CARDBOARD NEEDED:

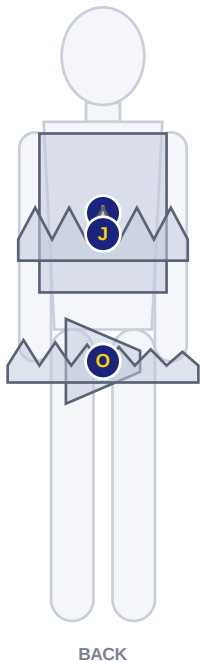

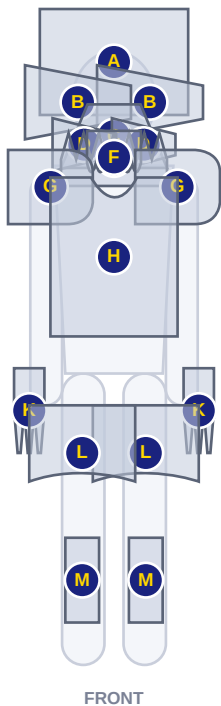

3 Large Boxes (at least 24" × 36" (61 × 91 cm) each)

MISSION GOAL:

Build and wear a complete 15-piece beast suit: a faceted skull with snout and jaw, neck collar, chest, back, spine ridge, 2 shoulder plates, 2 claw cuffs, 2 thigh plates, 2 shin guards and a scuted tail.

HOW IT ALL GOES TOGETHER — CARDBOARD BEAST SUIT

Every part you cut, shown on the child at its real size, with the letter from its own cut-template page. The grey figure is only there for scale — measure your own child, never this drawing. Pieces that wrap round the head, an arm or a leg are shown as they look once wrapped, not laid flat.

BUILD SEQUENCE — WHAT IT LOOKS LIKE AFTER EACH STEP

Each picture is the build once that step is finished. The part you just added is the ORANGE one. Grey is what was already there. Work down the page and yours should look like each picture in turn.

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark 2.5" in from each front corner. Draw straight lines back to the rear corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 6" (25 × 15 cm)

Tapered snout — wide at the back, narrow at the nose

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Along the FRONT edge mark 7 teeth about 1.4" apart. From each mark cut a triangle 2.5" deep. The zigzag IS the cut line — do not cut the edge straight first.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 5" (25 × 13 cm)

Lower jaw — teeth cut along the front edge, not a straight strip

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

FOLD — score lightly, then fold at this line

NOTE: Lower jaw — teeth cut into the front edge

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Divide the bottom edge into 6 equal sections of about 2.7" and trace a cup bottom in each.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

16" × 5" (41 × 13 cm)

Overlapping plate edge — scooped

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark 2.4" in from the two OUTER corners along the top and bottom edges, and 2.1" in along the outer edge. Trace round a bowl to curve that outer edge.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

8" × 7" (20 × 18 cm)
Rounded outer edge

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Mark 3.8" in from each TOP corner. Scoop a curve 2.1" deep between those marks — that is the neck. Leave the sides straight: the two fold lines wrap toward the ribs and need the full width.
Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

12" × 15" (30 × 38 cm)
Beast chest plate — neck scooped out of the top, straight sides for the rib folds

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Divide the top edge into 5 sections of about 3.2". In each one mark the centre and draw two lines down to the section edges, making a triangle 3" tall.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

16" × 5" (41 × 13 cm)
Spine scutes — triangular spikes

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:
Divide the bottom edge into 3 claws of about 3" each. Each claw is 3.4" long and narrows to a BLUNT tip about 1" wide — do not cut them to sharp points. Cut a small notch between each claw.
Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

9" × 8" (23 × 20 cm)
Cuff with 3 blunt-tipped claws along the bottom edge

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	FOLD — score lightly, then fold at this line

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark both bottom corners and keep them square. Scoop a curve up out of the middle of the bottom edge, 1.8" deep at its highest — trace round a bowl.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

10" × 9" (25 × 23 cm)

Knee clearance — curve scooped out of the bottom edge

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.

FOLD — score lightly, then fold at this line

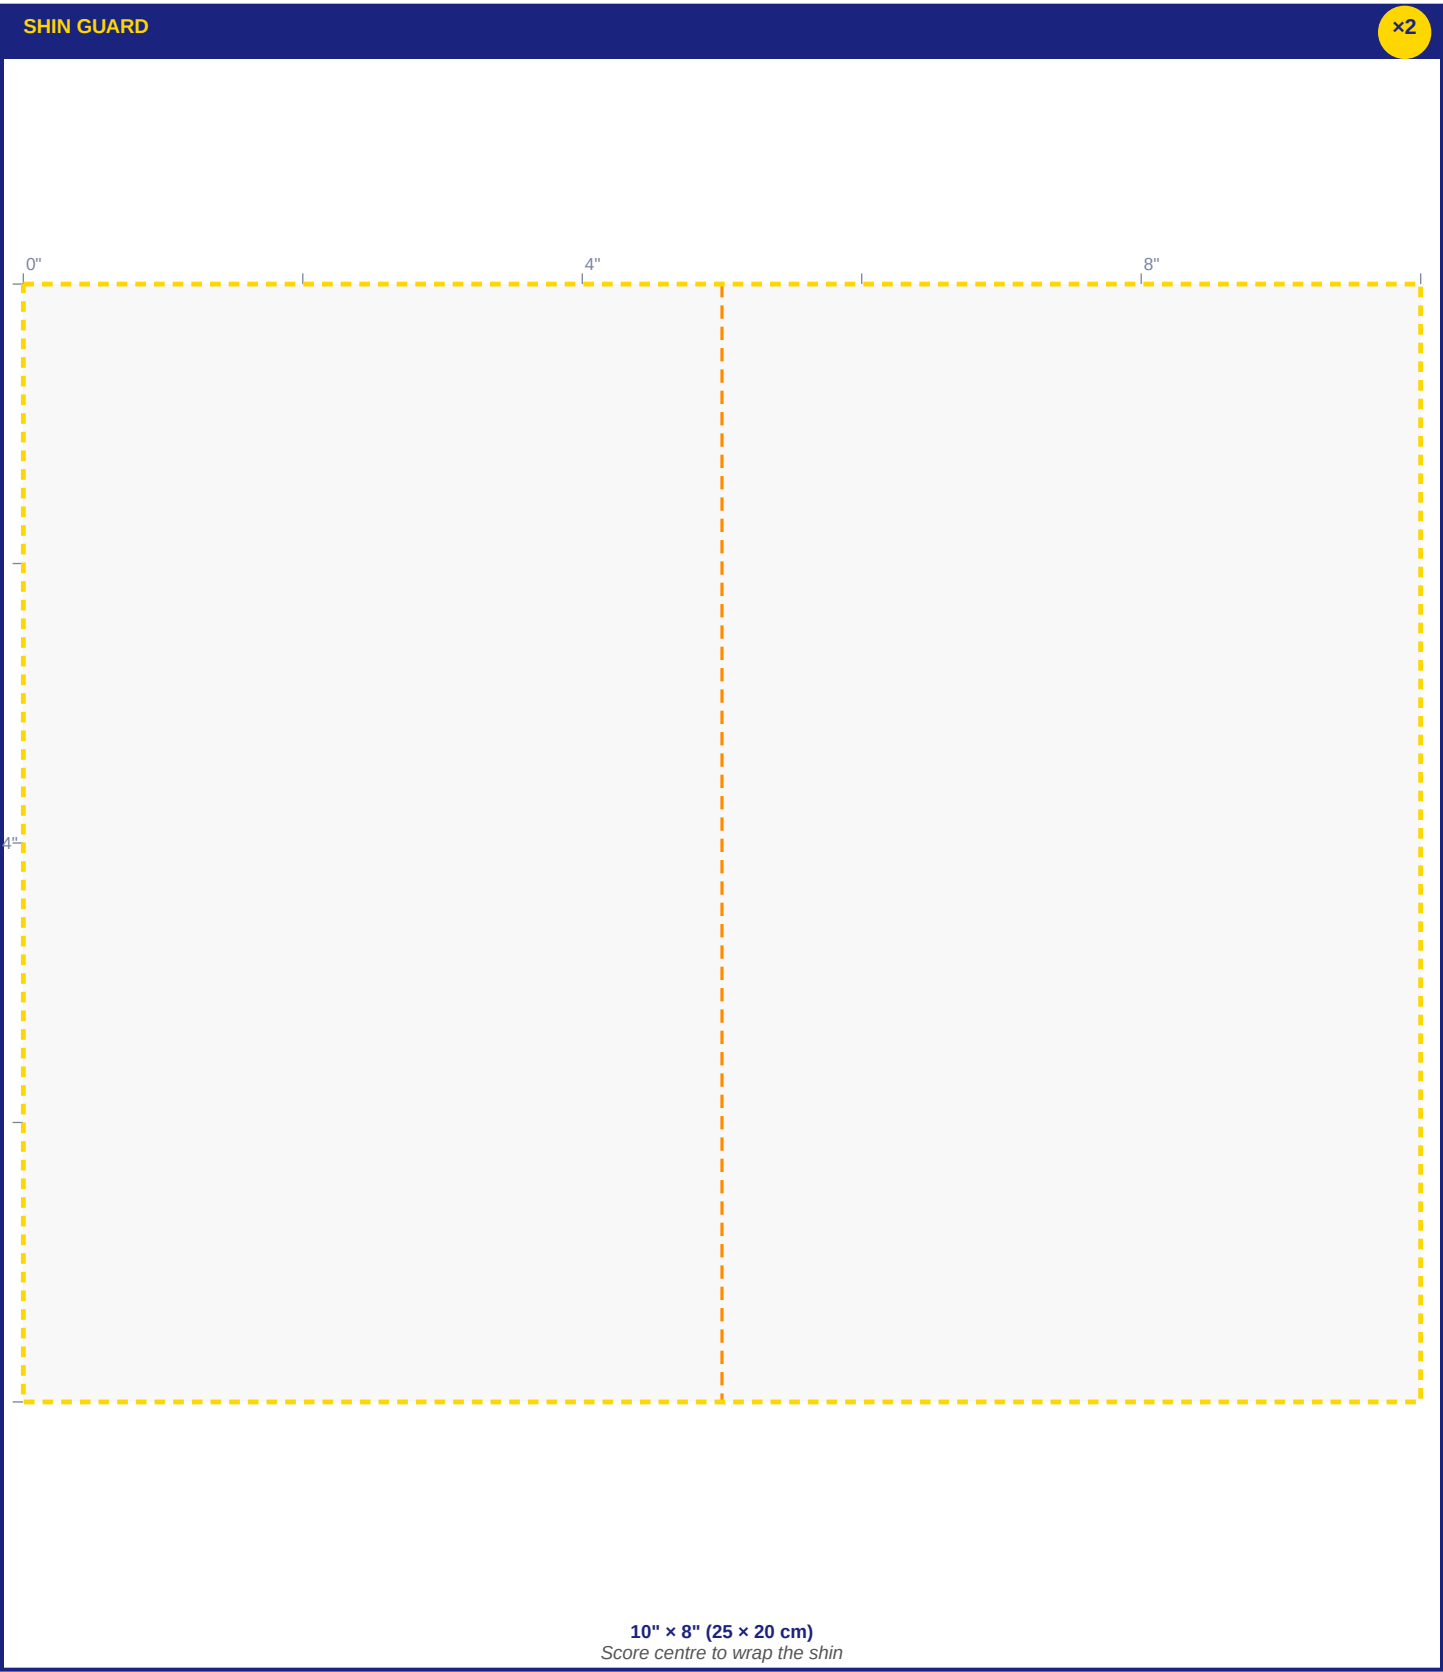

NOTE: Upper leg — must not block the knee

SHIN GUARD

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Mark the tip end 3" down from the top and the same up from the bottom, leaving a 2" tip. Draw straight lines from those marks back to the base corners.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

22" × 8" (56 × 20 cm)

Tapered tail — full height at the base, narrow at the tip

MARK LEGEND FOR THIS PIECE:

GOLD OUTLINE — this is the shape you cut. It is NOT a rectangle.	ROLL — roll the cardboard tightly in this direction
--	---

NOTE: Tapers to a point, rolls into a cone

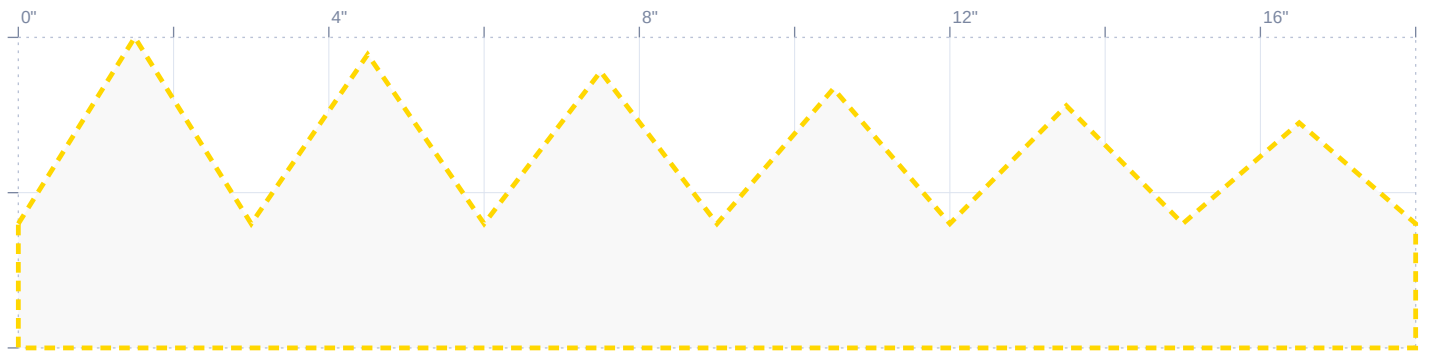

TAIL SCUTE STRIP

18" × 4" (46 × 10 cm) | Cut ×1

CUT

TAIL SCUTE STRIP

×1

HOW TO DRAW THIS SHAPE ON YOUR CARDBOARD:

Divide the strip into 6 sections. Make a triangle in each, starting 2.4" tall at the base end and shrinking to about 1.1" at the tip.

Cut along the GOLD dashed outline. The faint grey box is the flat piece of cardboard it comes from; the grid squares are 2".

18" × 4" (46 × 10 cm)

Tail scutes — spikes shrinking toward the tip

MARK LEGEND FOR THIS PIECE:

TOOLS & SUPPLIES

- + 3 large cardboard boxes
- + Scissors
- + Box cutter — ADULT USE ONLY
- + Packing tape (3+ rolls)
- + Ruler + pencil
- + Paint in your creature colours
- + Black marker for scale and claw detail
- + Ribbon or elastic for the shoulder, arm and leg ties

FUN FACT!

Stegosaurus had plates down its spine much like this ridge — scientists still argue about whether they were for defence, display, or keeping cool.

CHALLENGE!

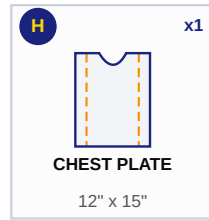

Beast challenge: work out how your creature moves, what it eats and what noise it makes when it is happy. Then stalk the hallway in character.

1

STEP 1: FLATTEN & PLAN

Flatten all 3 boxes and lay every piece out before cutting anything. This is a long build — do the whole layout first. Trace the child's torso onto the Chest Plate now; everything else is measured, but the chest is fitted.

PIECES USED IN THIS STEP

2

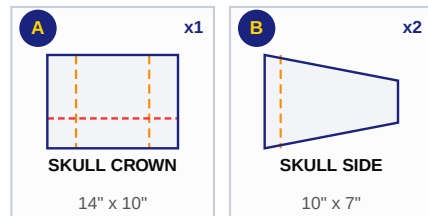

STEP 2: CUT THE SKULL PANELS

! ADULT ASSIST NEEDED

Cut the Skull Crown (14" x 10" (36 x 25 cm)) and 2 Skull Sides (10" x 7" (25 x 18 cm)). Taper each Side toward the snout end. Cut the brow edge on the Crown ABOVE the eyeline — the brow shades the eyes, it never covers them.

SAFETY: The brow must sit above the eyes. If the child has to tip their head back to see forward, cut it higher and try again.

PIECES USED IN THIS STEP

3

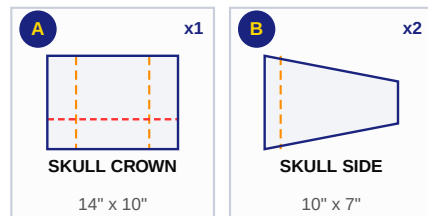

STEP 3: BUILD THE SKULL BOX

! ADULT ASSIST NEEDED

Fold both facets of the Skull Crown down. Tape a Skull Side inside each one, tabs up under the crown. You now have an angled, faceted skull rather than a flat plate — that faceting is what makes it read as bone. Try it on before going further.

SAFETY: Two people helps — one holds the facets at angle, one tapes.

PIECES USED IN THIS STEP

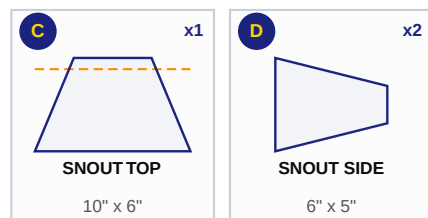

4

STEP 4: BUILD THE SNOUT

Fold the tab on the Snout Top and taper both its sides. Tape a Snout Side wedge under each edge to make a three-sided box, open at the bottom. Tape the whole assembly to the front of the skull, angled down and out.

PIECES USED IN THIS STEP

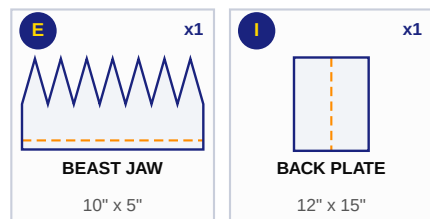

5

STEP 5: HINGE THE JAW

Cut zigzag teeth along the front edge of the Beast Jaw. Fold its tab and tape it under the back of the snout so it hangs below. Leave the mouth open — that is where the child breathes and talks.

SAFETY: Keep the mouth gap open. A closed snout gets hot and muffled within minutes.

PIECES USED IN THIS STEP

6

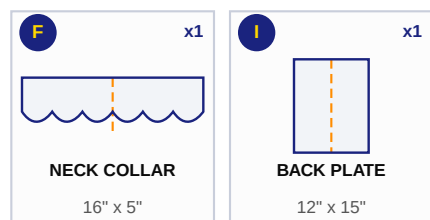

STEP 6: FIT THE NECK COLLAR

! ADULT ASSIST NEEDED

Cut the scalloped edge along the Neck Collar and wrap it loosely around the neck, taping at the back. LOOSE is the word — it should turn freely with the head and lift off easily if pulled.

SAFETY: Never tape the collar tight or closed around the neck. It rests on the shoulders; it does not grip.

PIECES USED IN THIS STEP

7

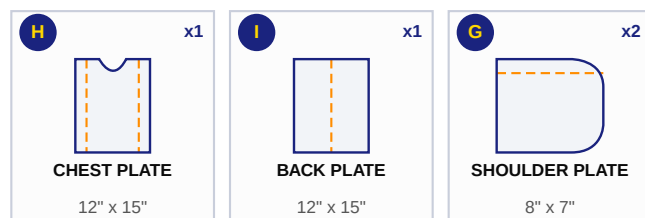

STEP 7: CUT CHEST & BACK

! ADULT ASSIST NEEDED

Cut the Chest Plate and Back Plate (12" x 15" (30 x 38 cm) each). Fold the chest side panels back so they wrap toward the ribs. Punch holes at both top corners of each and thread ribbon — these become the shoulder ties.

SAFETY: Adult punches the holes. Ties over the shoulders, never around the neck.

PIECES USED IN THIS STEP

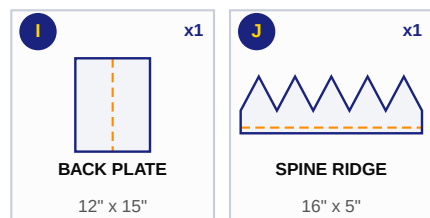

8

STEP 8: BUILD THE SPINE RIDGE

Cut triangle scutes along the Spine Ridge — bigger in the middle, smaller toward each end. Fold the bottom tab and tape it down the centre line of the Back Plate so the scutes stand up. This is the detail people notice first.

PIECES USED IN THIS STEP

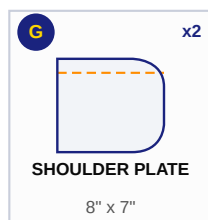

9

STEP 9: ADD THE SHOULDER PLATES

Round the outer edge of each Shoulder Plate. Fold the tabs and tie them to the shoulder ribbons so they sit over the joint and hang slightly outward, like real pauldrons. They should lift when the arm lifts.

PIECES USED IN THIS STEP

10

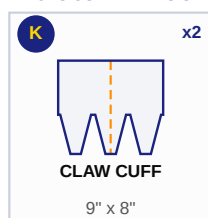

STEP 10: MAKE THE CLAW CUFFS

! ADULT ASSIST NEEDED

Score each Claw Cuff down the centre so it bends around the forearm. Cut 3 claws along the front edge, taper each, then BLUNT every tip. Punch holes at both ends and thread ribbon to tie them on.

SAFETY: Blunt the claw tips. Pointed cardboard at hand height near a face is worth ten seconds of trimming.

PIECES USED IN THIS STEP

11

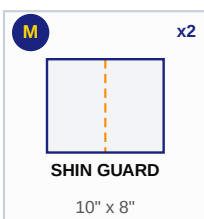

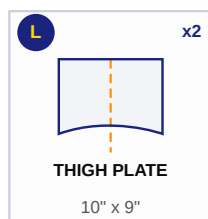

STEP 11: ARMOUR THE LEGS

! ADULT ASSIST NEEDED

Score each Thigh Plate and Shin Guard down the centre so they wrap. Cut the curve on the Thigh Plates that clears the knee. Tie thighs above the knee and shins below it, with the gap at the joint. Walk, then sit, then stand — if any tie stops the knee bending, move it.

SAFETY: Leg armour must never restrict the knee. Test stairs before going out — this is the piece that causes falls.

PIECES USED IN THIS STEP

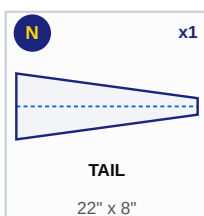

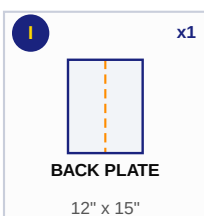

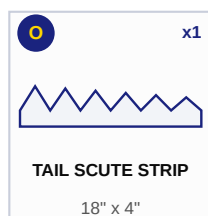

12

STEP 12: BUILD THE TAIL

Taper the Tail from 8" (20 cm) wide to about 2" (5 cm) at the tip, roll it loosely into a long cone and tape the seam. Cut the Tail Scute Strip into triangles, smaller toward the tip, and tape them along the top. Tape the wide end to the bottom of the Back Plate so it hangs and swings.

SAFETY: A tail is a trip hazard behind the wearer. Keep it clear of stairs, and tell whoever is walking behind them.

PIECES USED IN THIS STEP

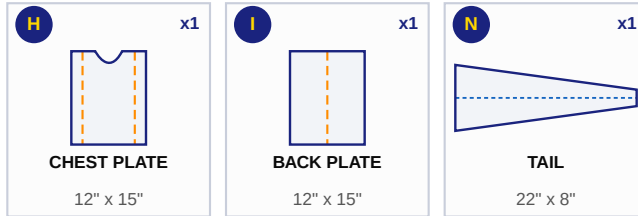

13

STEP 13: PAINT & QUALITY CHECK

Paint the whole suit, then add scale lines in black marker across the skull, chest, back, legs and tail. Final test: every piece on, walk the hallway, turn the head both ways, lift both arms, sit down and stand up, climb three stairs. Sight clear, breathing easy, knees bending, nothing falls off, tail swings. Compare to the cover photo — that is the standard.

SAFETY: Cardboard burns. Keep the whole suit away from candles and jack-o-lanterns, and add reflective tape if it is going out after dark.
