CARDBOARD NEEDED:

2 Large Boxes (sides at least 24" × 36" (61 × 91 cm))

FINISHED SIZE:

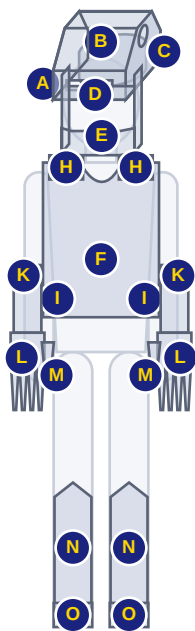

Helmet 12" × 7.5" × 6" (30 × 19 × 15 cm) · chest plate 16" (41 cm) · tail 26" (66 cm)

MISSION GOAL:

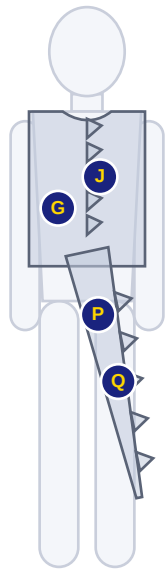

Build the suit in the cover photo: an open-face faceted skull helmet with a chin guard, a chest plate with belly bands, a spiked back, claw hands on cuffs, shin guards with foot covers, and a spiked tail.

HOW IT ALL GOES TOGETHER — CARDBOARD BEAST SUIT

Every part you cut, shown on the child at its real size, with the letter from its own cut-template page. The grey figure is only there for scale — measure your own child, never this drawing. Pieces that wrap around the head, an arm or a leg are shown as they look once wrapped, not laid flat.

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 3.6" (61% of real size).
Cut your REAL piece at 12" × 6" (30 × 15 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Draw a 12" × 6" box; the left end is the BACK. Mark the top edge 3" and 8" from the back, and both ends 3" up. Join back mark to 3" mark, and 8" mark to front mark, with straight lines. Cut 1, flip it to trace the other.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" × 6" (30 × 15 cm)

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 7.3" × 4.5" (56% of real size).
Cut your **REAL** piece at 13" × 8" (33 × 20 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

A U shape. In a 13" × 8" box, keep a 2.5" bar along the bottom and a 2.5" arm up each end; cut away the 8" × 5.5" block between the arms.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

13" × 8" (33 × 20 cm)

SIZE CHECK — THIS DRAWING IS NOT REAL SIZE. Printed on letter paper at 100% it measures about 6" × 6.9" (43% of real size).
Cut your **REAL** piece at 14" × 16" (36 × 41 cm). Use a ruler, not the printout — each grid square = 2 real inches.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark 4.5" in from each TOP corner. Scoop a curve 2.3" deep between the marks — that is the neck. Leave the sides straight: the two side strips fold back toward the ribs.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

14" × 16" (36 × 41 cm)

Chest plate — neck scooped out of the top, straight sides for the rib folds

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

¡DATO CURIOSO!

Los dinosaurios de verdad también llevaban armadura: el anquilosaurio tenía placas de hueso en la piel y una gran maza en la punta de la cola.

¡DESAFÍO!

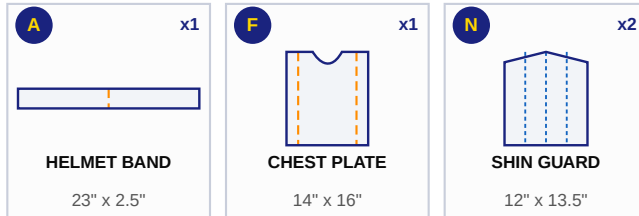

Reto de la bestia: decide cómo se mueve tu criatura, qué come y qué ruido hace cuando está contenta. Luego acecha por el pasillo metido en el papel.

1

PASO 1: MIDE AL NIÑO

Mide tres cosas. La cabeza, justo por encima de las cejas: la banda del casco se corta larga y se recorta a esta medida. De la clavícula a la cadera: la placa del pecho mide 16" (41 cm); recorta su borde de abajo si el niño es más bajo. De la rodilla al tobillo: las espinilleras miden 13.5" (34 cm); recorta la parte de abajo para que acaben 1" (3 cm) por encima del hueso del tobillo.

PIEZAS DE ESTE PASO

2

PASO 2: MARCA LAS PIEZAS

Aplana las dos cajas. Marca todas las plantillas con regla y lápiz: A, B, 2 de C (la segunda dada la vuelta), D, E, F, G, 2 de H, 2 de I, 5 de J, 2 de K, 2 de L, 2 de M, 2 de N, 2 de O, P y 5 de Q. Coloca primero P, que es la más grande.

3

PASO 3: RECORTA TODAS LAS PIEZAS

! AYUDA DE UN ADULTO

Recorta cada pieza por su contorno dorado. Corta los 2 orificios de la nariz en B y la cuenca del ojo en las dos piezas C. En L y M deja todas las puntas de las garras romas: nunca cortes una punta afilada.

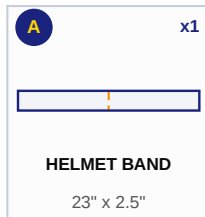

SEGURIDAD: Un adulto usa el cúter y corta todas las aberturas.

4

PASO 4: HAZ LA BANDA DEL CASCO

Rodea la cabeza del niño con la banda del casco justo encima de las cejas y las orejas, solapa los extremos 1" (3 cm), recorta lo que sobre de los dos extremos por igual y pega la costura detrás. Ajustada, pero debe salir con facilidad.

PIEZAS DE ESTE PASO

5

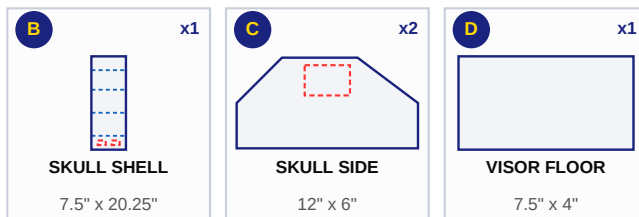

PASO 5: DOBLA EL CRÁNEO

! AYUDA DE UN ADULTO

Marca las 4 líneas de pliegue de la cáscara del cráneo y dóblala en sus 5 caras: atrás, pendiente de atrás, coronilla, pendiente de delante y frente. Pega un lateral del cráneo a cada borde largo de la cáscara, por dentro y por fuera, haciendo coincidir las esquinas: las cuencas de los ojos quedan arriba, hacia delante. Pega el suelo de la visera abajo, en las 4" (10 cm) de delante, entre los dos laterales. Ya tienes un cráneo hueco de caras planas, abierto por debajo detrás de la visera.

SEGURIDAD: Dos personas: una sujeta las caras y otra pega.

PIEZAS DE ESTE PASO

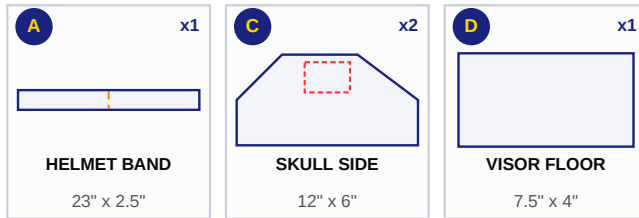

6

PASO 6: MONTA EL CRÁNEO EN LA BANDA

! AYUDA DE UN ADULTO

Mete la banda del casco dentro del cráneo, con su parte delantera contra el borde de atrás del suelo de la visera y su borde de abajo a ras del borde de abajo del cráneo. Pega la banda al suelo de la visera, a la cara de atrás de la cáscara y a cada lateral del cráneo. Pruébalo: la visera sobresale por encima de las cejas como la visera de una gorra y toda la cara queda al aire, como en la foto.

PIEZAS DE ESTE PASO

7

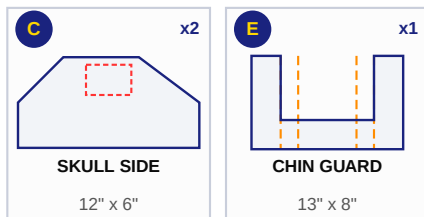

PASO 7: PON EL PROTECTOR DE BARBILLA

! AYUDA DE UN ADULTO

Dobra el protector de barbilla por sus 4 pliegues en una U: dos brazos verticales, dos esquinas cortas y una barra delantera de 5" (13 cm). Mete las 1.5" (4 cm) de arriba de cada brazo por dentro de un lateral del cráneo, justo delante de la oreja, y pégalas. La barra pasa por delante de la barbilla con unas 2" (5 cm) de espacio, como un casco de moto.

SEGURIDAD: Ninguna tira bajo la barbilla. Nunca debe tocar la garganta.

PIEZAS DE ESTE PASO

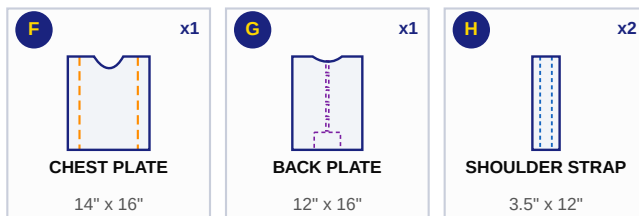

8

PASO 8: ARMA EL PECHO Y LA ESPALDA

Dobra hacia atrás las dos franjas laterales de la placa del pecho, hacia las costillas. Dobra cada tira del hombro por sus 2 líneas en forma de canal. Pega un extremo de cada canal por dentro de la parte de arriba de la placa del pecho y el otro por dentro de la parte de arriba de la placa de la espalda, a medio camino entre el cuello y la punta del hombro. Las placas se ponen por la cabeza, como un cartel de hombre anuncio.

PIEZAS DE ESTE PASO

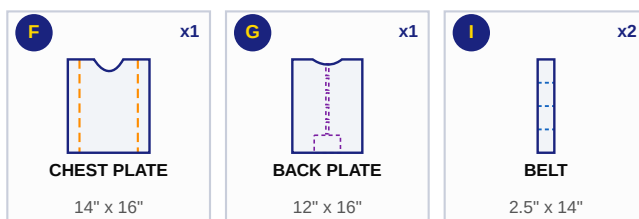

9

PASO 9: PON LOS CINTURONES

A la altura de la cintura, pega un extremo de cada cinturón a un borde lateral de la placa del pecho. Dóblalo alrededor del costado del niño. Pega el cinturón derecho a la placa de la espalda; cierra el izquierdo sobre la placa de la espalda con un punto de velcro para que el traje se pueda quitar.

PIEZAS DE ESTE PASO

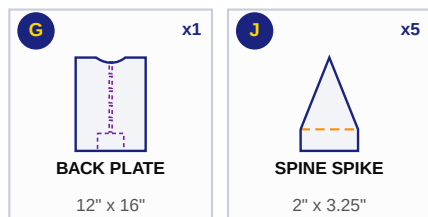

10

PASO 10: PON DE PIE LOS PINCHOS DE LA ESPALDA

Dobla de lado la pestaña de cada pincho de la espalda. Pega los 5 pinchos de pie por el centro de la placa de la espalda, en las marcas SPIKE: el primero a 0.75" (2 cm) del borde de arriba y cada uno 2.5" (6 cm) por debajo del anterior. Pega los dos lados de cada pestaña.

PIEZAS DE ESTE PASO

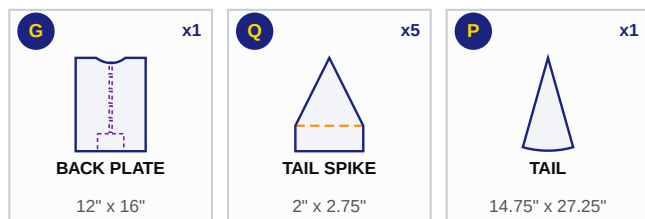

11

PASO 11: HAZ LA COLA

Enrolla la cola en un cono largo, solapando los bordes rectos 0.75" (2 cm), y pega la costura. Corta el último 1" (3 cm) de la punta y tápala con cinta para que quede roma. Dobla la pestaña de cada pincho de la cola y pega los 5 pinchos en fila por encima del cono, a 3" (8 cm) uno de otro. Aplasta el extremo ancho a lo largo de 3" (8 cm) y pega esa parte plana sobre el recuadro TAIL de abajo de la placa de la espalda. La cola cuelga hacia abajo y atrás, con la punta a unas pulgadas del suelo.

SEGURIDAD: La cola puede hacer tropezar: mantenla lejos de las escaleras.

PIEZAS DE ESTE PASO

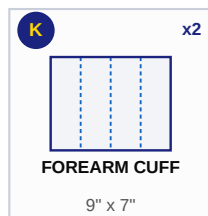

12

PASO 12: HAZ LOS BRAZALETES

Marca las 3 líneas de cada brazalete para que se doble, rodea el antebrazo de la muñeca hacia el codo y ciérralo por la parte de dentro del brazo con un punto de velcro.

PIEZAS DE ESTE PASO

13

PASO 13: PON LAS MANOS CON GARRAS

Pega el extremo de la placa de cada mano con garras por dentro del lado de la muñeca de un brazalete, para que quede sobre el dorso de la mano y las 4 garras sigan los dedos. Dobla con cuidado cada garra sobre el borde de una mesa para que se curve hacia abajo y marca un pliegue por su centro. Pega una garra del pulgar junto a cada pulgar. Pega un lazo de cinta por la palma para que la placa no se mueva de la mano.

SEGURIDAD: Las puntas de las garras siempre romas: recorta cualquier punta.

PASO 14: HAZ LAS ESPINILLERAS

Marca las 3 líneas de cada espinillera, rodea la pierna de la rodilla al tobillo con la punta sobre la rótula y ciérrala detrás de la pantorrilla con puntos de velcro. Dobra cada cubrepie por su línea central y pega su borde de arriba a la parte baja delantera de una espinillera, para que descansa sobre el empeine.

SEGURIDAD: Nada pasa por debajo del pie: ninguna tira bajo la suela.

PASO 15: DIBUJA LAS ESCAMAS

El traje queda en cartón natural con rotulador negro, como en la foto. Placa del pecho: 6 bandas curvas de vientre por el centro, a unas 2.25" (6 cm) una de otra, desde justo debajo del cuello hasta abajo. En todo lo demás dibuja escamas de media pulgada — filas de pequeñas U de 0.5" (1 cm) de ancho — en las franjas laterales del pecho, alrededor de las cuencas de los ojos, en la visera, a lo largo del protector de barbilla, en las placas de las garras, los brazaletes, las espinilleras y los cubrepies. Traza una línea por todos los bordes, líneas de costillas en los brazaletes cada 1" (3 cm) y anillos alrededor de la cola cada 3" (8 cm).

PASO 16: CONTROL DE CALIDAD

El niño se pone el traje completo, camina por el pasillo, gira la cabeza a los dos lados, levanta los brazos, se sienta, se levanta y sube tres escalones. Cara totalmente libre bajo la visera, protector de barbilla lejos de la garganta, pinchos de pie, la cola balanceándose sin tocar el suelo, garras romas. Compáralo con la foto de portada: ese es el estándar.

SEGURIDAD: El cartón arde: lejos de velas y calabazas encendidas.
