CARDBOARD KNIGHT ARMOR SET

Wearable 8-Piece Suit — Helmet, Chest, Arms, Legs & Shield

A full wearable suit of armor. Cut it, tape it, wear it, rule the realm.

AGES 4–12	BOXES 2 Medium Boxes	TIME 1.5–2 Hours	DIFF Beginner *	PIECES 8 pcs
--------------	-------------------------	---------------------	--------------------	-----------------

CARDBOARD NEEDED:
2 Medium Boxes (at least 18" × 24" (46 × 61 cm) each)

MISSION GOAL:
Build and wear a complete 8-piece knight armor set: helmet, chest, back, 2 shoulders, 2 arm guards, 2 shin guards, and a kite shield.

HOW IT ALL GOES TOGETHER — CARDBOARD KNIGHT ARMOR SET

Every part you cut, shown on the child at its real size, with the letter from its own cut-template page. The grey figure is only there for scale — measure your own child, never this drawing. Pieces that wrap around the head, an arm or a leg are shown as they look once wrapped, not laid flat.

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark both side edges 5.8" up from the bottom. Curve smoothly from each mark to the centre of the top edge.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 10" (25 × 25 cm)

Domed top — flat bottom edge, curved crown

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark 3.3" in from each TOP corner — the gap between those two marks is the neck. Scoop a shallow curve 2.1" deep between them. Then mark 0.7" in from each BOTTOM corner and draw a straight line up to the top corner on that side. Check the neck over the child's head before you cut the second one.
Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

TOOLS & SUPPLIES

+ 2 medium cardboard boxes

+ Scissors

+ Packing tape

+ Silver markers or metallic paint

+ Black marker for rivets

+ Ribbon or velcro for arm + leg ties

+ Pencil for tracing

FUN FACT!

Real medieval knight armor weighed up to 50 lbs. Yours weighs 0. That's a serious upgrade.

CHALLENGE!

Knightly quest: once fully armored, complete 5 tasks — rescue a stuffed animal, defend a pillow fort, slay a pillow dragon, carry a treasure, and bow to the king.

BUILD GUIDE — CARDBOARD KNIGHT ARMOR SET

1 STEP 1: MEASURE THE CHILD

Before cutting anything, lightly trace the child's torso, arm, shin, and head with pencil on the cardboard. Armor must fit them — armor that falls off is not armor.

2 STEP 2: BUILD THE HELMET

! ADULT ASSIST NEEDED

The Helmet Wrap is cut LONGER than any child's head on purpose. Wrap it around the child's head, overlap the ends by about 1 inch, mark that spot, trim off the extra and tape the seam. Using the cut mark on the template, cut the visor slit at eye level (2" (5 cm) tall × 10" (25 cm) wide). Cap it with the Helmet Top — round the corners before attaching.

SAFETY: Visor must allow full forward vision and breathing. Test before completing.

3 STEP 3: BUILD THE CHEST PLATE

Cut Chest Front to fit the child's torso width and length. Repeat for Chest Back. Punch holes at the top shoulder corners (fold marks on template). Thread tape loops through — these are the shoulder straps connecting front to back. Add a cross or HEE emblem on the front in silver.

PIECES USED IN THIS STEP

4 STEP 4: ADD SHOULDER PLATES

Round the outer corner of each Shoulder Plate (cut line on template). Tape them to the chest at the shoulder strap points — they should hang over the arm joints like real pauldrons.

5 STEP 5: BUILD THE ARM GUARDS

Score the center vertical line on each Arm Guard (score mark on template) so it can bend to wrap the arm. Punch holes at each end and thread ribbon — this ties it in place. Add black marker rivets around every edge.

PIECES USED IN THIS STEP

6

STEP 6: BUILD THE SHIN GUARDS

Score center vertical line (score mark on template). Punch holes at top and bottom. Thread ribbon. Add horizontal score lines across the surface for the plate mail look.

7

STEP 7: BUILD THE SHIELD

Cut the Shield (14" × 20" (36 × 51 cm)). Use the taper marks on the template to cut the bottom to a kite point. Score the center vertical spine for rigidity (score mark on template). Decorate with a family crest. Add 2 tape loops on the back for the arm strap.

8

STEP 8: SILVER EVERYTHING

Go over ALL 8 pieces with silver marker or paint. Add black marker rivets at every edge. This is the step that makes it look like real armor — do not skip any surface.

9

STEP 9: QUALITY CHECK

Put on all 8 pieces — everything fits and stays on. Silver on every piece. Compare to the cover photo. That's the standard.

QUALITY CHECK!

Does your build match the cover photo? Compare side by side before you call it done.
