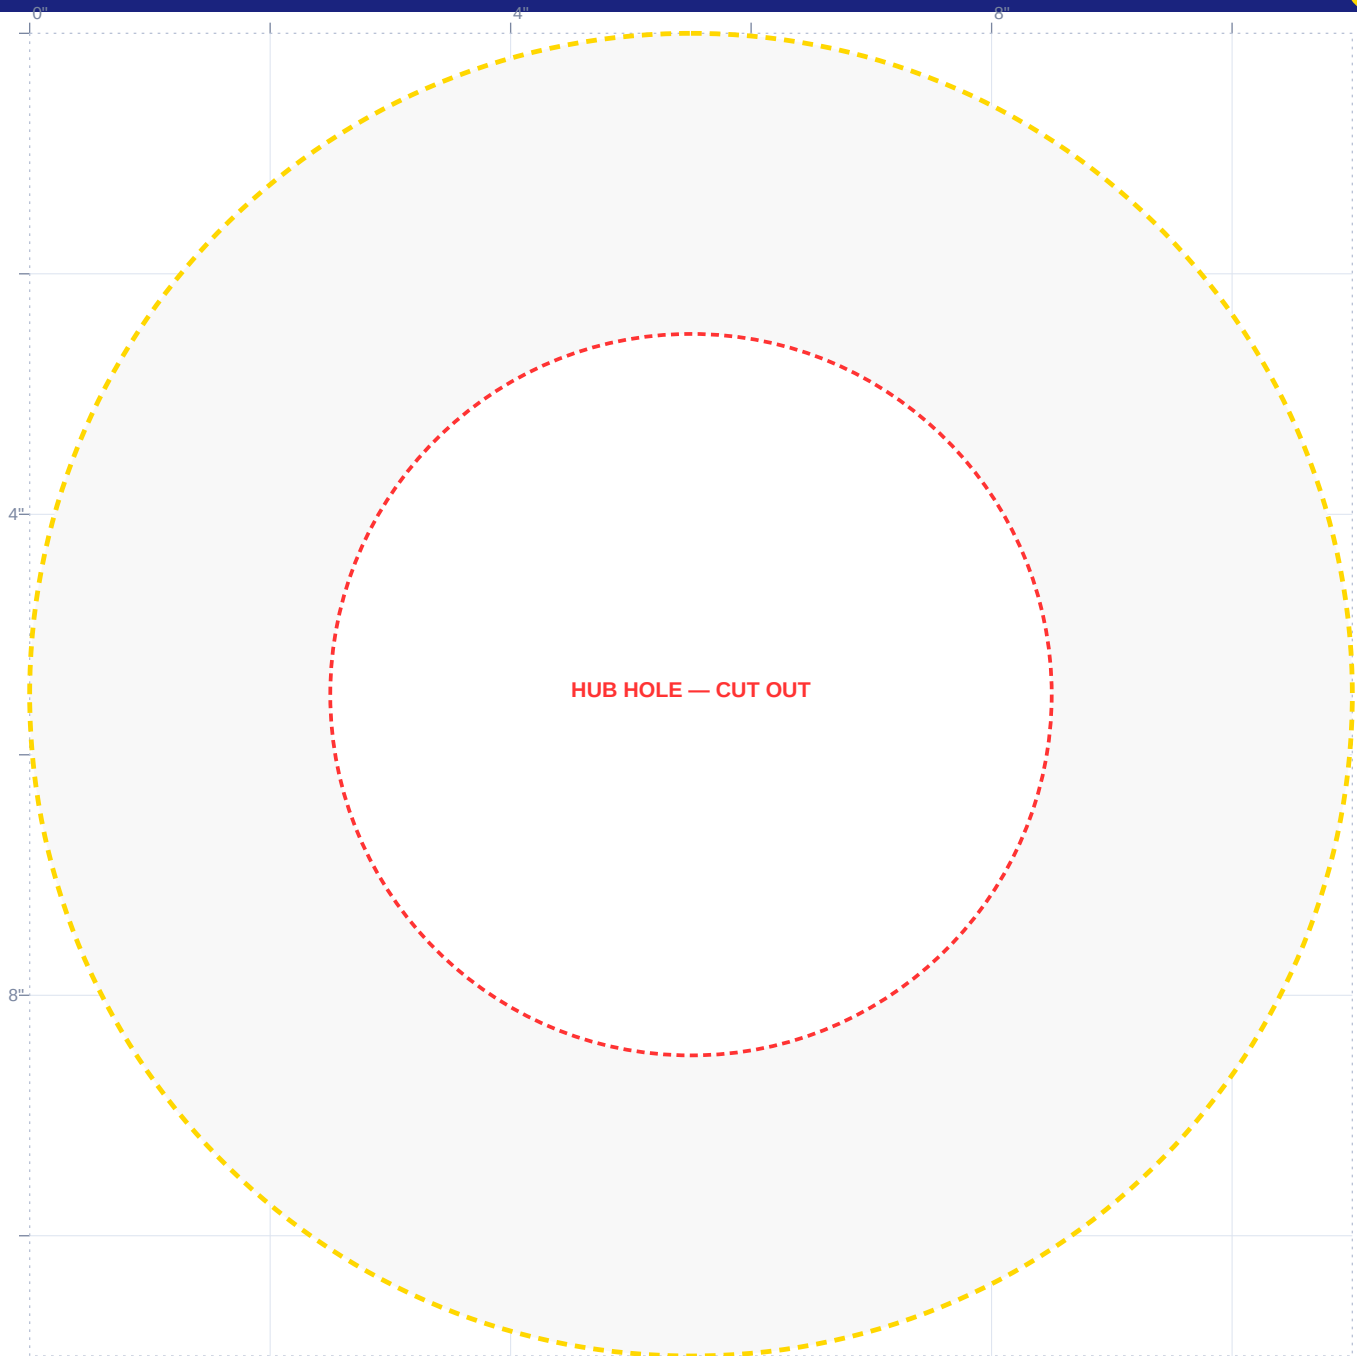

TIRE OUTER RING

11" × 11" (28 × 28 cm) | Cut ×4

CUT
x4

TIRE OUTER RING

x4

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6.9" × 6.9" (63% of real size).
Cut your **REAL** piece at 11" × 11" (28 × 28 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

A circle 11" across (string 5.5" from the centre). From the same centre draw a 6" circle (string 3") and cut it out — the hub hole you look into.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

11" × 11" (28 × 28 cm)

Circle with the hub hole cut out of the middle

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is **NOT** a rectangle.

CUT OUT — cut along the red dashes (an orange side is a fold)

NOTE: The outside face of each tire, with the hub hole

TIRE TREAD

36" × 5" (91 × 13 cm) | Cut ×4

CUT
x4

TIRE TREAD

x4

0"4"8"12"16"20"24"28"32"

4"

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 1" (20% of real size).
Cut your REAL piece at 36" × 5" (91 × 13 cm). Use a ruler, not the printout — each grid square = 2 real inches.

36" × 5" (91 × 13 cm)
Wraps the edges of 2 discs into a fat tire 5" wide. Ridges run ACROSS the strip

MARK LEGEND FOR THIS PIECE:

CUT — scissors or box cutter on this line

NOTE: Wraps the edges of 2 discs into a fat tire 5" wide. Ridges run ACROSS the strip

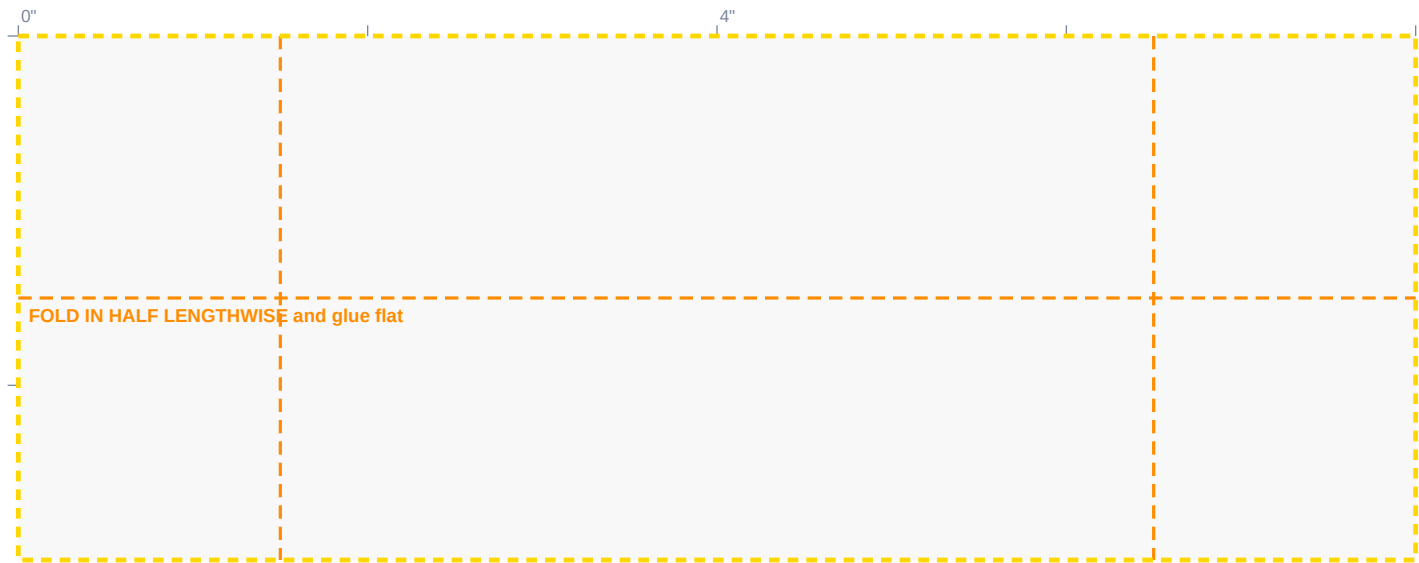

SUSPENSION ARM

8" × 3" (20 × 8 cm) | Cut ×8

CUT
x8

SUSPENSION ARM

x8

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 2.7" (91% of real size).
Cut your REAL piece at 8" × 3" (20 × 8 cm). Use a ruler, not the printout — each grid square = 2 real inches.

8" × 3" (20 × 8 cm)
2 per tire, in a V: they hold the tire 4" out from the body

MARK LEGEND FOR THIS PIECE:

FOLD — score lightly, then fold at this line

NOTE: 2 per tire, in a V: they hold the tire 4" out from the body

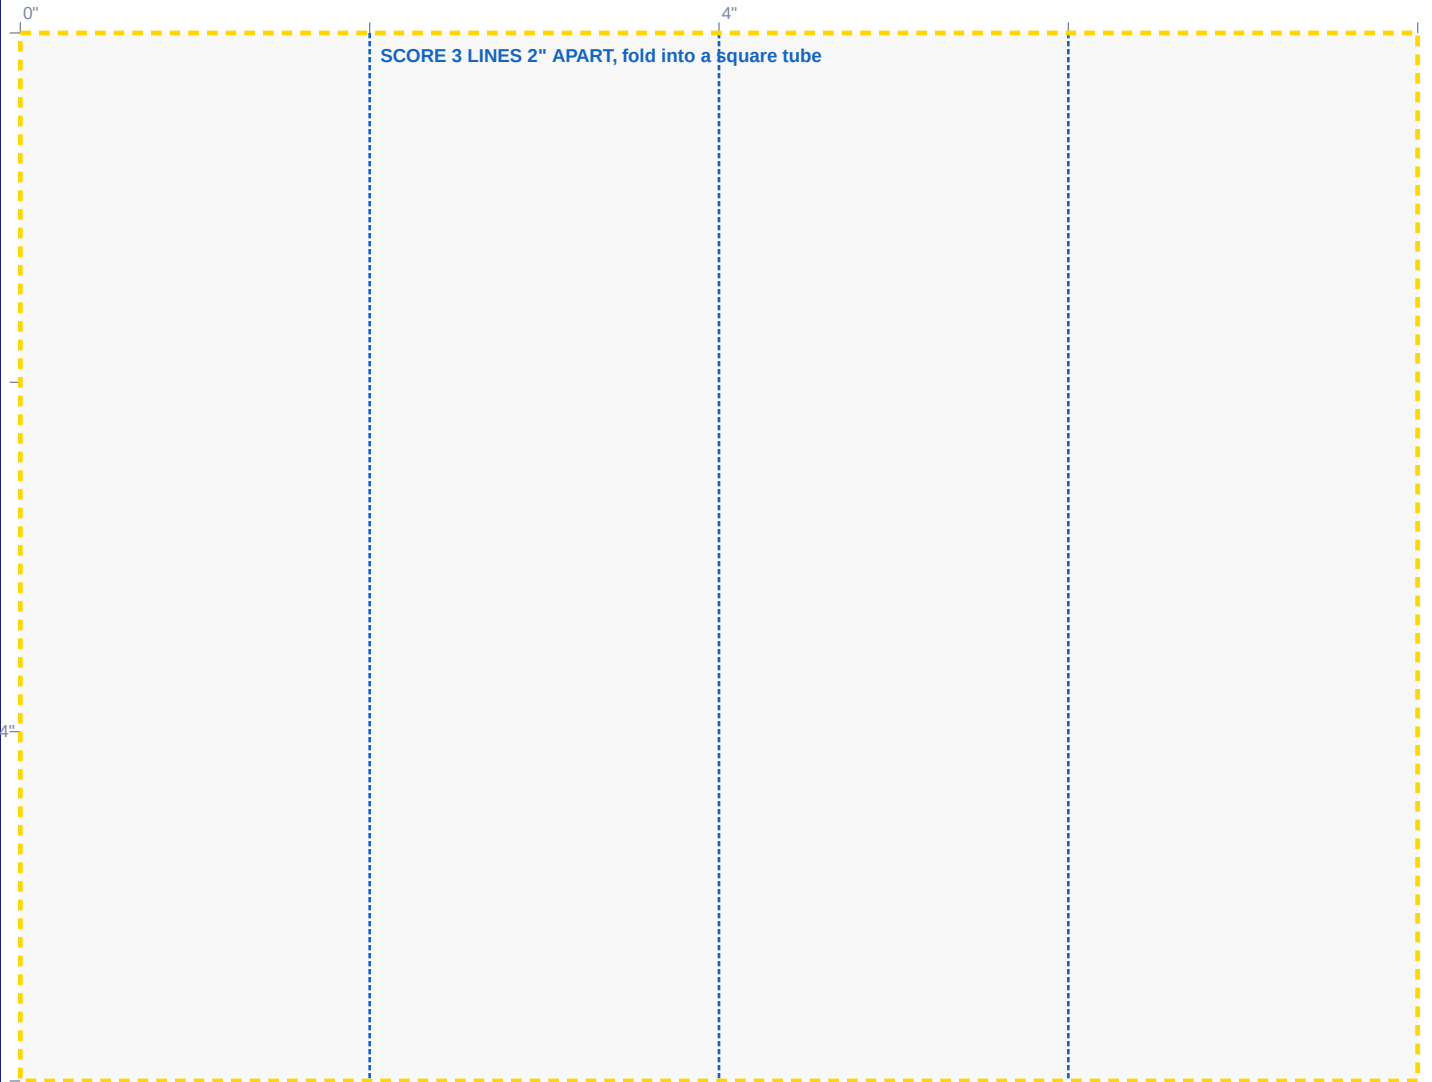

STEERING COLUMN

8" × 6" (20 × 15 cm) | Cut ×1

CUT
x1

STEERING COLUMN

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 5.5" (91% of real size).
Cut your REAL piece at 8" × 6" (20 × 15 cm). Use a ruler, not the printout — each grid square = 2 real inches.

8" × 6" (20 × 15 cm)

Folds into a square tube 2" across that holds the wheel off the dash

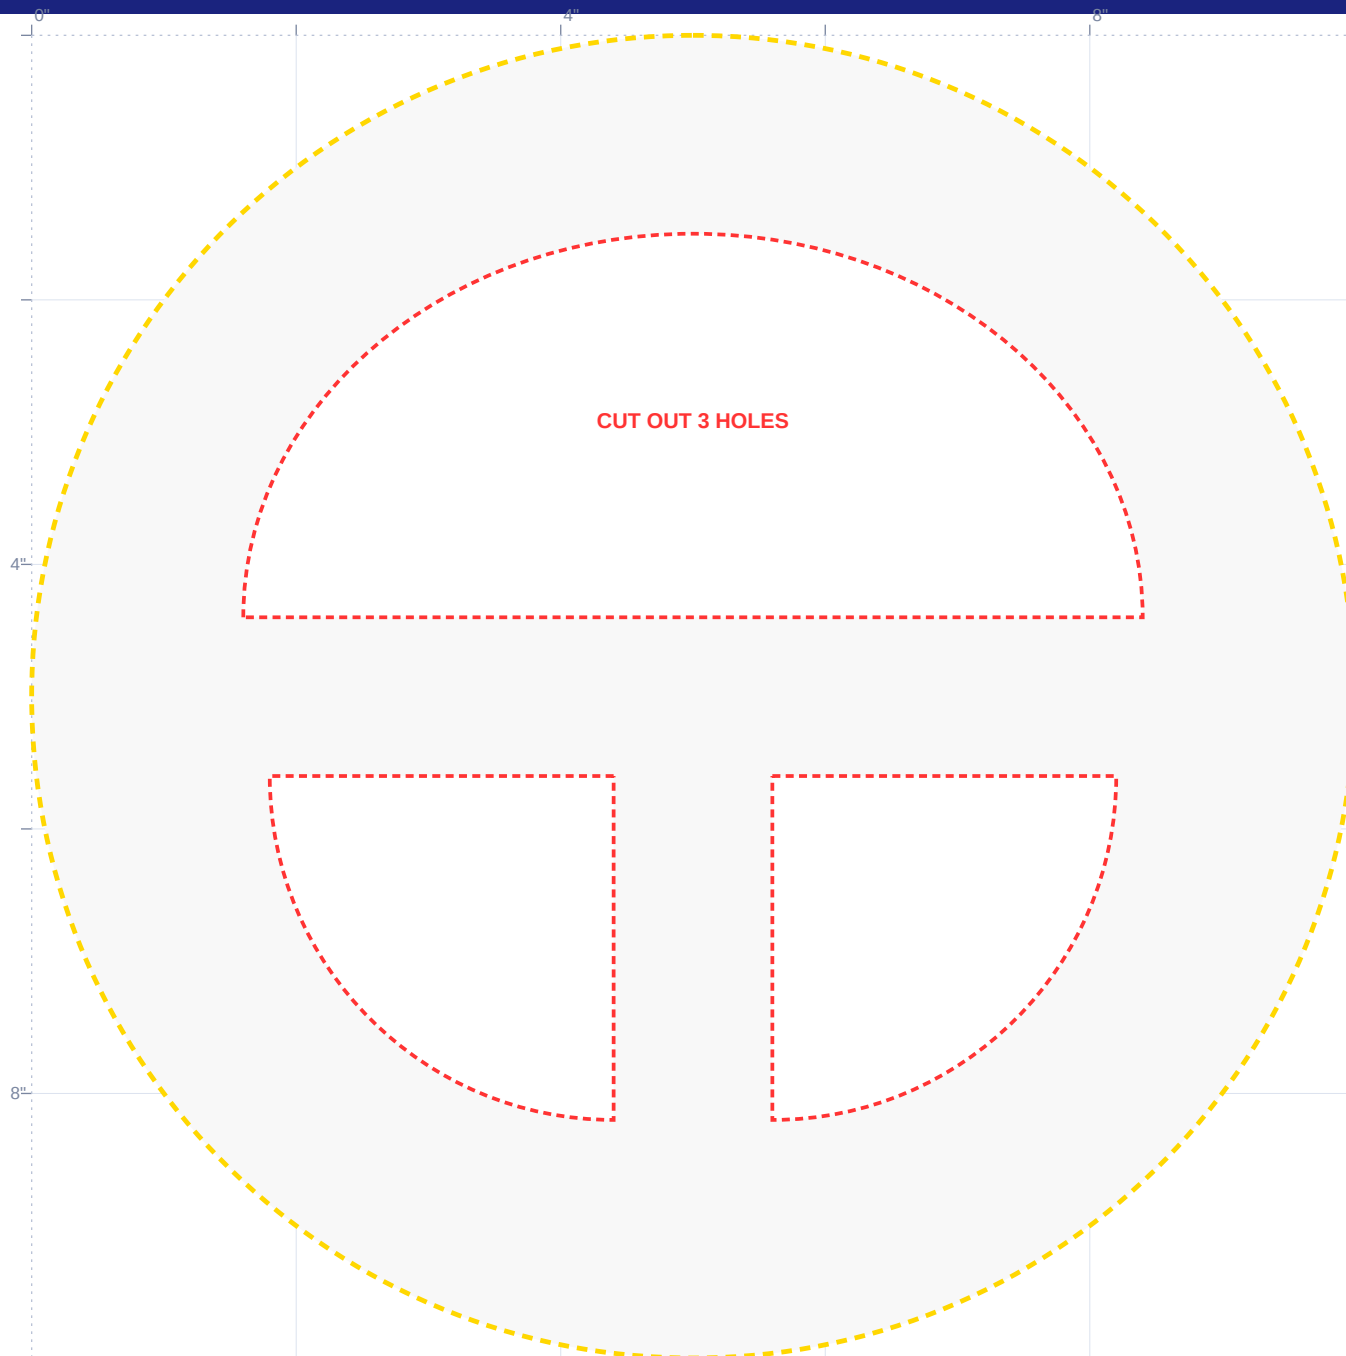

MARK LEGEND FOR THIS PIECE:

SCORE — press hard with ruler but do NOT cut through

NOTE: Folds into a square tube 2" across that holds the wheel off the dash

STEERING WHEEL LAYER

x2

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6.9" × 6.9" (69% of real size).
Cut your REAL piece at 10" × 10" (25 × 25 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

A circle 10" across (string 5" from the centre). Inside it cut the 3 red holes: a half-moon on top and two quarters below. That leaves a 1.5" rim, a hub and 3 spokes 1.2" wide. Cut 2 the same: 2 layers make 1 wheel.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 10" (25 × 25 cm)

Circle with 3 holes: rim, hub and 3 spokes

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

CUT OUT — cut along the red dashes (an orange side is a fold)

NOTE: Cut 2 the same and glue them together: 2 layers make 1 wheel

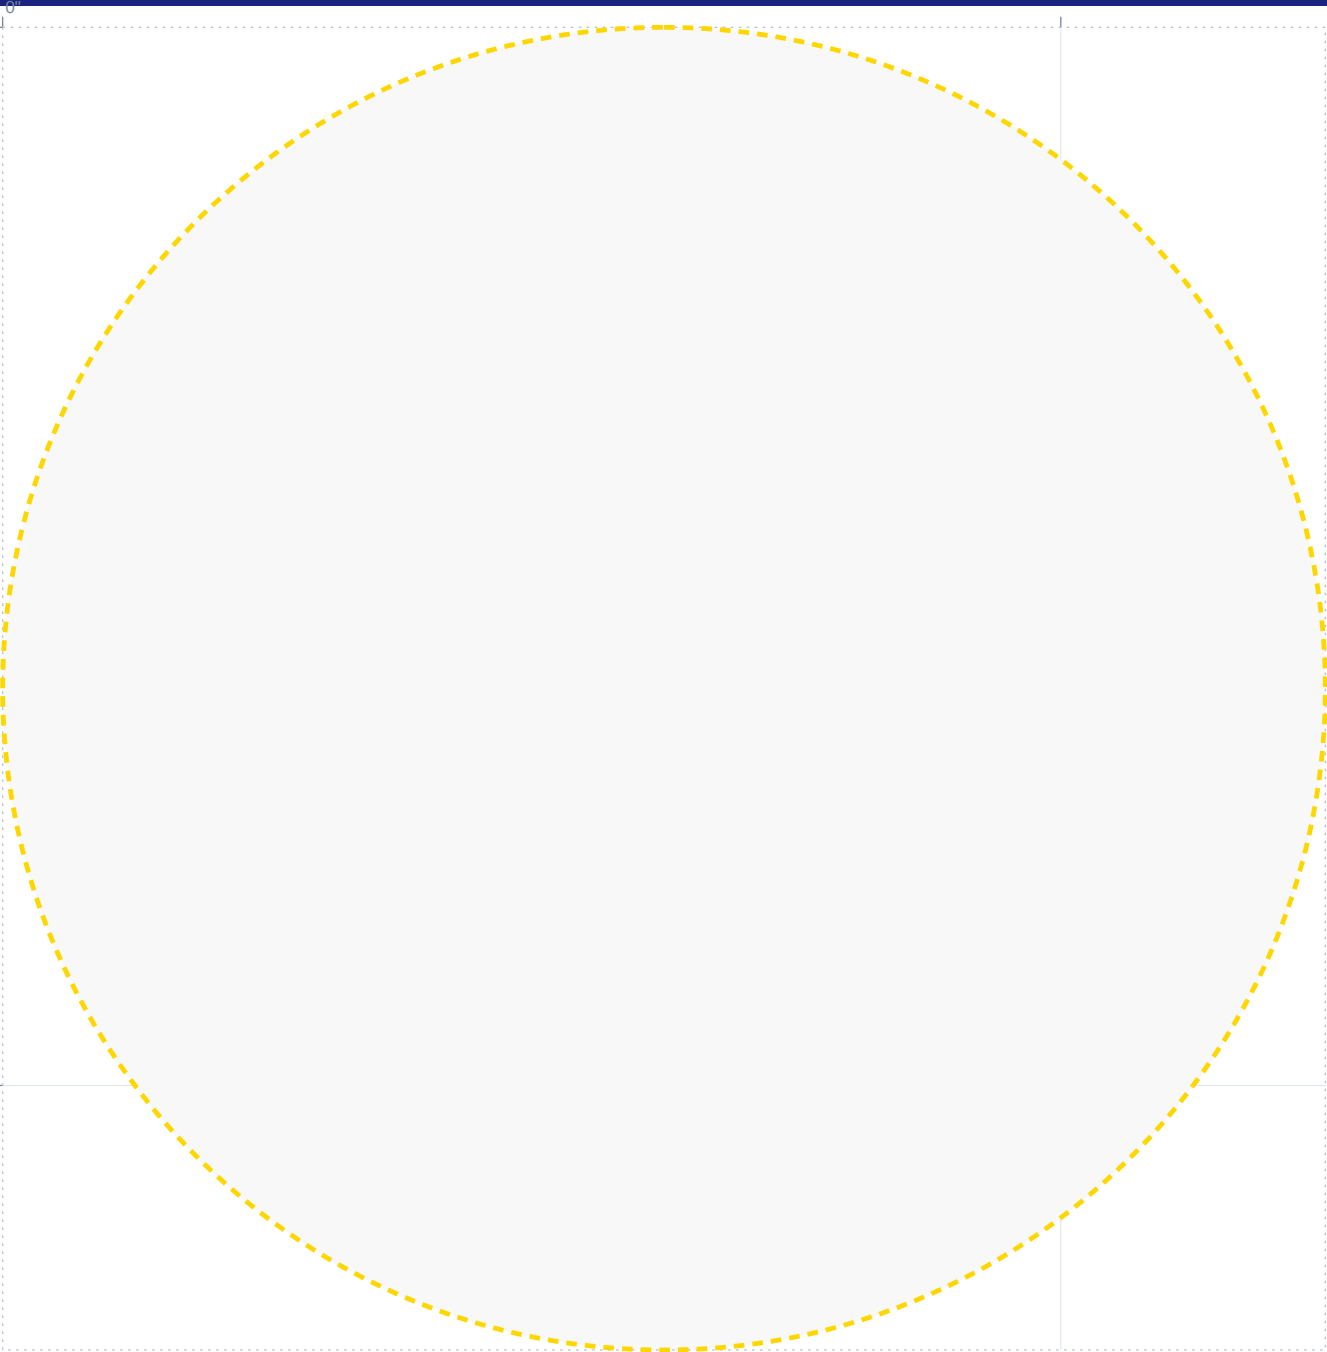

STEERING HUB

2.5" × 2.5" (6 × 6 cm) | Cut ×1

CUT
x1

STEERING HUB

x1

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6.9" × 6.9" (276% of real size — BIGGER than the REAL piece at 2.5" × 2.5" (6 × 6 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
A circle 2.5" across. Trace a jar lid or a roll of tape.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

2.5" × 2.5" (6 × 6 cm)
Circle

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

NOTE: Glues on the middle of the wheel, where the 3 spokes meet

WHAT YOU NEED — CARDBOARD RACE CAR COCKPIT

CARDBOARD PIECES — 17 TOTAL (3 Large Boxes (sides at least 24" × 36" (61 × 91 cm); one is the body))

×1 Car Body (full box) 36" × 24" <i>A 36" × 24" × 16" box used whole. Drawn: its TOP, back of the car on the left</i>	×1 Rear Wing Element 26" × 8" <i>The wing: a 1" tab at each end tapes inside an endplate</i>
×1 Nose Top 24" × 25" <i>The long sloping top of the nose: the stripes go on it</i>	×4 Tire Inner Disc 11" × 11" <i>The side of each tire facing the car; its plain middle is the hub you see</i>
×2 Nose Side 25" × 16" <i>Left and right sides of the nose: 16" at the body, 9" at the tip</i>	×4 Tire Outer Ring 11" × 11" <i>The outside face of each tire, with the hub hole</i>
×1 Nose Tip 10" × 9" <i>Closes the front end of the nose</i>	×4 Tire Tread 36" × 5" <i>Wraps the edges of 2 discs into a fat tire 5" wide. Ridges run ACROSS the strip</i>
×1 Dash Panel 23" × 7" <i>Stands across the inside of the body at the front of the cockpit; holds the steering wheel</i>	×8 Suspension Arm 8" × 3" <i>2 per tire, in a V: they hold the tire 4" out from the body</i>
×1 Fairing Front 10" × 9" <i>The headrest face right behind the driver's head</i>	×1 Steering Column 8" × 6" <i>Folds into a square tube 2" across that holds the wheel off the dash</i>
×2 Fairing Side 12" × 9" <i>Left and right sides of the fairing</i>	×2 Steering Wheel Layer 10" × 10" <i>Cut 2 the same and glue them together: 2 layers make 1 wheel</i>
×1 Fairing Top 10" × 17" <i>Slopes from the headrest down to the back; the last 4" folds down</i>	×1 Steering Hub 2.5" × 2.5" <i>Glues on the middle of the wheel, where the 3 spokes meet</i>
×2 Rear Wing Endplate 8" × 25" <i>Tall plates: the bottom 9" tapes to the body side, the top holds the wing</i>	

TOOLS & SUPPLIES

- + 3 large boxes, sides at least 24" × 36"
- + One of them about 36" × 24" × 16" (body)
- + Box cutter — ADULT USE ONLY
- + Packing tape + white glue
- + Orange + black paint
- + Ruler, pencil + string for circles
- + Black marker

FUN FACT!

A real F1 car reaches 60 mph in about 2.6 seconds. Yours goes 0 to imagination instantly. Same energy.

CHALLENGE!

Race day: two kids, two cardboard cars. Decorate differently. Who has the fastest-looking car? Race on 3... 2... 1... GO!

1 STEP 1: MARK OUT THE PIECES

Keep box A whole — it is the body of the car. Flatten the other two boxes and mark out pieces B to Q from their template pages, using the 2" (5 cm) grid and the sizes on each page. Draw every circle with a pencil on a string pinned at its centre. Lay out the 4 strips for M so the cardboard ridges run ACROSS each strip, the short way — then they bend smoothly.

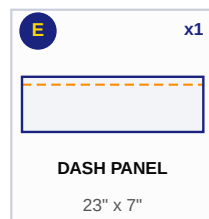

2 STEP 2: CUT OUT THE PIECES

! ADULT ASSIST NEEDED

Cut out every piece on its gold outline: B, 2 of C, D, E, F, 2 of G, H, 2 of I, J, 4 of K, 4 of L, 4 of M, 8 of N, O, 2 of P and Q. Also cut the holes drawn in red dashes on L and P.

SAFETY: Adult uses the box cutter, on a board. Cut circles in short strokes.

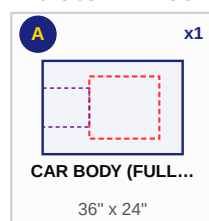

PIECES USED IN THIS STEP

3 STEP 3: SET UP THE CAR BODY

Use a long box about 36" x 24" (91 x 61 cm) x 16" (41 cm). Tape all its flaps shut and lay it flat so it is 36" (91 cm) long, 24" (61 cm) wide and 16" (41 cm) tall — low and wide, like the photo. The left end of template A is the BACK of the car.

PIECES USED IN THIS STEP

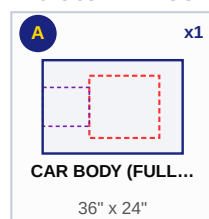

4 STEP 4: CUT THE COCKPIT

! ADULT ASSIST NEEDED

In the top of the Car Body cut the cockpit opening shown on template A: 18" (46 cm) long and 16" (41 cm) wide, starting 12" (30 cm) from the back end, centred side to side. Round its corners. Then in the FRONT end of the box cut a leg opening 18" (46 cm) wide and 12" (30 cm) tall, up from the bottom edge and centred — the legs stretch into the nose. Test-fit: the child sits on the floor of the box with only shoulders and head above the top.

SAFETY: Adult cuts. Tape over every cut edge — no rough edges at the cockpit.

PIECES USED IN THIS STEP

5

STEP 5: FIT THE DASH PANEL

Fold the 1" (3 cm) tab along the top of the Dash Panel. Reach in through the cockpit and stand it across the inside of the box at the FRONT edge of the cockpit, tab facing forward. Tape the tab under the top of the box and both ends to the side walls. Its bottom edge is 10" (25 cm) off the floor, so the legs go under it; it stiffens the body and holds the steering wheel.

PIECES USED IN THIS STEP

6

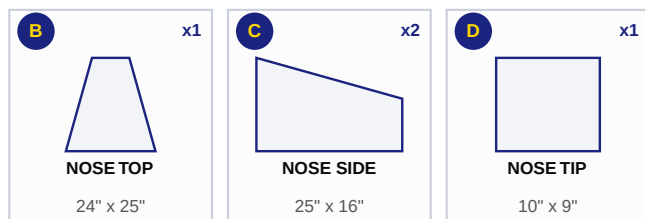

STEP 6: BUILD THE NOSE

! ADULT ASSIST NEEDED

Stand the two Nose Sides on their straight bottom edges with their tall ends against the front of the body, one in line with each side wall, and lean the short ends in until they are 10" (25 cm) apart. Tape the Nose Tip across the short ends. Lay the Nose Top over them, wide end at the body, and tape every join inside and out. The nose is 24" (61 cm) long and slopes from 16" (41 cm) at the body down to 9" (23 cm) at the tip.

SAFETY: Two people: one holds the sides, one tapes.

PIECES USED IN THIS STEP

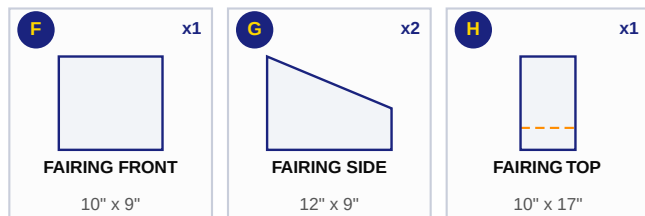

7

STEP 7: BUILD THE FAIRING

Tape the Fairing Front between the tall ends of the two Fairing Sides, then tape the Fairing Top over them, folding its last 4" (10 cm) down to close the back. Stand it on the body behind the cockpit (FAIRING box on template A), tall end right at the cockpit edge, and tape it down all round. It rises 9" (23 cm) above the body right behind the driver's head and slopes down to the back, like the photo.

PIECES USED IN THIS STEP

8

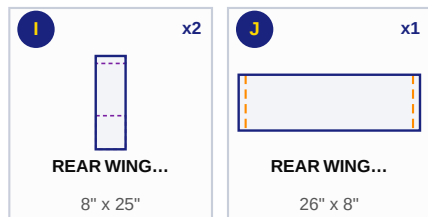

STEP 8: BUILD THE REAR WING

! ADULT ASSIST NEEDED

Tape the bottom 9" (23 cm) of each Rear Wing Endplate flat against one side of the body at the very back, its bottom edge 7" (18 cm) above the floor, so it stands 16" (41 cm) above the top of the body. Fold the 1" (3 cm) tab at each end of the Rear Wing Element and tape the tabs inside the tops of the endplates, so the wing spans the car with its top 32" (81 cm) off the floor, like the photo.

SAFETY: Two people: one holds the endplates upright, one tapes.

PIECES USED IN THIS STEP

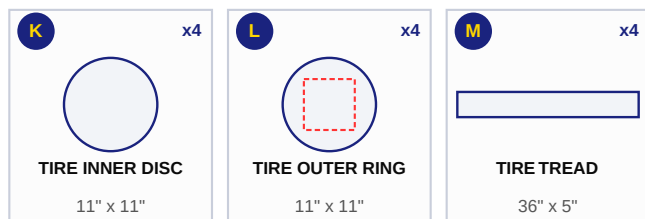

9

STEP 9: BUILD THE TIRES

Stand a Tire Inner Disc on its edge. Bend a Tire Tread along its edge (ridges across the strip) and tape it on with short pieces of tape every 2" (5 cm); overlap the ends and tape them. Tape a Tire Outer Ring into the other edge of the tread the same way. You now have a drum 11" (28 cm) across and 5" (13 cm) wide with a hub hole in its outer face. Make 4.

PIECES USED IN THIS STEP

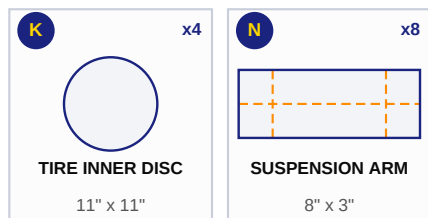

10

STEP 10: MOUNT THE TIRES

On each side of the body mark two axle points: 9" (23 cm) in from the front end and 9" (23 cm) in from the back end, both 5.5" (14 cm) up from the bottom edge. Fold each Suspension Arm in half lengthwise, glue it flat and fold up its 1.5" (4 cm) end tabs. For each axle point, glue one tab of 2 Suspension Arms to the body, one 3" (8 cm) in front of the mark and one 3" (8 cm) behind it, and glue their other tabs together on the middle of a tire's inner disc. The two arms make a V and hold the tire 4" (10 cm) out from the body with its edge on the floor.

PIECES USED IN THIS STEP

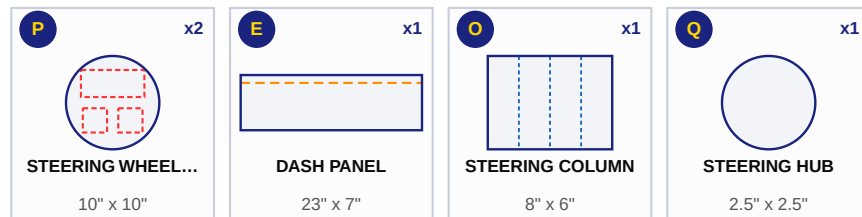

11

STEP 11: ADD THE STEERING WHEEL

Glue the 2 Steering Wheel Layers together with the holes lined up, and glue the Steering Hub on the middle of the front. Score the Steering Column on its 3 lines, fold it into a square tube 2" (5 cm) across and tape the seam. Snip 1" (3 cm) into each corner at one end, fold the flaps out and glue them on the middle of the Dash Panel, facing the driver. Glue the back of the wheel to the other end. The wheel sits at hand height, just above the top of the body.

SAFETY: The wheel must not stop the child climbing out.

PIECES USED IN THIS STEP

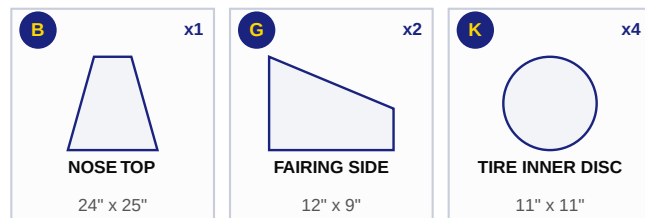

12

STEP 12: PAINT THE LIVERY

Leave the body, nose, fairing and wing plain cardboard, like the photo. Nose: paint an orange stripe 5" (13 cm) wide down the middle of the Nose Top with a black stripe 1.5" (4 cm) wide each side of it, and carry all three over the top of the body to the cockpit. Beside the cockpit: an orange stripe 2" (5 cm) wide edged with ½" black lines, on each side, from the cockpit back to the fairing. Sides: a big orange 7, 10" (25 cm) tall, on the back half of each side. Wing: paint the front 3" (8 cm) of its top orange. Tires: paint the treads and both faces black, but leave a 6" (15 cm) circle in the middle of each inner disc plain — it shows through the hole as the hub.

SAFETY: Water-based paint only, in a ventilated space.

PIECES USED IN THIS STEP

13

STEP 13: QUALITY CHECK

The child sits low in the cockpit, legs under the dash, hands on the 3-spoke wheel. Long striped nose out front, fairing behind the head, rear wing high on its two endplates, 4 fat black tires each standing 4" (10 cm) off the body on its V of arms, orange 7 on both sides. Compare to the cover photo. That's the standard.
